UNIVERSITY OF WINDSOR ANIMAL CARE COMMITTEE

Standard Operating Procedure: AD-04A

Peer Review Form

The Canadian Council on Animal Care, which oversees animal use for research, teaching and testing, requires that all animal-based research projects receive peer review from two independent experts prior to their approval by an Animal Care Committee.

The following set of questions will serve as a guideline for this review (please attach additional pages if necessary), and return the form to the Vice President, Research, University of Windsor, 401 Sunset Ave., Windsor, Ontario, Canada N9B 3P4.

AUPP #

- 1) Please comment on the objectives and potential contribution(s) of this study to scientific knowledge.

- 2) Please comment on the following:
 - a) Hypotheses of the study and appropriateness of the experimental design involving animals.

b) Are the number of animals proposed appropriate to the research proposed?

c) Is the species of animal/model appropriate?

d) Are there alternative experimental procedures which would address the same research questions which would decrease or eliminate the use of experimental animals?
