1.0 INTRODUCTION

This manual sets out the learning outcomes and related expectations, policies and procedures pertaining to student field practice in the Bachelor of Social Work (BSW) program at the University of Windsor. Students should also refer to the current University Calendar for rules and regulations governing undergraduate studies.

1.1. Primary Program Objectives

Field education is a requirement of the Social Work program and successful completion of the Field Education courses is required for graduation. All students will be assigned one field placement in a human service organization or community setting, September to May in their fourth year. Over the course of this placement, students will complete a total minimum of 700 field hours.

All policies, procedures and decisions in the Field Education Program are based upon the following principles:

- Standards of Ethical Practice
- Accountability
- Professionalism
- Equity
- Suitability

The Field Education program strives to:

- foster professional development wherein personal and professional skills are promoted in the interest of competent professional practice
- develop competence as an entry level professional in generalist social work practice within the four contexts of practice: organization, community, social work skills and professional context
- develop substantive understanding of social work knowledge, values and skills and demonstrate an understanding of and commitment to the principles which underlie professional social work practice
- apply professional skills and techniques as well as analytical competence to work with direct and indirect systems in an agency/community setting to develop an understanding of the relationships between human behaviour and societal processes
- develop self-awareness and self-discipline sufficient to enable students to apply their knowledge, values, and skills when working with client systems
- develop critical thinking skills and an inquiring interest in professional issues and knowledge along with a commitment to the ethical principles of Social Work and the development of a professional identity
2.0 PHILOSOPHIES AND PRINCIPLES

2.1. University of Windsor, Mission Statement

The University is a full member of the Association of Universities and Colleges of Canada, the Association of Commonwealth Universities, and the International Association of Universities.

The University of Windsor is Canada’s most personal comprehensive university. It combines a strong and focused emphasis on the learning experience of every student with a very broad range of graduate, undergraduate, and professional programs.

Its reason for being is summed up in its mission statement: Enabling people to make a better world through education, scholarship, research and engagement.

2.2. The School of Social Work Mission Statement

The Undergraduate programs in the School of Social Work are organized as sequences, which combine studies in the social sciences, the humanities and other course options along with professional courses in social work. The objective of the programs is to prepare graduates for generalist Social Work practice.

“The mission of the School of Social Work is to promote social justice through quality professional education, advocacy, community partnerships, and the development and dissemination of knowledge” (University of Windsor, School of Social Work, May 2003).

2.3. Social Justice Statement

The School’s understanding of social justice and its mandate in social work education finds its roots in the profession’s historical commitment to serve the interests of oppressed and vulnerable populations and a set of fundamental values stated in the profession’s Code of Ethics. This mandate is realized in the preparation of students with knowledge, research and practice intervention skills to assume professional roles to eradicate systemic barriers which oppress citizens and disenfranchised populations.

Principles of justice find their meaning here in a fundamental belief in the dignity of all persons, the importance of access of citizens to participate, and striving for a more equitable distribution of our society’s resources in the interest of promoting quality of life for all citizens (Passed at School Council, May 2001).
2.4. Partnerships

The School of Social Work is uniquely situated to serve an extensive rural and urban geographic area which includes the Windsor/Essex region, Kent and Lambton counties, London and beyond. The School works in partnership with government, non-government and community-based agencies and has a history of collaboration and partnership with skilled practitioners in the community, offering a broad range of social work practice experiences.

2.5. The Generalist Practice Perspective

The BSW program at the University of Windsor is taught from a generalist practice perspective: While many definitions of Generalist Practice exist, we have selected the following from Social Work Practice, A Generalist Approach, Canadian Edition:

“[Generalist practice is] practice in which the client and worker together assess the need in all of its complexity and develop a plan for responding to that need. A strategy is chosen from a repertoire of responses appropriate for work with individuals, families, groups, agencies, and communities. The unit of attention is chosen by considering the system needing to be changed. The plan is carried out and evaluated” (Johnson, McClelland & Austin, 2000, p. 415).

Generalist practice, then, reflects the evolutionary response over the past century to societal concerns and needs to events and thinking. Generalist practice reflects the theoretical heritage of the profession: assessment, person in the situation, relationship, process and intervention. Social work is an ever-changing and ever-developing professional endeavour. However, its strong emphasis remains assessment and intervention through collaboration with clients (Johnson, McClelland & Austin, 2000, p. 33).

Guided by the principles of fundamental human rights and responsibilities and respect for human diversity, social work seeks to facilitate well-being and participation of people, promote social and economic justice, address structural sources of inequities, and eliminate conditions that infringe human and civil rights. Grounded in reflective practice and engaged in persistent inquiry into theoretical and research bases in the field, social work employs professional approaches and interventions to enhance individual, family, group, community, and population well-being (Principle 5, Standards for Accreditation, June 2013).

2.6. Field Education

The integration of knowledge, values and skills in the context of field education is a critical and distinctive aspect of social work education; therefore field education is considered the central component of social work education. (Standards for Accreditation, Principle 5, Canadian Association for Social Work Education, 2014)
Sheafor and Jenkin’s (1982) description of the mission of field education distinguishes social work field education from other types of internships:

“A vital part of social work education is field instruction. Field instruction is an experiential form of teaching and learning in which the social work student is helped to: 1) consciously bring selected knowledge to the practice situation; 2) develop competence in performing practice skills; 3) learn to practice within the framework of social work values and ethics; 4) develop a professional commitment to social work practice; 5) evolve a practice style consistent with personal strengths and capacities; and, 6) develop the ability to work effectively within a social agency” (p. 3).

2.7. Canadian Association of Social Workers Code of Ethics 2005

Students are expected to be familiar with and comply with the CASW Code of Ethics.

Purpose of the CASW Code of Ethics

Ethical behaviour lies at the core of every profession. The Canadian Association of Social Workers (CASW) Code of Ethics sets forth values and principles to guide social workers’ professional conduct. A code of ethics cannot guarantee ethical behaviour. Ethical behaviour comes from a social worker’s individual commitment to engage in ethical practice. Both the spirit and the letter of this Code of Ethics will guide social workers as they act in good faith and with a genuine desire to make sound judgments.

Principles of Social Work

The CASW Code of Ethics is consistent with the International Federation of Social Workers’ (IFSW) International Declaration of Ethical Principles of Social Work (1994, 2004), which requires members of the CASW to uphold the values and principles established by both the CASW and the IFSW. Other individuals, organizations and bodies (such as regulatory boards, professional liability insurance providers, courts of law, boards of directors of organizations employing social workers and government agencies) may also choose to adopt this Code of Ethics or use it as a basis for evaluating professional conduct. In Canada, each province and territory is responsible for regulating the professional conduct of social workers to ensure the protection of the public. Social workers are advised to contact the regulatory body in their province or territory to determine whether it has adopted the CASW Code of Ethics.

Recognition of Individual and Professional Diversity

The CASW Code of Ethics does not provide a set of rules that prescribe how social workers should act in all situations. Further, the Code of Ethics does not specify which values and principles are most important and which outweigh others in instances of conflict. Reasonable
differences of opinion exist among social workers with respect to which values and principles should be given priority in a particular situation. Further, a social worker’s personal values, culture, religious beliefs, practices and/or other important distinctions, such as age, ability, gender or sexual orientation can affect his/her ethical choices. Thus, social workers need to be aware of any conflicts between personal and professional values and deal with them responsibly.

**Ethical Behaviour Requires Due Consideration of Issues and Judgment**

Social work is a multifaceted profession. As professionals, social workers are educated to exercise judgment in the face of complex and competing interests and claims. Ethical decision-making in a given situation will involve the informed judgment of the individual social worker. Instances may arise when social workers’ ethical obligations conflict with agency policies, or relevant laws or regulations. When such conflicts occur, social workers shall make a responsible effort to resolve the conflicts in a manner that is consistent with the values and principles expressed in this *Code of Ethics*. If a reasonable resolution of the conflict does not appear possible, social workers shall seek appropriate consultation before making a decision. This may involve consultation with an ethics committee, a regulatory body, a knowledgeable colleague, supervisor or legal counsel.

**Preamble**

The social work profession is dedicated to the welfare and self-realization of all people; the development and disciplined use of scientific and professional knowledge; the development of resources and skills to meet individual, group, national and international changing needs and aspirations; and the achievement of social justice for all. The profession has a particular interest in the needs and empowerment of people who are vulnerable, oppressed, and/or living in poverty. Social workers are committed to human rights as enshrined in Canadian law, as well as in international conventions on human rights created or supported by the United Nations.

As professionals in a country that upholds respect for diversity and in keeping with democratic rights and freedoms, social workers respect the distinct systems of beliefs and lifestyles of individuals, families, groups, communities and nations without prejudice (United Nations Centre for Human Rights, 1992). Specifically, social workers do not tolerate discrimination based on age, abilities, ethnic background, gender, language, marital status, national ancestry, political affiliation, race, religion, sexual orientation or socio-economic status.

**Core Social Work Values and Principles**

Social workers uphold the following core social work values:

**Value 1: Respect for Inherent Dignity and Worth of Persons**

**Value 2: Pursuit of Social Justice**
Value 3: Service to Humanity  
Value 4: Integrity of Professional Practice  
Value 5: Confidentiality in Professional Practice  
Value 6: Competence in Professional Practice

The following section describes each of these values and discusses their underlying principles.

Value 1: Respect for the Inherent Dignity and Worth of Persons

Social work is founded on a long-standing commitment to respect the inherent dignity and individual worth of all persons. When required by law to override a client’s wishes, social workers take care to use the minimum coercion required. Social workers recognize and respect the diversity of Canadian society, taking into account the breadth of differences that exist among individuals, families, groups and communities. Social workers uphold the human right of individuals and groups as expressed in The Canadian Charter of Rights and Freedoms (1982) and the United Nations Universal Declaration of Human Rights (1948).

Principles:

- Social workers respect the unique worth and inherent dignity of all people and uphold human rights.
- Social workers uphold each person’s right to self-determination, consistent with that person’s capacity and with the rights of others.
- Social workers respect the diversity among individuals in Canadian society and the right of individuals to their unique beliefs consistent with the rights of others.
- Social workers respect the client’s right to make choices based on voluntary, informed consent.
- Social workers who have children as clients determine the child’s ability to consent and where appropriate, explain to the child and to the child’s parents/guardians, the nature of the social worker’s relationship to the child.
- Social workers uphold the right of society to impose limitations on the self-determination of individuals, when such limitations protect individuals from self-harm and from harming others.
- Social workers uphold the right of every person to be free from violence and threat of violence.

Value 2: Pursuit of Social Justice

Social workers believe in the obligation of people, individually and collectively, to provide resources, services and opportunities for the overall benefit of humanity and to afford them protection from harm. Social workers promote social fairness and the equitable distribution of resources, and act to reduce barriers and expand choice for all persons, with special regard for those who are marginalized, disadvantaged, vulnerable, and/or have exceptional needs. Social workers oppose prejudice and discrimination against any person or group of persons, on any
grounds, and specifically challenge views and actions that stereotype particular persons or groups.

Principles:

- Social workers uphold the right of people to have access to resources to meet basic human needs.
- Social workers advocate for fair and equitable access to public services and benefits.
- Social workers advocate for equal treatment and protection under the law and challenge injustices, especially injustices that affect the vulnerable and disadvantaged.
- Social workers promote social development and environmental management in the interests of all people.

Value 3: Service to Humanity

The social work profession upholds service in the interests of others, consistent with social justice, as a core professional objective. In professional practice, social workers balance individual needs, and rights and freedoms with collective interests in the service of humanity. When acting in a professional capacity, social workers place professional service before personal goals or advantage, and use their power and authority in disciplined and responsible ways that serve society. The social work profession contributes to knowledge and skills that assist in the management of conflicts and the wide-ranging consequences of conflict.

Principles:

- Social workers place the needs of others above self-interest when acting in a professional capacity.
- Social workers strive to use the power and authority vested in them as professionals in responsible ways that serve the needs of clients and the promotion of social justice.
- Social workers promote individual development and pursuit of individual goals, as well as the development of a just society.
- Social workers use their knowledge and skills in bringing about fair resolutions to conflict and in assisting those affected by conflict.

Value 4: Integrity in Professional Practice

Social workers demonstrate respect for the profession’s purpose, values and ethical principles relevant to their field of practice. Social workers maintain a high level of professional conduct by acting honestly and responsibly, and promoting the values of the profession. Social workers strive for impartiality in their professional practice, and refrain from imposing their personal values, views and preferences on clients. It is the responsibility of social workers to establish the tenor of their professional relationship with clients, and others to whom they have a professional duty, and to maintain professional boundaries. As individuals, social workers take care in their actions to not bring the reputation of the profession into disrepute. An essential element of integrity in professional practice is ethical accountability based on this Code of
Ethics, the IFSW International Declaration of Ethical Principles of Social Work, and other relevant provincial/territorial standards and guidelines. Where conflicts exist with respect to these sources of ethical guidance, social workers are encouraged to seek advice, including consultation with their regulatory body.

Principles:

- Social workers demonstrate and promote the qualities of honesty, reliability, impartiality and diligence in their professional practice.
- Social workers demonstrate adherence to the values and ethical principles of the profession and promote respect for the profession’s values and principles in organizations where they work or with which they have a professional affiliation.
- Social workers establish appropriate boundaries in relationships with clients and ensure that the relationship serves the needs of clients.
- Social workers value openness and transparency in professional practice and avoid relationships where their integrity or impartiality may be compromised, ensuring that should a conflict of interest be unavoidable, the nature of the conflict is fully disclosed.

Value 5: Confidentiality in Professional Practice

A cornerstone of professional social work relationships is confidentiality with respect to all matters associated with professional services to clients. Social workers demonstrate respect for the trust and confidence placed in them by clients, communities and other professionals by protecting the privacy of client information and respecting the client’s right to control when or whether this information will be shared with third parties. Social workers only disclose confidential information to other parties (including family members) with the informed consent of clients, clients’ legally authorized representatives or when required by law or court order. The general expectation that social workers will keep information confidential does not apply when disclosure is necessary to prevent serious, foreseeable and imminent harm to a client or others. In all instances, social workers disclose the least amount of confidential information necessary to achieve the desired purpose.

Principles:

- Social workers respect the importance of the trust and confidence placed in the professional relationship by clients and members of the public.
- Social workers respect the client’s right to confidentiality of information shared in a professional context.
- Social workers only disclose confidential information with the informed consent of the client or permission of client’s legal representative.
- Social workers may break confidentiality and communicate client information without permission when required or permitted by relevant laws, court order or this Code.
- Social workers demonstrate transparency with respect to limits to confidentiality that applies to their professional practice by clearly communicating these limitations to clients early in their relationship.
NOTE: Duty to Report: Both duty to report and duty to inform supersede confidentiality requirements. Each province has legislation regarding the duty to report suspected child abuse. In Ontario, this is covered under Section 72 of the Child and Family Services Act (CFSA). Anyone who suspects that a child is or may be in need of protection must promptly report the suspicion and the evidence it is based on to a Children’s Aid Society. Professionals, such as social workers, have a particular duty to report under the CFSA and there are potential legal sanctions if they fail to do so.

Duty to Warn (CASW, 2005b): “Social workers who have reason to believe that a client intends to harm another person are obligated to inform both the person who may be at risk (if possible) and the police (Section 1.6.1).

Note from the School of Social Work: All students must discuss duty to report and duty to warn during their orientation with their Field Instructor to ensure legal and ethical handling of the information. If a student experiences a situation in which they assess they have a duty to report or warn, s/he should discuss it first with their Field Instructor. If the student remains in doubt about the direction given, s/he should consult with their Faculty Field Liaison/Facilitator.

Value 6: Competence in Professional Practice

Social workers respect a client’s right to competent social worker services. Social workers analyze the nature of social needs and problems, and encourage innovative, effective strategies and techniques to meet both new and existing needs and, where possible, contribute to the knowledge base of the profession. Social workers have a responsibility to maintain professional proficiency, to continually strive to increase their professional knowledge and skills, and to apply new knowledge in practice commensurate with their level of professional education, skill and competency, seeking consultation and supervision as appropriate.

4.0 ROLES AND RESPONSIBILITIES

The optimal field practice experience should be a joint venture with regular ongoing communication between all parties concerned (Wilson, 1981). Students, field instructors, on-site task supervisors, and Field Learning Specialists all have responsibilities in relation to fulfilling duties and all have a role to play in assuring that learning objectives are met and that educational outcomes are achieved (Field Practicum, p. 3). The following section delineates the roles and responsibilities of people involved in the delivery of the undergraduate field education experience (Figure 1).

---

**Figure 1 – Roles and Responsibilities**

### Agency-Based Field Instructor
- BSW/MSW w/ min 2 yrs post degree experience.
- Serves as teacher, model, evaluator, mentor and supervisor
- Meets student regularly to give feedback and direction
- Makes grade recommendation to Coordinator of Field Education Programs

### Off-Site Field Instructor
- Assigned when there is no MSW available to act as Field Instructor in the agency.
- Holds MSW with min 2 yrs. post MSW work experience
- Meets weekly w/student
- Develops communication plan with on-site task supervisor, prior to students attendance at agency
- Makes grade recommendation to Coordinator

### On-Site Task Supervisor
- Responsible for day-to-day learning experiences/activities in agency
- Assigns weekly tasks
- Participates in evaluation process
4.1. School of Social Work

The Field Education Program is a co-operative effort between the University of Windsor and the professional social work community. Primarily the Coordinator of Field Education Programs and the Field Learning Specialists carry out the University’s role in the undergraduate Field Education program.

4.2. Coordinator of Field Education Programs

The Coordinator is responsible for the overall planning, development, co-ordination, administration, and management of field education courses for the Bachelor of Social Work
program, including the assignment of final grades. The field courses are administered through the office of the Coordinator who is responsible to the Director of the School of Social Work for the overall organization and policies of field education, both educationally and administratively.

4.3. Field Learning Specialist

Each student is assigned a Field Learning Specialist. The Field Learning Specialist:

- Negotiates and confirms field placements.
- Participates in the development of the Learning Agreement and Evaluation of the students, if requested by the Field Instructors and/or Coordinator of Field Education Programs.
- Coordinates the agency-school partnership.
- Ensures the student’s field experience is in line with course learning outcomes.
- Facilitates field teaching and student learning.
- Monitors student progress in meeting major field course requirements.
- Serves as intermediary between the field site and the school.
- Ensures student compliance with field program policies and procedures and CASWE regulations.
- Conducts site visits to monitor and support student progress.
- Reviews learning agreements, evaluations and hours log.
- Consults with Field Instructor/On-Site Task Supervisor (if applicable) as needed.
- Assesses the quality of field experiences and opportunities provided to each student and makes recommendations for change to the Coordinator (Wilfrid Laurier University, 2008).

The School of Social Work seeks to develop and maintain affiliations with community sites that provide quality field education for all social work students. The School has a commitment to provide relevant and appropriate practice experiences; therefore, students do not negotiate their own placement sites.

4.4. The Placement Agency

Orientation to the Agency

Generally, the student needs to know enough to begin the field placement, appreciate the accountability within the organization, and be aware of both the formal and informal structure of the organization. This should include the following:

- orientation to the physical setting
- orientation to overall agency program
- orientation to the specific area in which the student will be placed
• reviewing with the student his/her understanding of social work, some of his/her life experiences, in order to establish learning needs

Selecting Field Practice Assignments

In developing field education assignments the Field Instructor must keep balance between the service needs of the client, the learning needs of the student, and the agency's concurrence. Selection of assignments should:
• occur early in the placement to avoid unnecessary anxiety on the part of the students
• challenge the students but not overwhelm them
• have an identified learning component
• be diverse to broaden the learning possibilities
• be sufficient in number to enable the Field Instructor and the student to identify performance patterns, to enable the student to experience the realistic demands of professional practice and to ensure sufficient intensity to provide the student with an appropriate workload each day of field placement

4.5. Agency Administrator

Agency administrators represent the authority of the agency in the administration of all aspects of practice and service delivery within their particular agency or organizational setting. In this regard, they are ultimately responsible for the structure, format, and sanction of educational programs involving all students placed in their agency.

4.6. Agency-based Field Instructor

Field Instructors at the BSW level or at the foundation of a two-year program:
• Normally hold at minimum, a BSW degree from an accredited social work program;
• Have two years of social work practice experience after graduation;
• Are interested in social work education; and,
• Have support from the setting to permit adequate time for assuming field instruction responsibilities (CASWE Standards for Accreditation, 2013, SM 3.2.21)

Additionally, the Field Instructor:
• Is assigned, by agreement of the agency and the School of Social Work, to teach the students placed in the agency
• Assumes teaching responsibilities within their own agencies.
• Serves as a teacher, model, evaluator, mentor and supervisor.
• Provides opportunities for shadowing agency staff
• Directs student learning in a manner that is consistent with student needs and capacities.
• Clarifies expectations for the student regarding assignments, case responsibility, supervisory arrangements, field instruction sessions, reporting times and methods, work schedules, and other related duties and responsibilities.
• Meets with the student at regularly designated times during the week to give feedback and direction regarding performance (Field Practicum, p. 4).
• provides educational and academic practice experiences
• Helps the student move from the specific problem situation to more general conceptual and professional understanding
• Assists the student to develop professional competence by integrating theory and practice as it applies to diverse situations
• Makes grade recommendations to the Coordinator of Field Education Programs.

The primary role of the placement agency is to provide a field practice experience for social work students from the School of Social Work at the University of Windsor. The role of the placement agency falls into four broad categories: 1) the role of the Field Instructor; 2) setting up a learning environment; 3) orientation to the agency; and, 4) selecting field education assignments.

Role of the Field Instructor

Coordinator of Learning Resources: The Field Instructor helps the student to generalize his/her experiences and to make connections between classroom learning and field education experiences.

Information Provider: The Field Instructor provides information about the community, agency practices, and appropriate case management approaches.

Professional Model: The Field Instructor demonstrates her/his identification with social work's professional values through both personal and professional behaviour.

Theoretic Challenger: The Field Instructor encourages the student to conceptualize what s/he is doing in order to develop an understanding of relationships between theory and their application.

Facilitator of Confidence: Students will experience some anxiety at the beginning of placement but the Field Instructor's role will reflect support and positive affirmation of the student's abilities.

Practice Evaluator: Evaluation is a continuous process throughout the placement. Student expectations will be explicit and the Field Instructor will assist the student in meeting her/his learning goals. A formal evaluation will take place at the end of each semester.

Setting Up a Learning Environment
The Field Instructor is responsible for developing a positive atmosphere, which is conducive to learning. The following elements have been identified as contributing to such an atmosphere:

- a formal appointment for the first meeting with the Field Instructor
- physical space for the student to work, along with the necessary amenities and support
- a formal orientation to the agency
- assignments which encourage immediate involvement in social work activity of the field education setting
- clarification of expectations for the student regarding assignments, case responsibility, supervisory arrangements, field instruction sessions, reporting times and methods, work schedules, and other related duties and responsibilities
- a specifically set time for field instruction; this is important for the student as it provides structure to the learning experience; back-up time should be available for the student
- a sixty-ninety minute field instruction session each week. The student should submit an agenda prior to the meeting which includes what the student needs to discuss, including the specific aspects of the case(s) and/or the student’s learning; this helps the student make the best use of field instruction time available.

4.7. On-Site Task Supervisor

The Canadian Association of Social Work Education (CASWE) Standards for Accreditation require that undergraduate social work students are supervised by a person possessing a Bachelor of Social Work degree with a minimum of two years post-degree social work experience. Occasionally, the School approves the placement of students in agencies which reflect the philosophy of the School of Social Work but do not have a BSW on-site. In these instances, the School assigns an On-Site Task Supervisor within the agency to facilitate and supervise day-to-day learning experiences/activities. The On-Site Task Supervisor:

- Assumes responsibility for day-to-day learning experiences/activities within their own agency.
- Clarifies expectations for the student regarding assignments, case responsibility, supervisory arrangements, field instruction sessions, reporting times and methods, work schedules, and other related duties and responsibilities.
- Assigns weekly tasks and activities and supervises the student on the completion of those tasks.
- Participates in the development of the Learning Agreement and signs the Agreement with the student and Field Instructor.
- Participates in the evaluation process and signs the Evaluation with the student and Field Instructor.
- Ensures that adequate time is available for weekly supervision with a social work supervisor, who acts in the capacity of an off-site Field Instructor.

4.8. Off-Site Field Instructors
When there is no qualified social worker on-site, the agency and the School will assign an Off-Site Field Instructor to provide weekly, formal social work supervision and field instruction to the student. The Off-Site Field Instructor:

- Is assigned by the School to a student when there is no BSW or MSW available to act as a Field Instructor in the agency.
- Holds a social work degree from a CASWE accredited program, with a minimum two years post degree work experience.
- Meets weekly with the student, either individually or in a group format with other students who do not have an agency-based Field Instructor.
- Provides formal, social work supervision and field instruction to the student.
- Ensures the participation of the On-Site Task Supervisor and the student in the development of the Learning Agreement and in the evaluation process.
- Develops a communication plan with the On-Site Task Supervisor, prior to the student’s attendance in the agency, at mid-term and prior to completion of the final evaluation.
- Makes grade recommendations to the Coordinator of Field Education Programs.

4.9. Students

The student maintains the dual role of learner and practitioner and is expected to assume responsibilities accordingly:

- Arranges an "on-site" pre-placement screening interview with his/her field instructor, where feasible. Telephone conferences or written correspondence may be substituted where appropriate
- Seeks out and completes pre-placement reading assignments related to agency practice
- Participates in agency orientation
- Prepares for a discussion with the Field Instructor at the start of placement regarding expectations for skill development and potential learning experiences which will form the basis of the Learning Agreement
- Carries out agency assignments, observes agency policies, preserves confidentiality, provides written reports and records, and otherwise behaves in an appropriate professional manner while in field placement
- Arrives at the placement on time, and actively involves him/herself in all assigned meetings
- Unless special arrangements have been made on their field assignment days, students are expected to be in placement the same hours as those required of agency staff. Overtime required in connection with student practice should follow the normal policy of the placement setting, but may not accumulate; therefore, the student should be given compensatory time off week by week
- Notifies the Field Instructor of illness or any other emergency requiring their absence prior to the opening of the agency business day (on field education days); longer term
illness or absence (two placement days) from the assigned placement must be reported to the Field Learning Specialist by the student; medical documentation confirming the necessity of absence is required; time missed because of illness or due to other reasons acceptable to the setting should be made up before the termination of the placement period, or as determined, by special arrangement with the Field Instructor and the Field Learning Specialist. Field education obligations must have priority over other responsibilities which the student has undertaken, whether these are personal, academic, or professional in nature. Students are expected to be familiar with the CASW and NASW Code of Ethics and demonstrate their commitment to these codes in their personal/professional life.

- Upholds professional ethical standards
- Completes specific minimum number of hours
- Meets/completes all major course requirements
- Regularly attends and participates in Field Integration classes
- Carries out agency assignments, observe agency policies, preserve confidentiality, provide written reports and records, and otherwise behave in an appropriate professional manner while in field placement
- Completes and submits the final field site evaluation form in the last week of placement to assist the School in quality assurance planning

5.0 FIELD EDUCATION CURRICULA AND OBJECTIVES

Field practice courses are required courses and successful completion of two Field Practice courses is required for graduation. Extending over two semesters of study, the field placement involves a minimum of 700 hours in supervised field practice.

Course registration fees are due and payable before the commencement of regular term classes. Students MUST be registered for their field courses prior to the start of their field placement. Students who have not registered for their Field Practice courses will NOT be permitted to begin their placement. It is the responsibility of the student to ensure that all deadlines are met.

5.1. Field Education Courses

If a student has not successfully completed any of the required courses (47-336, 47-337, 47-338, 47-339, 47-344, 47-371), s/he will not be permitted to begin the first field placement course 47-473, until the prerequisite has been successfully completed. These courses provide foundational and/or required knowledge and skill sets and therefore must be successfully completed prior to continuing on to Field Placement courses.

Students in the Honours BSW and combined Honours BSW programs are required to take the following Field Education Courses:
47-371 Field Education Preparation

The Field Education Preparation course (47-371) examines student progress in the social work program with the purpose of evaluating student readiness for a field practicum. Students will demonstrate the foundation level social work knowledge, skills, and values required to meet field education expectations and to ensure success in the field. The course integrates classroom and field learning through co-instructed learning sessions that include skill development facilitated by Field Learning Specialists with extensive practice experience, community resources training from community agencies and practicing professionals, exposure to service users, and assignments that require interaction with agencies and the community. This course will facilitate student development and growth on personal, professional, and civic levels. In addition, the course will ensure a smooth transition from the classroom setting into the field setting by demonstrating how connecting theory and practice results in successful individual, family, group, and community intervention. The course facilitates the development of professional, reflective, self-evaluating, and competent social workers. (Pre-requisites 47-336 and 47-337. Co-requisites 47-338 and 47-339).

47-473 Field Education I
6.00 Credit Hours
Pre-requisites: 47-336, 47-337, 47-338, 47-339, 47-344, 47-371
Co-requisites: 47-430, 47-423;

Students in Field Education I attend placement three days per week (Monday-Wednesday) in the Fall semester. As noted above, Field Education I is taken concurrently with Integration Seminar I (47-430) and Social Policy and Social Welfare (47-423).

47-430. Integration Seminar I
The Integration Seminar I course is taken concurrently with the Field Education I course (47-473). This seminar course builds on the knowledge, skills, and values developed in the theory and practice courses 47-336, 337, 338 & 339, along with problem solving models covered in 47-344 and 47-371. The focus of learning for this course will be the application of concepts from theories and practice models to the process of assessment and intervention planning. The seminar enables students to integrate academic learning and field work experience to test and advance social work knowledge, values, and skills in preparation for professional social work practice. The course will provide students with opportunities to share their field placement experiences with the instructor and peers. This course will include classroom instruction, simulations, self-reflection, discussions, group sharing and problem solving, and presentations to facilitate the development of professional, reflective, self-evaluating, and competent social workers. (Prerequisites: 47-371, 47-336, 47-337, 47-338, 47-339, 47-344) (Co-requisite: 47-473)

47-475 Field Education II
12.00 Credit Hours
Pre-requisites: 47-473 and 47-430
Co-requisite: 47-431
Students in Field Education II attend placement four days per week (Monday-Thursday) in the Winter semester. As noted above, Field Education II is taken concurrently with Integration Seminar II (47-431).

47-431. Integration Seminar II
The Integration Seminar II course is taken concurrently with the Field Education II course (47-475). This seminar course builds on the knowledge, skills, and values developed in Field Education I (47-473) and Integration Seminar I (47-430). The seminar enables students to integrate academic learning and field work experience to test and advance social work knowledge, values, and skills in preparation for professional social work practice. The course will provide students with opportunities to share their field placement experiences with the instructor and peers. Students will participate in a variety of activities, including self-reflection, discussions, group sharing and problem solving and presentations to facilitate the development of professional, reflective, self-evaluating, and competent social workers. Students will be expected to engage in critical reflection to integrate knowledge and skills from generalist practice into their own developing practice framework. (Pre-requisite: 47-430, 47-473) (Co-requisite: 47-475).

5.1.1. Undergraduate Field Education Learning Outcomes

47-473 Field Education I

- Articulate knowledge of field agency’s structure, mission, policies, communication channels, and worker roles by creating a self-orientation plan, employing expected professional behaviour, and establishing appropriate communication links with agency personnel.

- Assess the impact of community characteristics on social work practice, including agency function in the community, available community resources, and economic, political, and social conditions.

- Employ generalist social work practice skills, effective written and oral communication, and client advocacy in micro and macro contexts.

- Display social work core values (the inherent dignity of persons, social justice, service to humanity, confidentiality, integrity and competence in professional practice) and appropriate use of self in micro and macro practice.

47-475 Field Education II
implement strategies for utilizing agency structure, mission, protocols, and communication channels to sufficiently and effectively prepare for action with individuals, families, groups, organizations, and communities.

- Employ working relationships with formal and informal networks and resources using organizational, collaborative, and leadership skills to impact larger systems and involve and empower the community.

- Demonstrate practice approaches that fit client system, problem, and diverse social work roles by using self-reflection, critical thinking, problem solving, and evaluating intervention effectiveness.

- Portray oneself as a member of the social work profession by upholding social work mission, values, and ethical reasoning; displaying personal initiative, strengths, self-awareness, and professional behaviour; and espousing continuous learning.

### 6.0 School of Social Work and Agency Requirements

**Vulnerable Persons Check (VPC):** All students are required to secure a yearly Vulnerable Persons Check (VPC). This is a requirement of the School of Social Work. The Check must be valid for the duration of the placement. The process to secure the VPC varies from agency to agency, city to city and region to region (see APPENDIX 1). It is the student’s responsibility to discuss the process to secure a VPC with their placement agency as well as the police department in their geographic area.

Recently the RCMP has added additional safe-guards for the vulnerable sector enhanced screening process. Some students may be asked to arrange a fingerprinting screen when they receive their initial response to the request for a VPC. If you are in this situation, please bring your most recent police clearance and the documentation confirming that you are going through this fingerprinting process to the School of Social Work. It is your responsibility to discuss this with your Field Instructor as soon as possible. This fingerprinting process may take an additional several weeks.

As stated, in most circumstances, students will not be permitted to begin placement until a copy of their VPC is submitted to the Undergraduate Secretary. In cases in which the VPC will not be available prior to beginning placement due to circumstances beyond the student’s control, the student must contact the Coordinator of Field Education Programs to discuss next steps. If due to circumstances beyond your control, you do not have a VPC prior to the start of your practicum/internship you must email the Coordinator of Field Education Programs with the following information:

- The reason that the VPC will be late;
• E-mailed receipt indicating that the VPC is underway;
• Confirmation that the field site has approved your start date without a VPC; and,
• An email stating that once received there will be nothing of concern on the VPC.

6.1. Other Requirements

Students should consult with the agency in which they are completing their field placement to ensure that all other requirements have been met. Some agencies require additional medical clearances, such as TB skin tests, flu shots, mask fittings, training, etc. The student should inquire about additional requirements at the screening interview or at the point of confirmation of the placement.

Note: Some agencies do not require police or medical clearances; however, it is a policy of the Social Work program that all students complete the VPC. Costs associated with the VPC and other requirements are incurred by the student.

6.2. Submission of Documents

The VPC must be on-file with the School of Social Work prior to students beginning their placements. Students should keep the original (unless it is requested by the agency) and forward a copy to the agency and a copy to the Undergraduate Secretary in the School of Social Work.

7.0 FIELD EDUCATION POLICIES AND PROCEDURES

7.1. Initial Planning for the Practicum/Internship

The development of field placements is initiated by the Field Office, based on the goals and learning outcomes of the BSW Program. When planning for individual field placements, the Field Office considers:
• student’s educational, employment and volunteer experience
• assessed learning needs of the student
• opportunities to develop skills and knowledge in social work practice
• agencies available to provide appropriate placements
• agency requests for students
• student’s program of study
• student’s use of a car for agency business
7.2. Placement Planning Process

1. Students are expected to review the School of Social Work website and the Field Blackboard site.

2. The Field Office sends formal requests for placements to all approved placement settings. The process is completed in the Spring and updated in the Summer. Agencies provide information regarding the number of students they are able to accommodate, the qualifications of their staff, e.g. BSW or MSW and other pertinent information. The website highlights a sample of possible undergraduate field education sites: http://www.uwindsor.ca/socialwork/bsw/field

3. The initial planning period occurs from mid-April to mid-June. Field Learning Specialists will conduct 1:1 interviews with all students in April to assess each student’s learning needs. After the interview, you may not hear from the Field Education staff until late June-July. This is the norm. The Field office reviews available placements, agency requests and student Placement Planning Forms to complete the matches. Criteria for matches include; learning goals, prior volunteer/employment experience, special needs and considerations, geographic location, languages spoken, opportunities to practice within the generalist perspective, and student’s use of a car for agency business.

4. When a tentative assignment is ready, the student will be contacted to discuss the assignment.

5. After discussion with the student and potential placement site, the Field Office completes a formal referral via e-mail which will contain all necessary contact information including the student’s Placement Planning Form. The Field Education personnel make every effort to ensure an efficient planning process.

**NOTE:** Students are advised that under certain circumstances the University may be required to disclose students’ personal information to their placement site. In particular, this disclosure may occur where facts or circumstances exist which could reasonably put the health and/or safety of agency clients and/or employees at risk. The Field Learning Specialist will discuss this with the student before any information is shared with the site. If a student suspects that the Vulnerable Persons Check may have a record of potential concern it is advisable to have this discussion with the Field Learning Specialist at the field planning meeting.

6. The student is required to contact the Field Instructor to schedule an appointment for a pre-placement screening interview. This should occur as quickly as possible to avoid any delay in the placement process. Following the interview, the agency/Field Instructor and Field Office confer on the suitability of the match. Field Education staff are responsible
for the final decision regarding the student’s placement. Both the student and agency are informed of the final decision by the Field Office via e-mailed memoranda.

7. Students attend Field Education I (47-473) in the Fall Semester (of 4th year) usually on Mondays, Tuesdays and Wednesdays. After successful completion of Field Education I, students will begin the second field course, Field Education II (47-475) in the Winter Semester usually on Mondays, Tuesdays, Wednesdays and Thursdays.

Additionally students should be aware of the following while involved in the placement process:

- Field placements at the University of Windsor do not generally provide remuneration. The field placement courses are pass/fail courses which is different from paid co-op work terms. Financial planning regarding the placement is important prior to starting the program. Additional expenses may include transportation to and from placement and to the field integration class, parking, liability coverage for car insurance, the cost of a vulnerable persons check police clearance etc.
- The Field Office at the School of Social Work will determine a suitable placement and assign the student to a placement taking into account their experience and BSW program requirements. Placement settings include agencies/organizations where professional broad social work is practiced. Placements will provide BSW level practice. While consultation will occur with the student, the Field team will make the final decision regarding the placement site. The student will be placed in an agency that the field team has assessed as providing an experience that will meet the BSW field learning outcomes.
- **Students must not contact agencies directly to set up their own placement.** In general the field office has a list of sites with affiliation agreements which are used for field placements; however, students may suggest new agencies that the field office may follow up on.
- It is important to make every effort to have access to a car as most agencies require possession of a car for the work they do and some may not be easily accessible by public transportation. Some sites may require students to transport clients on occasion. Access to a car facilitates more placement opportunities. The field office will still provide a field placement for those students who do not drive or do not have access to a car but students will need to be flexible in accepting available placements that do not require a car.

### 7.3. Selection of Field Education Sites

Field placements reflect a wide range of settings and provide a variety of field practice experiences. These include work with individuals, families, groups, organizations, communities, social policy and research. Agencies will be selected as field placement sites on the following basis:
• Agency’s readiness/interest in providing field placements
• Student’s ability to meet agency standards of service (e.g. use of a car for agency business, experience, etc.)
• The availability of acceptable, qualified Field Instructors/On-site Task Supervisors
• Placement needs of the School of Social Work
• An appropriate “fit” for the student and his/her learning needs as assessed at the field planning meeting
• Suitability of arrangements for the provision of field instruction for students, including opportunities to:
  • Apply and test theories
  • Engage in a range of different learning experiences
  • Allocate sufficient time to the student
  • Make available appropriate physical resources

Additionally, the following criteria are considered by the Field Program in the selection and maintenance of field education sites (adapted from Wilfrid Laurier University, 2008):
• The field site must be committed to upholding social work values and ethics as outlined in the CASW Code of Ethics. This should be demonstrated by stated policies and procedures that address program design and service delivery in support of the social worker’s ability to carry out the professional role.
• The field site must be able to provide diversified learning experiences for students that are consistent with the School’s field education learning outcomes.
• The field site should be committed to providing a work climate that supports experiential learning.
• The field site must be able to provide qualified field supervisors.
• The field site must be able to allocate time for field supervisors to prepare and implement educational supervision for students.
• The field site should allow time for field supervisors to participate in meetings, training seminars and/or workshops offered by the School of Social Work.
• The field site should provide educational opportunities for students to participate in regular activities such as staff meetings, case presentations, conferences, and in-service training.
• The field site must be able to provide appropriate physical space and logistical arrangements for students such as office/desk space, supplies, telephone, support staff, etc. (similar to that provided to agency staff), in order to carry out assigned tasks/responsibilities.
• The field site must treat all information about students in a confidential manner.

**NOTE:** While the Field Office provides opportunities for students to interview for their placement, the School cannot guarantee that students will be placed in a particular agency. A variety of factors affect the availability of placement opportunities, which can vary from year to
year. It is important that students are open to considering a range of settings as there can be no guarantee of obtaining a placement with any specific site, practice area or field instructor.

7.4. Placements in Current Place of Employment

Ordinarily students will not be placed in an agency in which they are employed to avoid a conflict of interest on the part of the student, the Field Instructor, or both. The field placement is intended to ensure that students engage in new learning and this is best achieved in a new location. The School recognizes that in some exceptional situations, the student can complete the requirements of the field curricula in the student’s place of employment. The Field Office will consider requests from students to complete their field placement in their current place of employment; however, the student must present a compelling rationale which includes a discussion of why a field placement outside their normal place of employment is impossible to arrange and how their proposal is the best option to achieve course learning outcomes.

Requests must be submitted to the Coordinator of Field Education Programs, including:

- A proposal outlining the following: The reasons for the request to complete the field practicum/internship in place of employment. The request must go beyond financial considerations.
- An articulation of the relationship between the learning outcomes and how the field practicum/internship will meet the theoretical and practice requirements of the field course. Why is this agency best suited to provide the required learning experience?
- An explanation of how the field placement differs from the student’s employment and constitutes new social work learning.

7.5. Placement Outside of the City of Windsor

Some of our placement sites are outside of the City of Windsor, so students can be expected to travel, sometimes up to one hour, to get to their field site. It is the School’s responsibility to secure a suitable field education site and the student’s responsibility to ensure s/he can get to the placement site and fulfill the site’s transportation requirements. Students who wish to complete a field placement outside of the tri-county areas (Windsor, Essex County, and Chatham-Kent) should indicate that request on the Placement Planning Form. All students are required to attend the Field Integration classes regardless of the geographic region in which they are placed.

7.6. National and International Placements

Currently, the School of Social Work will not approve requests for national or international placements (under review).
7.7. Selection of Field Instructors

The Coordinator of Field Education Programs jointly with the Field Learning Specialists will usually appoint the person recommended by the agency, provided that the person recommended has the academic and professional qualifications required by the CASWE Standards for Accreditation (BSW plus two years post-BSW experience) or has been approved as an On-Site Task Supervisor, based on their professional experience and relevant education to supervise the day-to-day activities in the field. In each instance the Coordinator of Field Education Programs or Field Learning Specialist will contact the Agency Director, or his/her delegate to discuss placement possibilities or requirements.

Prior to the start of the field placement, field supervisors are invited to attend a Field Instructor/Supervisor’s training session. These training sessions provide tools and information to aid and support all field supervisors in their teaching role.

The Field Instructor/Supervisor must be willing to devote time to a number of activities. These may include the following:

- Attend training seminars/meetings for field supervisors sponsored by the School of Social Work.
- Provide field site orientation to the student.
- Assist the student in developing the learning agreement outcomes by selecting appropriate student tasks and identifying methods for evaluating the student’s performance.
- Provide regularly scheduled weekly supervision with the student (a minimum of one hour per week).
- Attend a scheduled field site visit with the Field Learning Specialist to discuss student progress, agency needs/concerns, and any revision to the Learning Agreement.
- Confer as needed (in addition to the scheduled site visits) with the Field Learning Specialist.
- Evaluate the student’s performance through written evaluations and provide verbal feedback to the student on his/her professional performance in the field agency (Wilfrid Laurier University, 2008).

Many agencies adopt a team approach to field instruction. The principal members of the team are the Field Instructor, On-site Task Supervisor (if applicable) and Student; however, there are many others who play an important role in the field education experience. Agency staff from other disciplines may also contribute to the field education process and, indeed, the School of Social Work supports and encourages a multi-disciplinary field education experience. Supervision is offered as an opportunity for students to address the theoretical, ethical and personal interactions that the student derives from placement. It is also an opportunity for
students to engage in an effective supervision practice which is crucial for professional social work development.

7.8. Site Visits

Site visits will take place mid-term each semester and are attended by the Student, Field Instructor, Off-site Field Instructor and/or On-site Task Supervisor (if applicable) and Field Learning Specialist. The Field Learning Specialist will generally follow a standardized site visit process, which includes a discussion of the student’s adjustment to the placement, opportunities/progress integrating classroom learning with field learning, student abilities, personal/professional challenges in the field, compliance with administrative field requirements (hours, Learning Agreement, Mid-term Evaluation, due dates) and revisions to the Learning Agreement. The site visit is an opportunity for the student, Field Instructor and Field Learning Specialist to collaborate in evaluating student progress to date, assess the student’s future goals in the agency, and address any concerns. It is intended as a supportive visit to ensure all parties are aligned in helping the student to achieve the learning outcomes.
The relationship with the Field Instructor/On-site Task Supervisor is significant to the outcome of the field education experience. The Field Instructor/On-site Task Supervisor is the agency person to whom a student is directly responsible. The Instructor/Supervisor is there to support and guide the student, facilitate learning, and evaluate the student’s performance. If any questions, dissatisfactions, concerns, problems, etc. arise, the student must take initiative to talk to his/her field supervisor. It is not unusual at the beginning of the field placement for the student to have anxiety in approaching the field supervisor. This is a new situation and a new relationship; therefore the student may be unsure of how to proceed. The relationship will develop and change as the student and supervisor get to know one another and adjust to their respective “student” and “teacher” roles. Gradually, the student will feel more comfortable and take on more responsibility in maintaining open and ongoing communication with the field supervisor.

The effectiveness of field learning is largely determined by student participation. The student is responsible for creating his/her learning environment. The student needs to be an active learner and have a sense of ownership in the field experience. Being an active learner includes developing the Learning Agreement, creating personalized learning outcomes and appropriate tasks, monitoring and evaluating practice, confronting personal biases/prejudices, and assessing one’s professional development as a bachelor’s level social worker. It also means preparing an agenda for the weekly supervisory meetings. Most importantly, the student must develop the ability to receive constructive criticism within the context of increasing one’s competence as a social worker. Feedback that is specific and focuses on something the student can change is a major factor affecting professional growth. The importance of weekly structured supervision cannot be understated (Wilfrid Laurier University, 2008).

The placement site is equivalent to a workplace. The student is expected to maintain regular working hours, be punctual, complete assignments in a responsible and timely manner, follow agency policies and procedures, dress appropriately, and generally conduct oneself in a professional manner. The student must maintain a professional demeanor that separates personal problems/issues from practice in order to engage successfully in one’s professional responsibilities to clients, the agency, and the community. It is expected that the student will inform clients of his/her student status and maintain full disclosure of his/her role while conducting business on behalf of the field placement site. To understand and abide by the CASW Code of Ethics, which provides guidelines for professional conduct, is critical for the student in the field setting (Wilfrid Laurier University, 2008). The expectation of professional behaviour extends to interactions with the School, in the classroom and with student colleagues.
7.11. Professional Suitability Policy

The Suitability Policy is a requirement of the Canadian Association for Social Work Education and derives from the Social Work Code of Ethics. Students should become familiar with the Code of Ethics as these standards guide the School’s assessment of suitability for the profession of social work (see APPENDIX 7).

7.12. Social Media Use Policy (under review)

Ethical Use of Social Media Policy

CASWE Standards for Accreditation:
SB/M 2.4.6 The academic unit has a policy regarding ethical use of all forms of social media to ensure the privacy, confidentiality, and interests of the academic unit and its field practicum community and demonstrates how the policy and procedures are consistent with the relevant human rights legislation, with the mission of CASWE-ACFTS, and with the mission of the academic unit concerned (May 2012).

This document outlines the Field Education Program, School of Social Work policy on ethical and responsible use of social media, in accordance with the CASW Code of Ethics, CASWE Standards for Accreditation, and relevant Human Rights Legislation.

The purpose of this policy is to inform students about the appropriate use of social media as it relates to professional conduct expected of social work students in placement at the University of Windsor. On-line social networking postings in relation to students, faculty, administrators, agency personnel and future employers must be evaluated in accordance with codes of conduct and standards of professional behaviour expected of social work students.

Social media refers to online technologies and practices that are used to share information and opinions, host conversations and build relationships. It can involve a variety of formats, including text, pictures, video, audio and “live,” real-time dialogues of a few, or thousands of participants. Examples of social media include discussion forums, blogs, social networking sites, wikis, and podcasts.

The School of Social Work supports students’ right to access and use the Internet as well as to interact socially and academically through the use of social media platforms. The School of Social Work also supports students’ right to expression and students’ right to academic freedom.
When using social media, Social Work students must adhere to the:

- University of Windsor Policy S6: Student Code of Conduct
- University of Windsor School of Social Work Professional Behaviour Policy
  (http://www1.uwindsor.ca/cepe/system/files/student%20professional%20behaviour%20policy%5B1%5D.pdf)
- CASW Code of Ethics
- Ontario College of Social Workers and Social Service Workers (OCSWSSW) Code of Ethics and Standards of Practice
  (https://www.ocswssw.org/professional-practice/code-of-ethics/CASWE Standards of Accreditation

These codes and standards can be applied to a field setting, virtual learning environments such as Blackboard, text messaging, and on-line social networking sites (Facebook, LinkedIn, Twitter, etc).

**Social Media Use in Field Placement/Practicum/Internship**

- Use of social media for non-academic purposes is not permitted during any field placement.

- Students may not access agency computers for the purpose of social networking, unless directed by the agency for agency business.

- Use of personal cell phones is not permitted during field placement hours, unless required for an emergency purpose, and when there is no other means of contact available. In this situation, the student will discuss this need with the Field Instructor/On-Site Task Supervisor prior to use.

- Unauthorized use of social media, cell phones, or the internet in the field placement setting may result in a By-Law 31 infraction and based on the agency’s recommendation could result in removal of the student from the field placement.

- Students should not use social media to contact clients or respond to clients’ requests for contact.
• Client confidentiality laws forbid any release of information related to clients (even if names are not used). Confidentiality also extends to families, agency staff, and organizations. In some cases, legal charges may be filed against a student for defamation of character, breach of confidentiality and/or invasion of privacy.

• Students are prohibited from posting any private or confidential information (including images and video recordings) about the School of Social Work, placement employees and setting, and/or clients and peers to social media sites even if personal identifiers are removed. Taking and sharing photographs without consent is a breach of confidentiality.

• All student correspondence with Field Instructors, Field Learning Specialists, Support Staff and Faculty is considered confidential and should not be posted to the Internet. This includes posting to private, closed groups on social networking sites.

• Students should assess acceptability of their message before posting it online or sharing it via social media platforms. If the content of the message would not be acceptable for face-to-face conversation, over the telephone, or in another medium, it is not acceptable for posting/sharing.

Failure of any student to conform to these ethical Standards and practice guidelines, while using any social media site, may result in a By-Law 31 infraction and based on the agency’s recommendation could result in removal of the student from the field placement.

Personal Networking

• Students should participate in non-academic social media conversations on their own time. Students should ensure that blogging and social networking activity do not interfere with their academic commitments and engagement in learning.

• Students are responsible for the content that is posted on their own sites, and on those of others. Students are legally liable for anything they post or write online. “Postings on social media sites should be treated as public documents recognizing that they could be seen by anyone, accessed by potential employers, and may form a permanent personal electronic record” (University of Regina, Ethical Use of Social Media Policy, 2015).

• Students should avoid using unprofessional online personas. Students should not post defamatory, libelous or obscene content.

Acknowledgement:
This policy has been formulated based on social media guidelines and policies from the following sources: Government of Nova Scotia, University of Michigan, Boise State University.
7.13. Agency Policies

Agencies vary in the policies and procedures that they expect students to follow. Most agencies require students to attend orientation sessions. Depending on the size of the agency, this orientation may or may not cover policies specifically geared to the provision of social work services. It is important for the student to meet with the field supervisor to obtain information about the agency’s operating procedures. If there is written documentation, the student should be furnished with a copy. Examples of operating procedures include policies on contact with clients outside the agency, transportation of clients, record keeping, personal safety and security, how to handle crisis situations, etc. The student should understand agency policies relating to confidentiality and always work within the values and ethics of the social work profession (Wilfrid Laurier University, 2008).

NOTE RE: Paid Placements The School of Social Work, in general, does not support the concept of paid placements; however, it is recognized that some agencies offer this option to students and the School cannot dictate how the agency conducts its financial business. Students are cautioned that they must offer services as an undergraduate student, not as a paid staff.

7.14. Harassment and/or Violence in the Field Setting

The social work profession has become increasingly concerned about the safety and security of social work practitioners in the workplace. Work-related violence against social workers may include physical and/or verbal assault, the threat of assault and harassment. Concern about workplace violence also draws attention to the safety and security of social work students in field placement settings.

The School expects students to err on the side of caution when assessing risk to themselves and will support a student who takes appropriate steps to remove themselves from potential harm. In such a situation the student should attempt to consult with their Field Instructor or their Field Instructor’s supervisor as soon as possible. If there is a question about the direction and they are unable to reach their Field Instructor, then the student should contact their Field Learning Specialist.

Field sites should have policies and procedures dealing with safety and security issues for all personnel. These safety and security policies and procedures need to be a part of the student’s site orientation. However, if this information is not formally presented, the student must initiate discussion of such policies and procedures with the Field Instructor. Every effort
must be made to reduce potential risk in field settings. Safety and security issues to be addressed with the student include:

- Office and facility security (interviewing rooms, emergency exits, disaster plan, parking areas, before and after hours work).
- In-house emergency procedures for summoning security, police and backup assistance.
- Policies and procedures for home and community visits (where, when, with another worker or escort, under what conditions a visit should or should not be made, emergency backup plans).
- Transporting clients (personal car, agency vehicle, insurance and liability, when, where, with another worker, under what conditions would an intern be given this assignment).
- Assessing and handling agitated and/or violent clients (de-escalation techniques, treating clients with a history of violence).
- Potential risks and safety issues unique to a particular setting and/or client population (Wilfrid Laurier University, 2008).

Concerns and complaints about harassment are taken very seriously by the School of Social Work and University of Windsor. If a student believes they are being harassed by others (e.g. field instructors, other employees or placement students, or clients), it is important to voice these concerns to the Field Instructor if appropriate and their Field Learning Specialist. If a student decides not to speak with the Field Instructor, they should contact their Field Learning Specialist who will consult with the Coordinator of Field Education Programs. The issue may be resolved with assistance from the Field Learning Specialist and/or Field Instructor; however, students may also consult directly with the Director of the School of Social Work. Students may also contact the Office of Human Rights, Equity & Accessibility (OHREA) responsible for education, human rights inquiries and complaints, ombuds functions related to human rights, equity and accessibility, government reporting, policy development, and any other matters requiring accountability in these areas at the University of Windsor:

**OHREA CONTACT INFORMATION**

**OFFICE HOURS:**
Monday, Tuesday, Wednesday and Thursday - 8:30am to 4:30pm
Friday - 8:30am to 12:00pm

**LOCATION / EMAIL:**
Chrysler Hall Tower, Room 325
e-mail: ohrea@uwindsor.ca

The University of Windsor has comprehensive workplace violence and harassment policies and procedures. These policies and procedures are located on the University website and originate from Bill 168 – [Workplace Violence and Harassment Legislation](#) (for a copy of this legislation,
refer to the University of Windsor website). Students are encouraged to review the University’s policies and procedures on the website.

7.15. Use of Personal Vehicle in Field Placement

Most agencies require their staff and students to have access to a vehicle for the delivery of social work/agency services. Students may be expected to have access to a vehicle to use during field placement. If a student does not drive or have access to a vehicle the field team will find them a placement where this is not a requirement. Students must abide by any agency policy governing transporting clients in their personal vehicles. Some agencies may require that students have adequate liability insurance if they will be driving clients in their vehicles during placement hours. Some agencies may choose in their policy to reimburse students for travel expenses related to agency work but the student should not expect to be reimbursed for expenses to and from their home to the agency. The student should discuss this with their Field Instructor or On-site Task Supervisor (if applicable).

7.16. Professional Dress in the Field Education Site

Students represent the agency and the social work profession and therefore their appearance should reflect a standard of professionalism. In concert with agency policy students should go to their placement dressed appropriately for their work. It is good practice to ask the Field Instructor or On-site Task Supervisor about the agency dress code, while also noting how others dress in the agency. It is important that the student is aware of the appropriate style of dress for the work of the agency (East Carolina University, June 2008).

7.17. Information for Students with Disabilities

- Students must be formally registered with Student Disability Services (SDS) in order to receive academic and field accommodations.
- The student needs to begin the process of registering with Student Disability Services (SDS) by contacting the office (see contact information below) and scheduling an intake appointment with an Advisor.
- The student is advised to wait until their intake appointment before proceeding with having any documentation completed.
- If the student has existing documentation the student is asked to bring that to their intake appointment in SDS, again, before proceeding to update or obtain any new documentation.
- During the intake appointment a SDS Advisor will review any existing documentation with the student and determine if anything further will be required.
- Once the documentation has been finalized the Advisor will discuss with the student which accommodations are going to be appropriate.
After accommodations are determined the student will be asked to sign a registration form and a letter of accommodations will then be issued to the student.

The student should then distribute their accommodation letter to the instructors and Field Learning Specialist from whom the student will be seeking accommodations.

If the student requires accommodations in their Field Placement, s/he should inform their SDS Advisor as soon as possible.

For any further information, or if you have any questions, please feel free and contact:

**Student Accessibility Services**
University of Windsor
Dillon Hall (Lower Level)

401 Sunset Avenue
Windsor, Ontario, Canada N9B 3P4

disability@uwindsor.ca

The field program ensures that students with disabilities are accommodated in field placements by confirming that the field site complies with the accommodation request. With assistance from the field education staff, the field experience is structured consistent with the academic program policies (i.e. prerequisites must be completed prior to beginning the field education course). A student may wish to discuss a possible accommodation need with the Field Learning Specialist, but not want the information shared with the field site. Ultimately, the student’s confidentiality will be respected.

8.0 MAJOR COURSE REQUIREMENTS

8.1 Field Hours

The Academic Calendar for the School of Social Work is built upon the University Academic Calendar. Certain dates and activities are set by the University, and within that framework, the School of Social Work establishes its calendar to be observed by students. The University and School calendars take precedence over dates established within agencies.

All students will begin their placements on the date designated by the School unless other arrangements have been made and approved by the Coordinator of Field Education Programs.
In this regard, proposals to begin early or compress hours will not be approved for the following reasons:

- Students must meet prerequisite requirements
- Curriculum has been designed to ensure optimum learning in the field
- Alternative schedules may meet the minimum hours requirement, but in keeping with best practices in field education, the experiential component of a professional program takes into account such aspects as learning over a period of time, ensuring the opportunity to integrate theory and practice, etc.
- Adherence to the schedule facilitates effective administration of the program; individual schedules impact submission of documents, scheduling of site visits, etc.
- The field education schedule is widely distributed and as such represents our contract and commitment to our field education sites

Proposals to extend the practicum or internship may be approved if the student has met with an Advisor from Student Disability Services, University of Windsor and has been assessed as requiring extended time in the practicum.

8.1.1 Calculation of Field Hours

In keeping with the CASWE Standards for Accreditation, students must complete a total minimum of 700 hours in a supervised placement: 266 hours in the fall semester (47-473) and 434 hours in the winter semester (47-475). To calculate the total number of hours per week, use the agency formula to determine daily number of hours. For example, if the agency hours are 8:30 a.m. - 4:30 p.m. with a one-hour lunch break, and the agency determines this is a 7-hour work day, the student’s total hours for that day is also 7 hours. If the formula of the agency prevents the student from obtaining the required number of hours, the Field Learning Specialist must be informed in order to develop a workable schedule as soon as possible.

It may be possible to negotiate a schedule which is different from the usual 8:30 a.m.-4:30 p.m. time frame. A decision to do so would be based on the following factors:

- The revised schedule meets the needs of the agency and the people it serves
- Student agrees to an alternate schedule
- Student learning is not compromised
- Following approval from the Field Instructor, the student submits the proposed revised schedule to the Field Learning Specialist for approval by the Coordinator of Field Education Programs
Although students are required to complete a minimum number of hours in field practice, they are expected to continue in their practica and internships according to the Field Education Schedule even after they have completed the required minimum number of hours. Students are not permitted to compress their practicum/internship; in other words, students may not develop a schedule which allows them to accumulate additional hours for early termination from the agency. Most students will probably complete more than the required number of hours; this is related in part to the variations among agencies in daily schedules and also to the fact that a system of “precise” time accounting is often incompatible with the inherent character of rendering professional social services.

Generally, students are expected to be in their placements during regular agency hours. Individual questions regarding practicum/internship hours should be directed to their Field Learning Specialist. The student is expected to complete all work assigned by the Field Instructor and On-site Task Supervisor (if applicable) within agreed upon timelines. Overtime, required in connection with student assignments, should be allocated in accordance with the practice of the agency. Compensatory time off should be arranged with the Field Instructor and On-site Task Supervisor (if applicable) and, if possible, accommodated on a weekly basis.

Any absence of 2 consecutive field education days, by students, must be reported by the student to the Field Learning Specialist. Time missed by students, because of illness, must be made up. The Field Instructor will determine a suitable time and manner by which the time can be made up. Normally this will be done prior to the end of the practice term.

8.1.2. Bereavement

Student requests for bereavement leave should be granted in accordance with the policies and procedures governing bereavements/leaves of the agency they are placed with. If a student requires more time off then is covered under the agency bereavement plan, the school will endeavour to develop a suitable plan with the student and field site.

8.1.3. Extend Time in Placement/Individualized Field Education Plan

Under certain circumstances, based on feedback from the Field Instructor and/or the Field Learning Specialist and with approval from the Coordinator Field Education Programs, there may a recommendation that the student spend additional time in their practicum or internship in order to achieve the competencies outlined in the Learning Agreement. This recommendation may originate with the Field Instructor or the Field Learning Specialist. In these instances, an Individualized Field Education Plan (see APPENDIX 2) will be developed by
the Field Instructor, On-site Task Supervisor (if applicable) and Field Learning Specialist and shared with the student. The plan will outline the steps and assignments to achieve the field education learning outcomes and will be presented to the student. The plan will articulate a time frame in which the student is to demonstrate achievement of the competencies in question and/or completion of the plan.

8.1.4. Holidays/Study Weeks

Students in field placement are entitled to the same holidays as those maintained by the respective placement agency, even if the agency holidays do not coincide with those of the University. The student and Field Instructor or On-site Task Supervisor (if applicable) are expected to make all necessary arrangements with regard to holidays other than those of the agency or the University. The University is closed for Labour Day, Thanksgiving Monday, Family Day, Good Friday, Victoria Day, Canada Day, and the Civic Holiday. University holidays are factored into the field schedule; however, if statutory holidays fall during regularly scheduled field placement hours, the student and Field Instructor or On-site Task Supervisor (if applicable) will develop a plan, which permits the student to complete the required number of hours.

Study weeks (October and February) do not extend to the field education program. First and foremost, the student is expected to meet placement obligations. Students are permitted to request alternate arrangements for the February Reading Week. If the student requests alternate arrangements and these are approved by the Field Instructor, the student must have a plan to ensure they have accumulated the required number of hours prior to the end of the placement. The plan must be approved by the Field Instructor.

8.1.5. Inclement Weather

As a rule, when the University of Windsor is closed, students are not expected to attend the practicum or internship (for example due to inclement weather). It is the student’s responsibility to contact the field site to report their absence. Time missed by students must be made up. The Field Instructor will determine a suitable time and manner by which the time can be made up. Normally this will be done prior to the end of the practice term. Poor attendance may result in requesting the student to withdraw from the field course and/or the assignment of a failing grade.

8.1.6. Field/Academic Obligations
Students are generally not permitted to attend field and employment activities which fall during class time (e.g. conferences, workshops, meetings, etc. which take place during the scheduled field integration seminar). Conversely, students are generally not permitted to attend academic activities which fall during field time. It is important to adhere to the policy which ensures that the field requirements do not conflict with academic requirements, and the policy which ensures that the academic program not place demands on students which result in students not attending their regularly scheduled field days.

NOTE: Requests for an alternative field schedule must be made in writing to the Field Learning Specialist, cc’d to the Coordinator of Field Education Programs.

8.2. 2017-2018 Academic and Field Education Dates*

The Field Education schedule has been calculated to assume a 7 hour day (8 hours per day, less 1 hour for lunch) and will allow students to obtain 266 hours in Fall (47-473 Field Education I) and 434 hours in Winter (47-475 Field Education II) for a total minimum of 700 hours.

### 8.3. The Field Hours Log

The student is expected to complete all work assigned by the Field Instructor within agreed upon timelines. Students are required to document their hours on a weekly basis by using the Field Placement Hours Log. The Log must be signed by the student and Field Instructor and submitted to the School with the Mid-Term Evaluation and the Final Evaluation at the end of each semester. The Coordinator of Field Education Programs will assign a non-pass grade if the Hours Log and the final evaluation are not submitted by the grade submission due date.
8.4. The Learning Agreement

(See APPENDIX 3 for Procedures to Complete the Undergraduate Learning Agreement)

The Field Education Learning Agreement is a blueprint of the student’s educational experience with specific assigned tasks designed to develop knowledge and skills. The Learning Agreement facilitates the development of individual learning within a framework of expected social work competencies designated by the School of Social Work. The learning outcomes incorporate the competencies required for generalist social work practice. The Field Instructor, the student and the On-Site Task Supervisor (if applicable) develop the learning assignments and activities (see APPENDIX 4 for sample tasks and activities). The Learning Agreement is used as the basis for the ongoing assessment of the student and for referencing when completing the evaluations. Learning Agreements promote the development of knowledge, values and skills and outline both the School’s requirements as well as outline specific areas within which the student wishes or needs to increase knowledge and enhance skills. For the most part, Learning Agreements include goals related to knowledge acquisition, goals that focus on skill development and professional development or competence building goals (Sweitzer and King, 1999). The Learning Agreement is intended to guide the student’s field practice and should be consulted regularly throughout the duration of the placement, especially prior to evaluation meetings.

The Learning Agreement facilitates the development of individual learning within a framework of expected social work competencies designated by the School of Social Work.

Student Research in Field: The Tri-Council Policy Statement (TCPS2) defines research as “an undertaking intended to extend knowledge through a disciplined inquiry or systematic investigation” (TCPS2, 2014, - Chapter 2, Article 2.1, p.13). Article 6.0 TCPS2 states: Institutions shall establish or appoint Research Ethics Board(s) to review the ethical acceptability of all research involving humans conducted within their jurisdiction or under their auspices, that is, by their faculty, staff or students, regardless of where the research is being conducted” (TCPS2, 2014, p. 69). There are several ways that students can engage in “research” or “research tasks”:

- student driven research projects
- existing agency research projects
- program assessment or evaluation tasks that might meet the definition of research
- systematic data collected directly from individuals (internal or external) or groups that could meet the definition of research (McMurphy, S., 2014).

Students should consult with their Field Learning Specialist if they are asked to engage in research or research tasks. The Field Learning Specialist will review Learning Agreements to assess whether tasks or a specific project might involve research and if so will consult with the Coordinator of Field Education Programs.
8.5. Evaluations

(See APPENDIX 5 for Procedures to Complete the Undergraduate Mid-Term and Final Evaluations and APPENDIX 6 for Evaluation Rating Scale)

Although programs are highly variable in terms of focus and/or concentration, there are general areas in which students will be evaluated that are reflected in some manner in nearly all social work programs throughout the United States and Canada. These areas include:

1. Skill in interviewing;
2. Skill in the area of assessment;
3. Proficiency in written communication, including assessments, case notes, inter-agency memos, reports and proposals related to program development or participation in grant writing, etc.;
4. Skill in oral communication, including the ability to communicate clearly and unambiguously with clients, peers, administrators and other service providers within the community;
5. Capacity to demonstrate commitment to social work values;
6. Capacity to effectively use supervision as a tool for professional growth & development;
7. Capacity to work well with colleagues, agency staff and student peers;
8. Capacity to apply theory to practice;
9. Capacity to demonstrate the ability to work independently;
10. Capacity to work effectively with diverse client populations, including minority, special needs and at-risk clients, client systems or communities (Cournoyer, 2005).

Student evaluations are completed midterm and at the end of each semester. Due dates are noted on the Bachelor of Social Work Field Education Schedule (see Section 8.2).

The student will participate in one mid-term and one final evaluation during each semester. The Field Instructor and the student will refer to the Learning Agreement to review the School’s learning outcomes, the student’s assignments and activities and to the student’s Field Activities Log, which lists and describes student activities throughout the semester. In order to ensure adequate input into the evaluation process, the Field Instructor, student and On-Site Task Supervisor (if applicable) should complete a working copy of the evaluation, which articulates their respective view of the student’s achievements. The Field Instructor should schedule a meeting with the student and the On-Site Task Supervisor (if applicable) to compare drafts of the evaluation in order to clarify any differences in perception of expectations and accomplishments.

The working copies or drafts should be integrated into a single form, which reflects agreement between all parties involved in the evaluation. If there is significant disagreement, the Field
Instructor should contact the School immediately. After the evaluation is completed, it is signed by the Field Instructor, the On-site Supervisor (if applicable), the student and the Field Learning Specialist. The Coordinator of Field Education Programs assigns the final grade, based upon the formal evaluations by the Field Instructor, along with documentation submitted by the Field Learning Specialist and student. In addition, the student will complete an evaluation of the field site and the Field Instructor at the end of the final semester. It is the student’s responsibility to ensure that all documents are submitted to the School.

9.0 AGENCY-UNIVERSITY RELATIONS

9.1. Formal Agency/University Agreement

While informal agreements between the School of Social Work and the agency may satisfy the needs of each, in the interest of clarity and uniformity of expectations, the University of Windsor and field education agencies enter into a formal affiliation agreement for the field education of the University’s students, subject to terms and conditions which apply and the agreement is signed by both parties. Signed copies are kept on file in the School of Social Work, the agency and the office of the University Counsel. Affiliation agreements are updated as needed.

9.2. Public Liability

The University carries a Comprehensive General Liability Policy, which covers bodily injury, personal injury and property damage. A Certificate of Insurance can be provided upon request. This Policy also covers any executive officer, member of board of governors, trustees and any other officials, elected or appointed in connection with University activities and or operations, employees, volunteer workers, including lecturers, guest lecturers all while acting within the scope of their duties as such, and a person gratuitously performing work in connection with an undertaking of the University with the knowledge or the expressed approval of the University.

In addition, all University of Windsor registered students are embraced by the term insured, but only with respect to liability arising from the Named Insured and only while students are engaged in activities involving their normal course of studies, including on-the-job training programs arranged by the University for students enrolled for courses of study at the University. Personal Injury includes:

- false arrest, false imprisonment, malicious prosecution and wrongful detention;
- invasion or violation of privacy, wrongful eviction, wrongful entry;
- libel, slander, defamation of character and humiliation

9.3. Automobile
The University’s Automobile Insurance Policy only insures vehicles owned and/or leased by the University. The Policy does not include coverage for vehicles owned by faculty, staff or students in the Field Education Program, and therefore all parties should ensure that they are personally covered by their own adequate insurance. Students travelling to and from field placement in their own vehicles do so at their own risk. Students who transport agency clients or volunteers should ensure that their personal automobile insurance covers such contingencies.

9.4. WSIB/Private Insurance Coverage

The Ministry of Advanced Education and Skills Development (MAESD) - formerly known as MTCU - provides insurance coverage for workplace injuries incurred by students participating in an unpaid work placement as part of their academic program.

Ministry of Advanced Education and Skills Development (MAESD) provides insurance coverage for Ontario Postsecondary students who must complete an unpaid work placement as a requirement of their publicly supported postsecondary education program. This includes all undergraduate and graduate students placed in field education sites, completing the required practicum hours.

**WSIB**

MAESD provides WSIB coverage for the Placement Employer (Field Site); the Placement Employer must be an Ontario employer covered under the Ontario *Workplace Safety and Insurance Act (WSIA)* 1997.

The Government of Ontario, through MTCU, pays WSIB for the cost of Benefits it pays to Student Trainees enrolled in an Approved Program at a Training Agency during Unpaid Work Placements with employers who are either compulsorily covered or have voluntarily applied to have WSIB coverage.

**Private Insurance Coverage**

MAESD also covers the cost of private insurance for Student Trainees enrolled in an Approved Program at a Training Agency during Unpaid Work Placements with employers which are not required to have compulsory coverage under the WSIA.

This coverage is for the job placement portion of individuals on unpaid placements with employers providing that the placement is authorized by the training agency (University of Windsor) and that the individual participates in the activities of the placement employer and is not merely observing. The Workplace Safety & Insurance Board provides benefits for
students injured in an "on-the-job" accident. Such benefits include health and medical costs, short and long term benefits, rehabilitation, and survivors' benefits.

For placement eligibility please reference:  http://www1.uwindsor.ca/safety/unpaidplacements

**If a student has an accident while participating in an unpaid placement, what are the reporting requirements?**

Reporting procedure if a student has an accident while participating in an unpaid placement:

- Student reports the injury to the placement employer and to the Placement Coordinator
- The Student Trainee and Placement Employer must complete and sign the MAESD Postsecondary Student Unpaid Work Placement Workplace Claim Form and return it to the University's Placement Coordinator in order to initiate a WSIB claim.
- The Placement Coordinator must obtain the Incident Report, the completed MAESD Postsecondary Student Unpaid Work Placement Workplace Claim Form, and the completed Letter of Authorization to Represent Employer and send copies to the University's Health and Safety office and Risk & Insurance Officer within 24 hours of the incident.

**10.0 CONFIDENTIALITY**

Everyone involved in the field education process is required to adhere to the confidentiality requirements outlined in the Canadian Association of Social Workers (CASW) Code of Ethics:

A professional value that demands that professionally acquired information be kept private and not shared with third parties unless the client provides informed consent or a professional or legal obligation exists to share such information without client informed consent.

Any transmission of information about clients, field practice settings, social workers, field instructors and field placement students will be subject to the standards of confidentiality outlined in the CASW Code of Ethics as well as any standards in place in the field practice setting.

**11.0 GRADING SYSTEM – EVALUATION PROCEDURES**
11.1. Evaluation Procedure

Student Evaluations and Hours Logs are completed at the mid-term (mid semester) and end of each Field Education course (47-473 and 47-475). Due dates are noted on the BSW Field Education Schedule of Important Dates. Prior to completing the final evaluations, the student, Field Instructor and On-Site Task Supervisor (if applicable) prepare written notes on the student's performance in relation to the Learning Agreement and Evaluation. In those instances when an On-Site Task Supervisor is providing day-to-day task supervision, the Field Instructor and the On-Site Task Supervisor must compare notes before the student meeting to ensure that there are no discrepancies between these two parties. If there is significant disagreement, the Field Instructor must contact the Field Learning Specialist immediately.

The Field Instructor, On-Site Task Supervisor (if applicable) and the student should refer to the skill and knowledge competencies as well as the rating scale when evaluating student performance. The Field Instructor, On-Site Task Supervisor (if applicable) and the student should meet to discuss the evaluation, share ideas and views and reach an agreement about the student’s field education performance. Students should be aware that a rate of “3” indicates that the student has achieved expected performance on the competency under consideration.

At the conclusion of the mid-term evaluation, the Field Instructor indicates whether the student is “In Difficulty” or “In Good Standing”. At the conclusion of the final evaluation process, the Field Instructor recommends a “Pass” or a “Non-Pass (Fail)” on the Evaluation Form, which is submitted to the Field Learning Specialist. The Field Learning Specialist forwards the recommendation to the Coordinator of Field Education Programs. The Coordinator determines the final grade and submits the grades to the Registrar’s Office, based upon the formal evaluations by the Field Instructor, along with documentation submitted by the Field Learning Specialist and student. The Coordinator of Field Education Programs and the Director of the School of Social Work have the prerogative to assign a grade which is different than that recommended by the Field Instructor.

11.2. Student’s Signature on Evaluation Forms

All evaluations must be signed by the Field Instructor, the On-site Task Supervisor (if applicable) and by the student before they are submitted to the School of Social Work. The Field Instructor is primarily responsible for the content of the final evaluation. The student's signature verifies only that the final evaluation has been seen and that the student has received a copy. It does not necessarily imply that the student agrees with the content. The student has the prerogative to submit an attachment to the evaluation if there is a lack of concurrence on the content. The student must provide the Field Instructor and On-site Task Supervisor (if applicable) with a copy of the attachment prior to submission to the Field Learning Specialist.
12.0 ASSIGNMENT OF GRADES

Students are assigned a grade of Pass or Fail in their final evaluation each semester. As previously noted, at mid-term, Field Instructors recommend whether the student can continue in the field by assigning “In Good Standing” or “In Difficulty”.

The Coordinator of Field Education Programs can assign the following final grades:

- P (Pass)
- F (Fail)
- INC (Incomplete)
- IP (In Progress)

12.1. “P” (Pass)

The following criteria must be met for assignment of a “Pass” grade by the Coordinator of Field Education Programs:

1. The student has demonstrated at least an “expected” (3) level of performance with respect to each learning outcome and related competency in the evaluation.
2. The student has completed the minimum required hours (700 hours per academic year).
3. The student has submitted all documents including the signed evaluation and field hours log.

NOTE: If a student is ranked below “3” on any competency, the Field Learning Specialist will review the evaluation and if needed, will meet with the Coordinator of Field Education Programs to discuss the evaluation prior to assigning the final grade.

12.2. “F” (Fail)

If one or more of the following criteria are evident, the Coordinator of Field Education Programs may assign an “F” (Fail).

1. The student consistently performs below acceptable performance (“2” or lower) with respect to one or more learning outcomes and the related competencies.
2. The student has not completed the required number of hours;
3. The student has breached the Social Work Code of Ethics;
4. The student has breached the School of Social Work’s Professional Suitability Policy;
5. The student has violated the values and principles of social work practice as outlined in the Ontario College of Social Workers and Social Services Workers legislation.
6. The student has breached Senate By-law 31

**12.3. “INC” (Incomplete)**

If, due to unavoidable and special circumstances, the student requires additional but limited time in placement, the Coordinator of Field Education Programs may submit an "Incomplete" grade; however, the student must request an “Incomplete” and the reason for the request must be clearly defined, in writing. If the Coordinator of Field Education Programs approves this recommendation, the student may be permitted additional, limited time beyond the end of the semester to meet the field course requirements. The field practice course must be successfully completed within six weeks of the end of the course or the Office of the Registrar automatically enters a final grade of “F” in the student’s record (refer to Senate Bylaw 51: Academic Evaluation Procedures).

**12.4. “IP” (In Progress)**

In special circumstances, if the Field Instructor in conjunction with the Field Learning Specialist recommends that the student requires additional but limited time in the placement to meet the School’s expectations the Coordinator of Field Education Programs may submit an “IP” grade. The Field Instructor, in consultation with the Field Learning Specialist will draft a plan which clearly outlines the School’s and the field site’s expectations in order to assign a “Pass” grade.

**12.5. Voluntary Withdrawal from Field Practice Courses**

Occasionally, due to unforeseen circumstances, it may be necessary for a student to withdraw from the Field Practice courses. Students must withdraw from a course or courses within the voluntary withdrawal periods as indicated in the University of Windsor Undergraduate Calendar. Such a circumstance must be clearly outlined by the student in a letter of request to withdraw to the Coordinator of Field Education Programs (copied to the Coordinator of the Undergraduate Program). The request must be supported by appropriate documentation. If approved, the terms of return to the program will be specified. Return to the program following absence due to illness will require a physician’s statement that the student is physically/emotionally able to return to their placement and meet the School’s and placement site’s expectations.
13.0 PROCEDURES FOR ADDRESSING UNSATISFACTORY PERFORMANCE IN THE FIELD EDUCATION COURSES

The School of Social Work and the Field Education Program have procedures in place which allow the School, student, On-Site Task Supervisors and Field Instructors to identify and respond to situations in which the student has been identified as performing below expectations or the student has identified an issue in the placement. These procedures include, but are not limited to:

- All students are assigned a Field Learning Specialist and are informed that it is their responsibility to contact their Field Learning Specialist if any problems are identified. Most problems in the field placement, if identified and acted upon early, can be resolved in a professional manner between the parties involved. If informal problem solving efforts are unsuccessful, formal corrective action will be required. It is the function of the student’s Field Learning Specialist to determine whether the problem is a performance or non-performance concern.

- All On-site Task Supervisors (if applicable) and Field Instructors are informed that the student has been assigned a Field Learning Specialist and that the Field Learning Specialist should be contacted immediately if there are problems with the student or the field site.

- On-site Task supervisors and Field Instructors are encouraged to discuss any concerns early on with the student and Field Learning Specialist rather than wait until a problem becomes more serious. Field Learning Specialists are available to provide support to both the Field Instructors and students to ensure their success in the field.

- All students and Field Instructors are contacted by the Field Learning Specialist within the first month of the placement to discuss the student’s adjustment, to promote communication between the School and the placement site and the School and the student, and to discuss any issues or problems which may have arisen or could arise in the placement.

- Students, On-site Task Supervisors (if applicable) and Field Instructors are informed that a site visit is scheduled during the term. Additional site visits can be scheduled at the discretion of the Field Learning Specialist.

- All students have access to the BSW Field Education Manual and the Social Work Code of Ethics.

The procedure for addressing unsatisfactory performance or unprofessional behaviour identified by the Field Instructor, On-site Task Supervisor or Field Learning Specialist is outlined below (see Figure 2):
• In most instances, the Field Instructor will contact the Field Learning Specialist when a performance problem is suspected and/or has been identified. If the problem is noted by the On-site Task Supervisor, the Supervisor will contact the Field Instructor.

• The Field Learning Specialist will require the Field Instructor to document the problem and the attempts which have been made to resolve the problem.

• The Field Learning Specialist will advise the Coordinator of Field Education Programs of the performance concern.

• The Field Learning Specialist will forward a copy of the Field Office Report Form to the Field Instructor for completion. Once the Field Office Report Form is completed, the Field Instructor will return it to the Field Learning Specialist.

• The student will be advised by the Field Learning Specialist that a performance concern has been raised and a Field Office Report Form is being completed. The Field Instructor, Field Learning Specialist and student may meet together or the Field Learning Specialist may meet separately with the student to determine whether there are any mitigating circumstances which have given rise to the unsatisfactory performance. A decision will be made at this point whether or not the issue has been resolved or if an Individualized Field Education Plan is required (see APPENDIX 2).

• The completed Field Office Report Form with attached documentation will be forwarded to the Coordinator of Field Education Programs for review. The report will then be submitted to the Undergraduate Secretary to be filed in the student’s file.

• If it is determined that an Individualized Field Education Plan is required, the Field Learning Specialist will draft the plan with input from the Field Instructor and/or On Site Task Supervisor. The Plan must be signed by the Field Learning Specialist, student and Field Instructor and submitted to the Coordinator of Field Education Programs for review and filing in the student’s file. The student and Field Instructor keep a copy. This plan will include the steps to be taken by the student to improve his/her performance and achieve the course outcomes as well as the date(s) when all parties will meet to evaluate the student’s progress. The Field Learning Specialist, Coordinator of Field Education Programs and Field Instructor will review such situations carefully and closely monitor the student’s progress in the agency.

• If the student does not successfully complete the Individual Field Education Plan or the Field Instructor, student or Field Learning Specialist advise that the situation cannot be resolved, the Coordinator of Field Education Programs will inform the Undergraduate Coordinator. The Coordinator of Field Education Programs and the Undergraduate Coordinator will
conduct a careful review of the situation and the documents and make recommendations regarding the student’s status in the Field Education Program.

Figure 2: Process to Resolve Student/Field Issues

14.0 PROCEDURES FOR ADDRESSING UNPROFESSIONAL BEHAVIOUR OR LACK OF INTEGRITY IN THE FIELD EDUCATION COURSES

In those cases in which a student has displayed unprofessional behavior or lack of integrity in the placement site as described in the Social Work Code of Ethics and the University of Windsor’s Senate Bylaw 31, the Coordinator of Field Education Programs will refer to the School of Social Work’s Professional Suitability Policy (see APPENDIX 7) and Senate Bylaw 31 to develop a response and plan of action to address the identified behavior or attitude. As per
University of Windsor policies, students must comply with Senate Bylaw 31, so it is important that students review Senate Bylaw 31.

15.0 ASSESSMENT OF FIELD EDUCATION COURSES

15.1. Student Evaluation of Field Education Courses

The School evaluates the field practice sites annually. All students are expected to complete and submit a “Field Placement Feedback Form” at the end of the placement when advised by the School of Social Work. The form is available on the Field Education website. The information provided by the students contributes to quality control within the Field Education Program and may be shared with the field sites in a non-identifying manner for the purposes of providing general site-specific feedback. Completion of the form is viewed as a professional responsibility.

16.0 STUDENT APPEAL OF FIELD EDUCATION COURSE GRADE(S)

Students have the right to appeal their field education grade in the same way as other academic appeals. The appeal procedures are outlined in Senate Bylaw 51: Academic Evaluation Procedures. Students should also consult Senate Bylaw 31: Student Affairs and Integrity available on the University website at: http://www.uwindsor.ca/senate.

17.0 FORMS AND SUPPORT RESOURCES

17.1 Student Access

To access field forms and support resources, students should go to https://blackboard.uwindsor.ca and select BSW Field Education Site. Students will need their uwindsor username and password to log into the site.

17.2 Field Instructors Access

To access field forms and resources, Field Instructors should go to https://blackboard.uwindsor.ca and select Social Work Field Instructors site. Log in information will be e-mailed at the beginning of the Fall term to all Field Instructors and On-site Task Supervisors.
REFERENCES

This manual is intended primarily for use by students, field instructors, on-site task supervisors and Field Learning Specialists associated with the Undergraduate Program. Statements contained in this manual are subject to change without notice.

August 2017
APPENDIX 1: INSTRUCTIONS: VULNERABLE SECTOR CHECK

Windsor, LaSalle, Chatham-Kent, London, Toronto, and OPP

The School of Social Work requires that all students obtain a Vulnerable Sector Check (VPC) each year before beginning the field placement. This is a requirement of the School of Social Work and students will not be permitted to begin field placement until a copy is submitted to the School of Social Work.

A copy of the VPC must be submitted to the School via the Undergraduate & Field Education Secretary as soon as it is available. You should also keep the originals for your placement agency and a copy for your own records. Please note that the School will not provide copies to you.

NOTE: If a local police service needs a letter from the University of Windsor confirming the requirement to secure a VPC as part of your placement requirements the Coordinator of Field Education Programs or a Field Learning Specialist will sign the letter and/or facilitate the process of ensuring that you have the letter. The Undergraduate Secretary has the letter template and may be contacted to assist you.

In addition please note the following procedures.

**Windsor Police Service** - [http://www.police.windsor.on.ca/](http://www.police.windsor.on.ca/)
The Police Vulnerable Sector Check form can be accessed online through their website or at the Information Services Reception Counter. The form is submitted to the Windsor Police Service for processing.

Direct link to the form: [http://www.police.windsor.on.ca/services/info-requests/Documents/PVSC%20application%20form%20amendments%20Feb%202022%202016.pdf](http://www.police.windsor.on.ca/services/info-requests/Documents/PVSC%20application%20form%20amendments%20Feb%202022%202016.pdf)

**LaSalle Police Service** - [http://www.police.lasalle.on.ca/](http://www.police.lasalle.on.ca/)
Both the Application for Police Clearance and the Form 1 (the Vulnerable Sector Check) must be filled out and submitted to the LaSalle Police Service for processing. Forms are available on their website or at the LaSalle Police Service location.

**Chatham-Kent Police Service** - [http://www.ckpolice.com/](http://www.ckpolice.com/)
The Consent for Police Information Search VOLUNTEER/STUDENT form can be accessed online through their website. Check the “Yes” box under the question: “Will this position be
responsible for the well-being of one or more children and/or vulnerable persons?” Submit to the Chatham-Kent Police Service for processing.

The Police Vulnerable Sector Check (PVSC) Form (Individual) can be accessed online through their website or at the London Police Service location. The form is submitted to the London Police Service for processing.

**Toronto Police Service**

Police Reference Check Program - [https://www.torontopolice.on.ca/background-checks/vulnerable-sector-screening-process.php/](https://www.torontopolice.on.ca/background-checks/vulnerable-sector-screening-process.php/)

The form is only available as a hard copy from the School of Social Work and can only be signed by Ms. Mary Medcalf, Coordinator of Field Education Programs. Students should contact Ms. Medcalf directly in order to ensure her availability to sign the form.

Note that the current wait time is 16-20 weeks.

**Ontario Provincial Police (OPP) - [http://www.opp.ca/](http://www.opp.ca/)**

The Vulnerable Sector Check is an agency/organization driven request. In order to have this done you must have an agency/organization letter which explains that you need a vulnerable sector check. You will also need to give a detail description of the specific job you will be hired/volunteer for as well as a hiring managers names and contact number.

Letters may be requested from the School of Social Work from the Field Learning Specialists or from the Undergraduate Secretary. Please ensure ample time when requesting such letters.

The VPC (including Pardoned Sex Offender Database (PSOD)) form can be accessed online through their website.

The form can be directly accessed at:

Other
If students are placed in geographic areas other than those discussed above, please check with the local police services. If you need assistance, contact the School of Social Work for further information.

APPENDIX 3: PROCEDURES TO COMPLETE 47-473 FIELD EDUCATION I & 47-475 FIELD EDUCATION II LEARNING AGREEMENTS

LEARNING AGREEMENT

Purpose of the Learning Agreement

The Field Education Learning Agreement is a blueprint of the student’s educational experience with specific assigned tasks designed to develop knowledge and skills. The Learning Agreement facilitates the development of individual learning within a framework of expected social work competencies designated by the School of Social Work. The objectives incorporate the initial competencies for generalist social work practice. The BSW program is based on the principles of Generalist Practice.

The Field Instructor, the On-Site Task Supervisor (if applicable) and the student develop the learning assignments and activities.

FIGURE 3: PROCESS FOR COMPLETING THE UNDERGRADUATE LEARNING AGREEMENT

</tr>
</tbody>
</table>

NOTE: The Learning Agreement should be available at the site visit. Students should keep a copy for themselves and the Field Instructor and reference during field supervision. It is the student’s responsibility to ensure that all documents are signed.
Completing the Learning Agreement

- Students should have and utilize the Learning Agreement form at the start of their field placement to begin to identify tasks and opportunities that will facilitate achievement of the learning outcomes.

- Students need to know agency expectations at the beginning of the semester. Field Instructors/On-Site Task Supervisors should review expectations for performance, growth and grading.

- The Learning Agreement should incorporate the learning outcomes and competencies.

- List major assignments and be as specific as possible. The critical aspect of the Learning Agreement is the relevance of the assignments to the learning outcomes and related competencies.

- Assignments can include activities which lead to the development of knowledge (e.g. a literature review, discussions in supervision, review of Internet information on particular subjects) and should be written using action words.

- Assignments should be appropriate to the agency setting and should facilitate the achievement of the learning outcomes stated in the Learning Agreement.

- The Field Learning Specialist is available for consultation in developing the Learning Agreement and is expected to review the final product before approving it on behalf of the Field Education Program.

- After the Learning Agreement is completed, it is signed by the Field Instructor, the On-Site Task Supervisor (if applicable), the Field Learning Specialist and the student.

- Students should receive a copy of their Learning Agreement.

- It is the student’s responsibility to submit the Learning Agreement to the School.

Using the Learning Agreement

- The Learning Agreement is used as the basis for the ongoing assessment of the student and for referencing when completing the final evaluation.

- The Learning Agreement is intended to guide the student’s field practice and should be consulted regularly throughout the duration of the placement, especially prior to evaluation meetings.
Changes and additions to the Learning Agreement can be made at any time. Any revisions or additions related to the Field Education courses should be included on the Addendum and submitted to the School by the date indicated on the Bachelor of Social Work Field Education Schedule.

1. The Undergraduate Secretary notifies the Field Learning Specialist that the Learning Agreement has been submitted.

2. The Field Learning Specialist reviews and signs the Learning Agreement or contacts the Field Instructor if there are any concerns.

3. The Field Learning Specialist then submits the Learning Agreement to the Undergraduate Secretary for filing.

**NOTE:** The Learning Agreement should be available at the site visit. Students should keep a copy for themselves and the Field Instructor and reference during field supervision. It is the student’s responsibility to ensure that all documents are signed.
APPENDIX 4: LEARNING AGREEMENT SAMPLE TASKS AND ACTIVITIES

Note: These suggestions are to get you thinking about the kind of tasks you might consider including on your learning agreement. If you are utilizing these ideas for the Student Assignments section of your learning agreement you will need to state them in a manner that is specific to your site and follows S.M.A.R.T. principles i.e. “Student will obtain a copy and memorize the organization’s vision and mission statement. Student will interview a field instructor and others at the agency for examples of how the agency endeavours to realize its mission. Student will reflect on his/her contribution to the agency mission and discuss with supervisor. Target completion date: Sept. 28.”

Organizational Context of Practice:

- Obtain a copy of the organization’s vision, mission and values statement.
- Read agency policy and procedure manuals and any protocols.
- Read grant proposals.
- Review annual reports.
- Attend orientation sessions.
- Attend team and agency meetings.
- Obtain a copy of the organizational chart and set up shadowing opportunities in each department (if applicable).
- Observe and shadow the Field Instructor/On-site Task Supervisor; create opportunity to debrief regarding the context of organization.
- Initiate discussions about the agency’s expectation of the student role and how task assignments will be determined for the student and document the outcome of the discussion.
- Introduce self to staff etc. within the organization.
- Familiarize self with agency committees – seek opportunities to sit in or join a committee.
- Familiarize self with any quality control systems and studies at the agency.
- Look for opportunities to observe or participate in agency policy development.
- Review selection of files and familiarize self with the agency recording system.
- Seek out information about referral sources to agency and from agency.
- Meet with office administrator to review IT systems.
- Make presentations, formally and informally, to client systems and other professionals or students about the services, policies and procedures of the agency.
- Observe and reflect on agency culture and discuss with field instructor.
- Review the organizations safety policies and procedures and discuss with field instructor at an early supervision session.
Community Context of Practice:

- Seek out and discuss local, provincial and national trends/demographics and the implications for practice at your organization. Critically analyze whether existing services are adequately meeting the needs of newcomer populations.
- Attend community/coalition meetings on behalf of client systems and practicum/internship sites.
- Meet with community partners to discuss social justice issue affecting the client system.
- Attend city council meeting. Interview a council member regarding the community served.
- Review community stats—in relation to placement organization.
- Attend interagency committee meetings relevant to particular demographic served.
- Complete an asset map which involves directly talking with a variety of people and organizations in the community served, including informal community leaders.
- Visit/interview community agencies connected to your “population served”.
- Review community resource information e.g. Ontario 211.
- Create list of community partners and organize site visits at 3 of these agencies.
- Use networking list (provided by the School of Social Work) to do an initial scan of services & report to the Field Instructor.
- Read the newspaper.
- Identify key community events that impact the agency/clients.
- Conduct a walking tour of the community – discuss impressions with field instructor.

Social Work Skills Context of Practice:

- Explore current research on issues pertinent to the population served and share findings with your field instructor and or team.
- Read pertinent legislation, regulations, policies related to population or issue.
- Conduct a web search on best practices related to interventions with target population/issues.
- Observe/Shadow Field Instructor/On-site Task Supervisor.
- Attend staff meetings, case conferences, etc.
- Complete a client system assessment which includes information related to the cultural, social, familial and personal elements impacting the lives of clients and client populations.
- Read social work literature related to intervention with client system.
- Meet with Instructor to discuss personal and professional growth in the application of social work skills and knowledge.
- Make presentations, formally and informally, about the population and issues in the field site.
- Manage own files, direct or indirect, using social work skills of collaboration, engagement, assessment, planning, intervention, termination, advocacy.
- Review work with client systems and articulate the social work theories and practice concepts in the assessment, planning, implementation and evaluation of the intervention.
• Attend community meetings with Field Instructor or On-site Task Supervisor (if applicable) as “observer”.
• Increase responsibility at community meetings with/for Field Instructor or On-site Task Supervisor (if applicable) e.g. take minutes, present report, etc.
• Participate in fundraising activities.
• Attend events involving client populations, e.g. agency barbeque; workshop, etc.
• Plan activities with representatives of client group served.
• Attend “fairs”—job, seniors, resume, health, etc.
• Take clients to various community appointments; OW, ODSP, doctor’s appointments, housing appointments.
• Complete forms with/for clients.
• Review different types of interviews (and their purposes) used by agency. Video tape or do a process interview on one of your interviews and submit for clinical supervision feedback.
• Review different types of interventions (and their purposes) used by agency.
• Attend professional development activities, as appropriate to the agency and as possible with schedules.
• Initiate discussions with Field Instruction/On-site Task Supervisor (if applicable) regarding environmental and community conditions which facilitate or prevent client system empowerment and health.
• Identify systemic barriers and opportunities in the social environment experienced by their client system.
• Complete a literature review/web search to determine social, economic and political factors affecting client system.
• Complete an analysis of the social issues, policies, programs that affect their client system and the implications for intervention. Regularly read the newspaper to keep up to date on political and social developments that may relate to the population served.
• Discuss your self-care plan with your field instructor and make a commitment to prioritize utilization of the plan including regular self-assessment.
• Discuss the implication of social and economic forces on their proposed intervention with client systems.
• Integrate field learning about social justice into academic papers and discuss in integration seminar.
• Complete intake/assessment forms.
• Letter writing.
• Thank you’s.
• Request for support/funds/items.
• Send information to client.
• Participate in volunteer training—move from observer to presenter.
• Newsletters—coordinate/develop.
• Complete case notes and submit to field instructor for feedback.
• Answer phones, complete intakes over the phone.
• Verbally present assessments, reports at meetings.
• Design and deliver public education sessions on behalf of agency.
• Review an example of well written committee minutes and take the minutes at a future meeting.

**Professional Context of Practice:**

• Initiate discussions with Field Instructor/On-site Task Supervisor (if applicable) regarding agency policies and procedures related to professional behaviour.
• Complete a process recording of interaction with clients and/or staff, focusing on professional communication.
• Discuss how Code of Ethics affects agency practice and goals and apply Code when interacting with client system and representing agency.
• Log activities in order to monitor personal strengths and areas for improvement as well as agency strengths and service gaps.
• Self-reflect in journals and daily logs. Utilize a reflection journal for the purposes of clinical supervision.
• Actively participate in field instruction and supervision. Submit an agenda for weekly supervision.
• Arrange for a time to discuss “best practices” with Field Instructor.
• Have a copy of the CASW Code of Ethics and ensure your practice consistently aligns with the code. Discuss examples of ethical dilemmas with your field instructor and apply an ethical decision making model.
• Provide a written and/or verbal analysis of interactions and interventions with client systems, including use of self.
• Provide a list of tasks that can be attended to if all other tasks are completed or stalled.
• Interview field instructor or other mentors regarding their professional development and alignment.
• Join professional organizations.
• Engage in regular self-evaluation and demonstrate a commitment to ongoing professional development.
• Be civically engaged.
Introduction

The evaluation rating scale (see APPENDIX 6) is designed to assess the student’s level of attainment of the learning outcomes in the first semester. The rating scale provides a list of competencies which reflect the beginning competencies needed by a generalist social worker. A rate of 3 is the expected level of achievement. The narrative section provides an opportunity for all parties to comment on progress, concerns, etc.

Completing the 47-475 Field Education I and 47-475 Field Education II Mid-Term Evaluations

Refer to the Learning Agreement to review the School’s learning objectives, the student’s assignments and activities and the Undergraduate Field Education Policies and Standards Manual to complete the Mid-Term Evaluation. The student should prepare a narrative summary of progress (4-6 pages, typed, double spaced), including:

1. Summary of assignments
2. Summary of integration of theory and practice activities at the organization, community, social work skills and professional contexts of practice
3. Areas of enhanced learning by mid-term
4. Areas of learning requiring special or additional attention
5. Revisions or additions to the Learning agreement if necessary
### PROCESS FOR COMPLETING THE MID-TERM EVALUATION

**Note:** The Learning Agreement and Mid-Term Evaluation should be available at the site visit. Students should keep a copy for themselves and the Field Instructor and reference during field supervision. It is the student’s responsibility to ensure that all documents are signed.

**Completing the 47-475 Field Education I and 47-475 Field Education II Final Evaluations**

**Introduction**

The evaluation rating scale is designed to assess the student’s level of attainment of the learning objectives and related competencies in the second semester. A rate of 3 is the expected level of achievement. The narrative section provides an opportunity for all parties to comment on progress, concerns, etc.
### PROCESS FOR COMPLETING THE FINAL EVALUATIONS

<table>
<thead>
<tr>
<th>Field Instructor, student and On-site Task Supervisor (if applicable) refer to the Learning Agreement and Addendum to review the School’s learning objectives, the student’s assignments and activities and complete a working copy of the evaluation</th>
<th>The Field Instructor meets with the student and On-Site Supervisor to compare drafts of the evaluation</th>
<th>The working copies or drafts should be integrated into a single form.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Student makes any recommended changes and obtains signatures of the Field Instructor and On-Site Supervisor</td>
<td>Student submits signed evaluation via Blackboard</td>
<td>Field Learning Specialist notifies Graduate Secretary that final evaluation has been submitted</td>
</tr>
<tr>
<td>Field Learning Specialist reviews the Final Evaluation or contacts Field Instructor or student if there are any concerns</td>
<td>Student makes any recommended changes and Field Learning Specialist reviews and signs revised Final Evaluation</td>
<td>Final evaluation is filed in School of Social Work</td>
</tr>
</tbody>
</table>

- **NOTE:** It is the student’s responsibility to ensure that all aspects of the evaluation are complete. Students should keep a copy of their final evaluation.
APPENDIX 6: EVALUATION RATING SCALE

5 - Exceptional
The student’s performance with respect to the factor under consideration consistently and fully meets, and regularly exceeds, all of the requirements of the work assigned. This is the rating given to a student who consistently demonstrates a high level of competency and whose work effectiveness exceeds what the Field Instructor considers as above acceptable.

4 - More than Expected
The student’s work performance with respect to the factor under consideration meets and frequently exceeds the requirements of the work assigned. This rating is given to a student who demonstrates above minimum competency expectations and whose work is assessed to be above acceptable.

3 - Expected
A rating of expected indicates that the student’s performance with respect to the factor under consideration meets and may occasionally exceed the minimum competency expectations. This is the rating given to a student whose work effectiveness is assessed to be adequate and acceptable.

2 - Less than Expected
The performance with respect to the factor under consideration occasionally meets, but usually falls below, acceptable performance. The rating is intended as a notice to the student that improvement in work performance is definitely indicated for professional social work practice and does not meet minimum competency expectations.

1 - Unacceptable
The performance with respect to the factor under consideration falls below acceptable performance. Additionally, the student may demonstrate performance or actions which are contradictory to the values and ethics of the profession.

N/A
Not applicable, no basis to evaluate, too few pertinent activities, due to limitations in the field placement.
APPENDIX 7: SCHOOL OF SOCIAL WORK PROFESSIONAL SUITABILITY POLICY

1.0 Preamble

The Canadian Association for Social Work Education (CASWE) Standards for Accreditation, June 2013 (SB/M 2.4.5) requires “The academic unit has a policy regarding the professional suitability of the student for the profession of social work. Students are made aware that serious or repeated violations of the Code of Ethics put them at risk of exclusion from the program on the basis of professional unsuitability.” At the University of Windsor breach of professional codes and rules are covered within Senate Bylaw 31: Student Affairs and Integrity.

The University of Windsor Bylaw 31: Student Affairs and Integrity, Academic Misconduct (2.1) states “For professional programs, all actions that result in a breach of the rules of conduct as set out by the professional bodies and adopted in substance by the relevant professional program as part of its code of conduct in the program shall also be considered acts of academic misconduct”. (2.1.1). Students should become familiar with Bylaw 31 (amended April 2013) which is located on the University of Windsor website http://www.uwindsor.ca/secretariat/49/senate-bylaws.

2.0 Suitability Criteria

Students in the BSW and MSW programs in the School of Social Work are expected to demonstrate attitudes and behaviours that are consistent with the Canadian Association of Social Workers Code of Ethics from which the suitability criterion are drawn:

• Respect for the Inherent Dignity and Worth of Persons
• Pursuit of Social Justice
• Service to Humanity
• Integrity in Professional Practice
• Confidentiality
• Competent Application of Knowledge and Skills for Professional Practice

Examples of misconduct can be found under “Appendix A” of Senate Bylaw 31.

3.0 Procedures to Respond to Breach of Rules of Conduct as set out by the CASW Code of Ethics and Professional Suitability Policy

Senate Bylaw 31 allows for informal and formal resolution if a student breaches the Code of Ethics, with the agreement of the Director of Social Work. Formal and informal resolution procedures are described in Bylaw 31 (Section 3).
4.0 Determining and Imposing Sanction

Where a student has been found to have acted with misconduct and/or breached the Professional Suitability Policy, Bylaw 31 provides a range of sanctions (Bylaw 31, 2.3). Sanctions may be imposed by the Director of the School of Social Work, Associate Deans, the Vice-Provost or the Judicial Panel and the Discipline Appeal Committee, depending upon the sanction.

5.0 Appeals (Bylaw 31, Section 3.3.3)

A decision and/or penalty imposed by an Associate Dean, the Vice-Provost, Students and International, or the AAU Head of a professional program may be appealed to the Discipline Appeal Committee Bylaw 31 (see 3.3.3, 3.3.4).

6.0 Confidentiality and Sharing of Information

The School recognizes that the safety, confidentiality and self-determination of students or others who have been subjected to unprofessional conduct under this Policy must be an important priority. Personal information collected by the University shall only be disclosed and used in accordance with the University’s duties and obligations under the Freedom of Information and Protection of Privacy Act (FIPPA). In developing a response to a concern about student suitability, the School must balance confidentiality against its duty to protect existing and future students or persons who might otherwise be placed in jeopardy by a student who is acting in an unprofessional manner under this Policy. As required by FIPPA, records of disciplinary action are kept only in the Office of the Senate Secretariat. The Notice of Disclosure, Confidentiality and Use of Personal Information (FIPPA) policy can be found by accessing the following link: http://www.uwindsor.ca/registrar/519/notice-disclosure-confidentiality-and-use-personal-information-fippa.

NOTE: It is important that students review and become familiar with the Code of Ethics, the Standards of Practice, and University policies and procedures governing academic and non-academic behaviours, including:

Senate Bylaws
- Bylaw 31 Student Affairs and Integrity
- Bylaw 33: Student Rights and Freedoms

Senate Policies
- Policy S6: Student Code of Conduct
- Policy A4: Alcohol Use
- Policy E3: Rules of Conduct for Examinations
- Policy U1: Unacceptable Use of Computer Resources
University Policies

   - Acceptable Use Policy (Information Technology Services)
   - Human Rights Policy
   - Leddy Library Behaviour Code

All University bylaws and policies are available at the Senate website: http://www.uwindsor.ca/secretariat/47/senate-bylaws-and-policies
