

# WHY IS ENGINEERING A GREAT CAREER FOR WOMEN?

It's exciting, you make great money,  
and you can make a difference

If you are a girl in Grade 7-10, come to "Go ENG Girl" to:

- **learn what being an engineer is all about**
- **meet women engineers**
- **talk with university students and view their projects**
- **participate in hands-on activities**

Parents can join a panel discussion with women engineers, engineering professors and students.
