

Add a Hyperlink to your Course Content

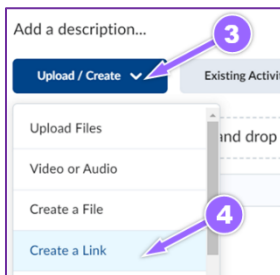

1. Click **Content** in the Navbar of your course.

2. In the **Table of Contents**, click the module in which you want to add the link. This will open the module.

3. Click **Upload/Create**.
4. Select **Create a Link**.

5. Enter a **Title** for your link, which will be the hyperlinked text that your students will select.
6. Type or paste the web address in the **URL** field.
7. Check the box beside **Open as an External Resource** if you'd like your students to be taken to the webpage outside of the course.
8. Click **Create**.
