ENDOCRINOLOGY GRAND ROUNDS

Wednesday, July 7, 2010

1730 hours

BUFFET DINNER WILL BE SERVED AT 1700

Windsor Regional Hospital (Met Campus)

Auditorium A & B

TOPIC

“Fibromyalgia &/or Diabetic Peripheral Neuropathic Pain Management”

Learning objective:

1. Describe the etiology of diabetic neuropathy and the various parts of the nervous system that help to process pain.
2. Discuss the normal and pathologic mechanisms that contribute to pain.
3. Explain the dynamic processes that may serve to modify pain sensations.
4. Describe optimal clinical management of diabetic peripheral neuropathic pain and options to help plan treatments for their individual patients.

Dr. Moulin, MD, Professor

Depts of Clinical Neuro Sciences/Oncology Earl Russell Chair Pain Research University of
Western Ontario
London Regional Cancer Program
