Highlights and Skills

Computer Science (BCS)     Unlock the code to a bright future in this program that is more hands-on than you'll find almost anywhere else. We partner with industry to get you career ready and we let you specialize in the area that interests you most. If you choose co-op, you will find flexible sequencing of four, eight or 12 months. Our computer science students are employed in their field within two years.

MIN. AVG.* 75% [75% for co-op] **ONTARIO COURSE REQUIREMENTS** ENG4U, MHF4U, and MCV4U. A minimum 70% average of math courses is also required. Co-op programs: 75% + 70% average in all attempted Math courses, excluding MDM4U.

Computer Science (BSc)

(Applied Computing)   Join the real world of artificial intelligence, game development, multimedia, and networks and security from your first day of class. This program is more hands-on than what's offered elsewhere, and you'll have lots of opportunities to network with industry leaders. Co-op is available, with flexible scheduling. You'll find a job in your chosen field within two years of graduation. All our computer science grads do.

MIN. AVG.* 70% [75%* for co-op] **ONTARIO COURSE REQUIREMENTS** ENG4U, and MHF4U. MCV4U is strongly recommended. A minimum 70% average of math courses is also required. Co-op programs: 75% + 70% average in all attempted Math courses, excluding MDM4U.

Computer Science (BSc) (Software Engineering Specialization)   Develop the hard skills you'll need for creating, designing and maintaining software in this specialized program. You will learn to apply the technologies and practices from computer science, project management, engineering, application domains, interface design, digital asset management and other fields to software engineering. UWindsor is tied for first in graduate employment rates. All our grads find jobs in their chosen field within two years of graduation.

MIN. AVG.* 70% [75% for co-op] **ONTARIO COURSE REQUIREMENTS** ENG4U, and MHF4U. MCV4U is strongly recommended. A minimum 70% average of math courses is also required. Co-op programs: 75% + 70% average in all attempted Math courses, excluding MDM4U.

Computer Science (BSc) (Computer Information Systems)   Consider this — we are tied for first in graduate employment rate. All our grads in this program have found a job in their chosen field within two years of graduation. You'll have a strong foundation in the application of computer technology in industry and commerce. You'll gain insight into the latest technologies from our dedicated professors.

MIN. AVG.* 70% [75% for co-op] **ONTARIO COURSE REQUIREMENTS** ENG4U, and MHF4U. MCV4U is strongly recommended. A minimum 70% average of math courses is also required. Co-op programs: 75% + 70% average in all attempted Math courses, excluding MDM4U.

Business Administration and Computer Science (BComm)    Bytes and business go hand in hand in this program that puts an emphasis on technology in your business degree. This is a program with hands-on learning and many networking opportunities to give you a leg up in the worlds of computer programming, gaming, banking, pensions and more.

MIN. AVG.* 73% [78% for co-op] **ONTARIO COURSE REQUIREMENTS** ENG4U and MHF4U are required. MCV4U is strongly recommended. A minimum 70% average of math courses is also required. A minimum grade of 70% in at least one grade 12 U Math course (or equivalent) is also normally required.

FUNCTIONAL KNOWLEDGE

- Using existing computer programming languages to create content and solutions to problems
- Designing, adapting, and modifying computer programming languages, simulations, and systems analyses to address specific needs
- Thoroughly understanding the complex ways in which modern digital technologies store, transmit, and process information across networks
- Writing, debugging, and testing software programs
- Asking carefully selected, probing questions to troubleshoot confusing situations when presented with technical problems
- Concentrate acutely on detailed, context-specific textual information; maintaining focus and identifying discrepancies

 Co-op available  Honours - 4-year program  Thesis available  Combined Honours programs available * Minimum grade point average for admission to program. A higher average may be required.

Build your Skills and Experience

Your UWindsor experience is more than attending classes. It is a combination of academics, co-curricular activities, and extracurricular involvement. By making the most of all three elements of your university experience, you will maximize your opportunities to build your skills, broaden your personal network, and clarify your long term academic and career goals.

	CURRICULUM Courses of study specific to each program
	CO-CURRICULAR Activities and experiences that complement coursework (Outstanding Scholars, peer mentoring, VIP)
	EXTRACURRICULAR Activities falling outside the scope of set curriculum (Part-time job, clubs, volunteering, athletics)

Career Planning Cycle

Intentional career planning will help you prepare for your next step after graduation and beyond. It is a fluid, dynamic, and lifelong process. You can move on or return to an earlier stage in the cycle at any time.

Explore Opportunities Using This Chart

Explore a selection of opportunities recommended for students in your program. This chart shows some of your many options – you don't have to do everything on it or limit yourself to it. Engage in opportunities from each of the three categories to set yourself up for success.

High-Impact Practice (HIP)

A HIP is an enriching educational experience that can be life-changing and often includes learning outside of the classroom while encouraging meaningful interaction and collaboration, such as:

- Co-op, internship or field experiences
- Research with faculty
- Culminating senior experience
- Capstone courses
- Service-learning
- Learning communities
- Study abroad

Academics

Your Coursework

First Year

- Take required courses including Introduction to Algorithms and Programming I and II
- Review degree course requirements for all years of study and mesh them with professional or graduate school aspirations
- Participate in our **PASS** program during **Welcome Week** to be coached on the skills necessary to be successful as a Faculty of Science student
- Meet with a Computer Science academic advisor by e-mailing the department (csinfo@uwindsor.ca) for an appointment
- Meet with an upper-year Computer Science tutor www.tutor.cs.uwindsor.ca for specific course help
- Receive peer mentorship from an upper-year **MySci** advisor

Middle Years

- Take required courses and check in with academic advisor to make sure you are on the right path
- Look into completing an undergraduate research project in final year 
- Begin taking courses to specialize in Artificial Intelligence, Game Development, Multimedia, or Networks and Security
- Consider applying for co-op option 
- Seek out courses that offer experiential learning 
- Continue taking courses required as preparation for professional schools
- Study for and take professional school admission tests of interest
- Consider declaring a minor and/or a specialization

Final Year

- Meet with an academic advisor to go over graduation requirements
- Complete all required courses for your degree
- Apply to graduate through **UWinsite Student Portal**
- Undertake an undergraduate research project with a faculty member 
- Complete courses in accordance with a minor/specialization if you are pursuing it

Experience

Ways To Get Involved

- Begin the process of becoming a **LEAD Medallion Scholar** and participate in credit and volunteer activities 
- Participate in local and regional programming competitions such as the **ACM-ICPC Regional Programming Competition** and other various hackathons and online competitions
- Discover research opportunities as part of the **NSERC-USRA Awards**, project-based courses and the Outstanding Scholars program 
- Join the **USci Network** to take part in collaborative and integrative science experiences
- Join clubs such as the **Computer Science Society**, **Science Society**, **Students Offering Support** or create a **Computer Science** group
- Participate in the **Bystander Initiative** workshop to gain skills that will help you be an effective and supportive ally to prevent sexual assault on campus
- Apply for a co-curricular experience such as **VIP - Community Service Learning**

- Apply your knowledge through a teaching assistant or tutor position within the School of Computer Science 
- Participate in **UWill Discover** undergraduate research conference 
- Earn while you learn by participating in co-op program work terms
- Be *Engaged* through service learning opportunities with **Let's Talk Science** and **Science Rendezvous** 
- Expand your skills by taking on a summer, part-time or volunteer position
- Gain valuable *Leadership* skills through roles within a club or Society
- Gain a **Global Perspective of Science (GPS)** through an international exchange or by studying abroad 

- Join a professional association in your field such as the **Association for Computing Machinery (ACM)**
- Complete final co-op work term in the field of Computer Science 
- Conduct field research with a faculty member 
- *Discover* summer internships at such companies as **Google**, **Microsoft**, and **Amazon** 
- Become a tutor for **Students Offering Support (SOS)** or the **School of Computer Science** 
- Become a **MySci** advisor to provide academic support and mentorship for first-year students
- Complete **LEAD Medallion Scholars** in two areas for Bronze, three areas for Silver, or four areas for Gold in accordance with *Leadership, Engagement, Application, Discover* 

Career

Plan Ahead For What's Next

- Start planning your career by making a list of things you enjoy, your skills and areas where you excel
- Meet with a career advisor in **Career Development and Experiential Learning (CDEL)** for help developing a plan for your future years
- Consider a career assessment appointment to help you identify possible career paths
- Get involved with a part-time job, volunteer opportunity, campus group, or research assistantship
- Attend **CDEL workshops** to learn how to find a summer or part-time job and write a university-level resumé
- Begin creating your technical portfolio and **GitHub**
- Analyze the requirements for graduate or professional schools

- Research career fields and occupations with the help of a **CDEL** career advisor
- Explore opportunities and meet potential employers by participating in **Job Shadow Experience**, job fairs and industry networking events
- Explore further educational opportunities by attending the **Graduate and Professional Schools Fair** and researching admission requirements for programs you are interested in
- Create a **LinkedIn** profile and have it critiqued by **CDEL**
- Take part in informational interviews and join online communities like **LinkedIn** and **Ten Thousand Coffees** to connect with people in your target profession or industry
- Search job postings to learn what skills, knowledge, and credentials you will need for potential careers

- Meet with **CDEL** to prepare application documents like a resumé, cover letter, CV, or personal statement for jobs and education programs you are applying to
- Attend **CDEL's workshops** on interview skills and job search strategies
- Set up a mock interview with a career advisor for professional school or job applications
- Compose a portfolio of relevant academic and work experience
- Take part in recruitment events and job fairs, including those organized by **CDEL**
- Explore professional development opportunities through **Continuing Education**

Life After Graduation

I made some great friends in my program and had the chance to work on interesting group projects. I also was able to establish some great contacts through my job experiences as part of the co-op program. All in all, you will get out of Computer Science what you put into it."

Bryce St. Pierre - BCS in Applied Computing with Minor in Mathematics

97 Number of Graduates (2019)

Employment Skills Match rate of graduates 2 years following degree completion (OUGS Computer Science, 2018)

Career Tracks*

App developer
Budget analyst
Computer programmer
Computing consultant
Data base administrator
Design specialist
Development analyst

Development consultant
Field service technician
Information specialist
IT manager
Lawyer
Marketing manager
Network administrator

Policy analyst
Professor
Project lead
Quality assurance engineer
Research and development
Security technician
Software developer

Systems engineer
Teacher
Technical analyst
Technical support
Visual technologist
Web developer

**Additional education and/or training required for some of the above careers.*

Common Industries for Graduates

- **Academia**
- **Business:** Technical sales, analysis
- **Education:** Teaching, coaching, training
- **Information technology**
- **Research**
- **Software**
- **Telecommunications**
- **Web and eCommerce**

Career-Readiness Competencies

Critical Thinking & Problem Solving

Professionalism & Work Ethic

Teamwork & Collaboration

Communication

Campus Resources

- Research scholarships and bursaries through the **Student Awards and Financial Aid Office**
- Visit **Leddy Library** and the **Writing Support Desk** for help with academic assignments
- Check out the **Bounce Back** program designed to improve academic performance as well as decrease feelings of stress and anxiety through both effective learning strategies and life skills acquisition
- Build leadership skills and find leadership opportunities at the **Leadership Hub**
- Get advice and support about your academic status by making an appointment with **Academic Advising**
- Seek out assistance with academic accommodation from **Student Accessibility Services**
- Discover ways to get involved on campus through the **Student Success and Leadership Centre**
- Look into the **Ignite: Work Study** program for on-campus employment opportunities
- Get assistance developing your career plan and job search skills from **Career Development and Experiential Learning**
- Consult with the **EPICentre** if you are interested in starting your own business
- Broaden your cultural awareness through the **International Student Centre** and **Student Exchange Office**
- Find support for Indigenous learners and broaden your understanding of Indigenous culture by visiting **Turtle Island**
- Tend to your health and wellness with support from **Student Health Services** and **Lancer Recreation**
- Receive confidential mental health counselling delivered by trained professionals at the **Student Counselling Centre**
- **Prevent.Resist.Support.** Seek personal support or learn more about sexual violence prevention and resistance education through the **Sexual Misconduct Response and Prevention Office**
- Explore professional development opportunities through **Continuing Education**
