CHLOROFORM, D- 100G 99.8%	FLAM0100
DICHLOROMETHANE ACS 4L	CHEM6928

CCC ID is the unique product identifier of an item that is either stocked by the Chemical Control Centre or purchased previously. If CCC ID of the item is unknown, please provide detailed description of the item.

CCC Inventory Information – The Centre holds a wide variety of common items for both research & teaching applications. Please specify if you are agreeable to having your order filled with an equivalent (and often less expensive) in-stock item. All stock items can be returned for a full refund provided that they are unopened and in resaleable condition.

All requestors will be notified by email upon the receipt of their order and directed to reserve and appointment online. Essex Hall and CORE residents are required to pick-up their items from the Chemical Control Centre during assigned times. All other clients will have their order shipped to their attention by the next business day.

Customer Information – This section outlines the name Principal Investigator, the account to be charged, and the room(s) the items will be stored/used in. Authorized individuals on their respective accounts may only acquire items that have been purchased previously by the Chemical Control Centre.

HMIS Information – Provide the building and room number for where the items are to be used, stored, or manipulated. This information is used to provide emergency response personnel with critical information during an emergency.

Notes to CCC – Please list any critical information that needs to be communicated to our Customer Service staff to ensure the accurate and timely processing of your order.

Contact Information – This section should reflect the individual who requires the items and whom we may contact. For your security and privacy, we are only able to communicate by email to “uwindsor.ca” email addresses.

If an item is out of stock, it will be placed on Backorder and issued to the customer when CCC receives it.

Guarantee: The Chemical Control Centre endeavors to ensure that all orders are placed efficiently, effectively, and accurately. However, mistakes do occur. We will take all necessary steps to correct any problems to ensure your satisfaction with our service.
