

2017 – 2018 Calendar of Events

To future and present Educators,

We would like to begin by acknowledging that the land on which we've gathered for the last two years is the traditional territory of the Attawandaron (Neutral), Anishnaabeg, and Haudenosauonee peoples. We have been given the opportunity to learn and grow as people and as future educators. There is an ancient proverb, whose source is unknown, but speaks volumes it states: "Treat the Earth well. It was not given to you by your parents; it was loaned to you by your children. We do not inherit the Earth from our Ancestors; we borrow it from our Children." We owe it to the children of these lands, past, present, and future, to provide them with the best, most truthful education in which they can learn, grow, and be inspired.

The following collection of cross-curricular resources has been developed with open minds and open hearts. We have done our very best to create inclusive, culturally appropriate resources for teachers to be able to bring indigenous studies into the mainstream classroom. We as Canadians have a responsibilities towards reconciliation and we as teachers have the opportunity to take steps forward by teaching indigenous pedagogy as well as Canadian truths to our students.

We hope that this is a step in the right direction. We apologize for any mistakes we have made within this document and we will gladly accept any feedback on its contents.

Sincerely,

The Teachers of Section 03, Aboriginal Ways of Knowing
