Introducing the New SelectedWorks

Rebuilt from the ground up, the new and mobile-friendly SelectedWorks offers innovative features and functionality. On the surface, we gave it a sleek and clean design with straightforward site navigation, as well as enhanced layout to highlight content. For the author, we made it easier to upload and manage their works by providing intuitive editorial tools and updates in real time.

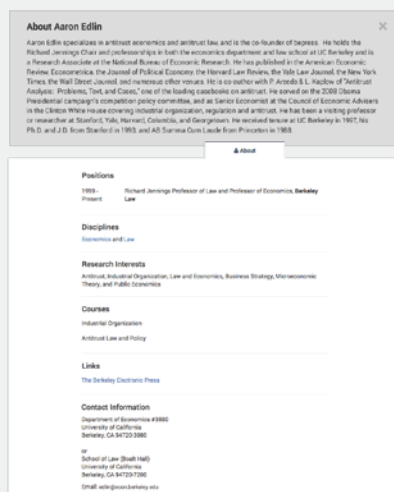

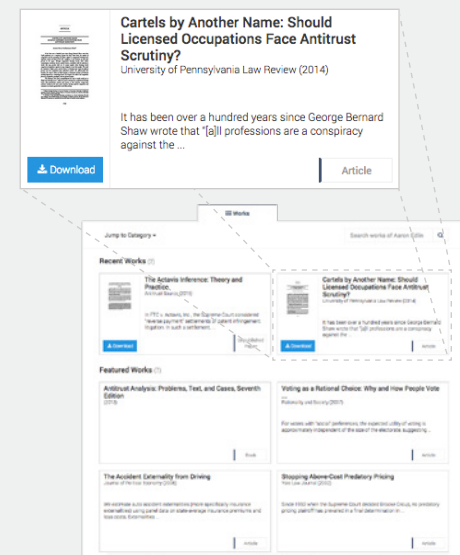

Why SelectedWorks?

SelectedWorks is *the* place to post and share your work. At its core, SelectedWorks is a dynamic tool used by scholars to promote their research; it is specifically designed to allow readers to easily discover and read your work. Detailed readership information and a live download map are provided via the **Author Dashboard**, your own personalized reporting tool.

Scholarship Showcase

With author scholarship at the forefront, SelectedWorks highlights each article, presentation, book, working paper, etc., with a unique card view and thumbnail preview. Organize your works under customized categories unique to your research. New multimedia display options are also available, including streaming media.

Author Profile

SelectedWorks not only showcases your work, but also gives you the opportunity to tell readers who you are. Acquaint visitors to your site with an **Author Introduction** and a dedicated **About** page outlining your biography.

Get Started Now!

The new SelectedWorks is scheduled for release in Fall 2015, but you can get started building your own SelectedWorks site now (and for free) by visiting <http://works.bepress.com>.

You can also create your SelectedWorks site via your ExpressO submission. See page 13 for more information.
