

EXAM CONFLICTS DUE TO OBSERVANCE OF RELIGIOUS HOLY DAYS.

Students who are unable to write a final examination(s) during the regularly scheduled time slot because of a conflict with religious conviction must apply for the alternative examination(s) in the course(s) involved by the end of the normal add/drop period for the particular session. The Registrar's Office will schedule the alternative examination(s) for those students in another slot(s) within the regular examination period. Please download the appropriate form from <http://www.uwindsor.ca/registrar> and submit to the Office of the Registrar.

WRITING THREE OR MORE EXAMS ON THE SAME DAY

A student scheduled to write three invigilated final examinations in one calendar day, or three or more final examinations in consecutive time slots over a 24-hour period, may apply to have one examination rescheduled on an alternate examination day. The determination of which examination shall be rescheduled and the date of the alternate examination (may be the last possible day of the examination period) shall be made by the Registrar. Please download the appropriate form from <http://www.uwindsor.ca/registrar> and submit to the Office of the Registrar.

Note: These applications must be submitted by the end of the fourth week of classes (second week of classes for 6 week courses).

Course Section	Credits	Act	Days	Start Time	Stop Time	Bldg/Room	Professor	Exam Time
Sociology								
0248-687	Unruly City urban analysis & ethnography							
Section 1	3.00	LEC	W	02:30	05:20PM	Chrysler Hall South 53-2	Harney, Nicholas	
As cities assume a growing importance in all societies, as they house an increasing proportion of the world's people, and as they become more closely interlinked through the processes of globalisation, so they command more attention from anthropologists and sociologists. The aim of this course is to consider the work of anthropologists, sociologists and others who have explored and attempted to conceptualise cities and urban spaces, urban cultures and social relations, and the intersections between cultural phenomena and urban transformation all within the context of political economic formations. The course further aims to familiarise students with the variable theoretical perspectives that have been brought to bear on urban life, and the way in which ethnographic research may be undertaken in cities. Students develop the skills to analyse and debate social issues and aspects of cities and urban life.

Section 1	3.00	LEC	TR	10:00	11:20AM	Dillon Hall	365 TBA	Dec 11 03:30pm
	Mathematical methods for physicists. A physics-based approach to the utilization of advanced mathematics commonly encountered in upper year and graduate physics courses and a partial introduction to some exotic objects in physics that are not-so-typically encountered. Topics are not limited to, but may include: the ubiquitous differential equations in physics and their solutions (e.g. spherical harmonics, Bessel functions, Fourier series and Fourier transforms); complex variables and analysis; symmetries and their importance to physics; the variational principle and the importance of action; coordinate transformations; exotic objects (black holes, particles, higher dimensional objects); and paradoxes in physics.							
0364-584	Design and Application of Lasers

Strategy & Entrepreneurship

0475-692 Top.in Strat - Law Business Agreements.

Section 1 3.00 LEC TR 01:00 02:50PM Ianni Law Building

Keller, Werner
H

An intensive seminar course provides learning experiences at the intersection of law and business. Through readings, mini lectures, and analysis of business agreements, students prepare for participation in class discussions to engage in active and collaborative learning. Discussions focus on real business agreements used as case studies to enhance experiential, interdisciplinary learning, where the diversity of the course learning community provides multiple perspectives to unpack different agreements. Prerequisite: successful completion of 610 Business Law or 75-397

				M	10:00	12:50PM	Centre For Engineering Innovation	1181
	Design for Variety (DFV), Design Structural Matrix (DSM), modularity and commonality indices, product families and platforms, variety management methods, mass-customization and personalization, classification and coding, grouping, variant-oriented process planning and production planning, variety induced complexity. Experiential learning exercises. This is an advanced research-oriented graduate course normally for MASc. and PhD students in Industrial and Mechanical engineering students with design, automotive and manufacturing focus. Students are expected to have completed courses in design and CAD. Familiarity with I-Deas and Siemens NX for design software is an asset. Mechanical or Industrial MEng students or graduate students from other engineering disciplines are admitted on instructor approval only.							
0691-590	Topic: Simulation of Industrial Systems							
Section 25		3.00	LEC	TR	01:00	02:20PM	Centre For Engineering Innovation	1101 TBA Dec 18 03:30pm

Course	Section	Credits	Act	Days	Start Time	Stop Time	Bldg/Room	Professor	Exam Time
Kinesiology									
0795-595	Topic - Age Friendly Domains								
Section	1	3.00	LEC	T	01:00	03:50PM	HK Building 142	Van Wyk, Paula M	
	This course offers an anlysis of the reserach and literature related to age-friendly domains. Topics may include the physical environment, housing, social environment, transportation, and communication, information and media.								
0795-595	Topic: Nutrition and Chronic Disease								
Section	2	3.00	LEC	W	01:00	03:50PM	HK Building 142	Woodruff Atkinson, Sarah J	
	Nutrition is integral to the etiology, prevention, and treatment of chronic diseases. This course will examine nutritional aspects of key chronic diseases affecting the Canadian population. There will be an opportunity to explore, in depth, specific conditions and aspects of nutritional assessment or intervention that interest them. This course has been designed using case-based/problem-based learning (PBL). Small group discussion and self-directed learning are important aspects of the approach.								
0795-595	Topic: Newsroom								
Section	3	3.00	LEC	W	09:00	11:50AM	HK Building 142	Greenham, Craig G	
	Newsroom situates students into a living, breathing newsroom dedicated to journalistic coverage of University of Windsor Lancer varsity athletics. Students will engage in cross-platform content creation (e.g. text-based, audio, audio/visual journalism) that the job market covets. Student-generated content, in its various forms, will be posted on a course-created website. Alternating "newsroom" roles as the term progresses, learners will experience a number of jornaliststic duties that will enhance their abilities and understanding of sport media.								
0795-692	Independent Study								
Section	1	3.00	LEC					Faculty	
0795-695	Doctoral Seminar								
Section	1	3.00	LEC					Faculty	
0795-698	Community Internship								
Section	1	3.00	LEC						
0795-795	Internship								
Section	1	3.00	LEC					Faculty	
0795-797	Thesis								
Section	1	12.00	LEC					Faculty	
0795-798	Dissertation Research								
Section	1	12.00	LEC					Faculty	
Nursing									
1163-550	Pathophysiology for Nurse Practitioners								
Section	1	3.00	LEC					Freeman-Gibb, L.	
	Students meet Wednesday online from 6:00 to 9:00 pm. Roles starts week one - alternates weekly with Patho.								
1163-552	Primary Care NP Roles & Responsibilities								
Section	1	3.00	LEC					Freeman-Gibb	
	Students meet Wednesday online from 6:00 to 9:00 pm. Roles starts week one - alternates weekly with Patho.
