## **Qualified foreign teachers wanted in China**

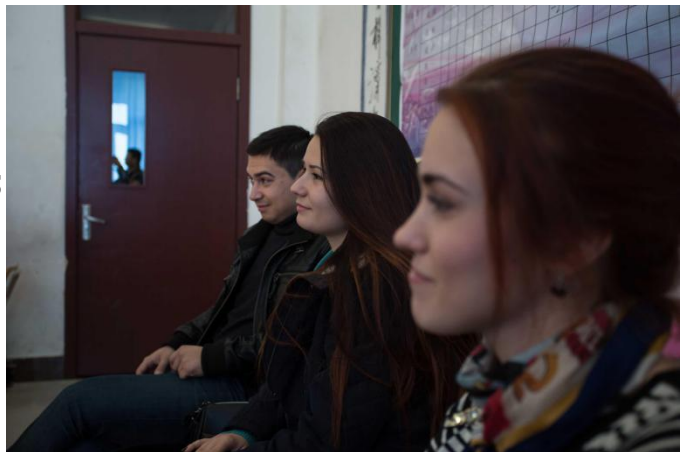

Do you want to travel to China, a country with 5,000 years of cultural history? Do you want to discover the culture of different regions of this Asian country? Being an English teacher in China is a good way to travel while making money.

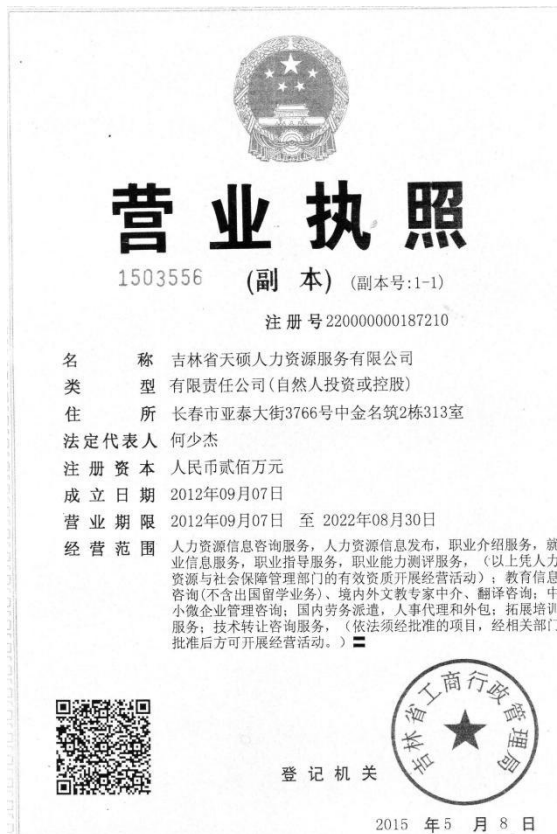

We are looking for enthusiastic candidates to work in Changchun, which is a city in the northeast area with a relatively low cost of living. Eating out at a restaurant, weekly massage sessions and saving money are all possible on an English teacher's salary. This offer starts as a 1-year contract with option to renew.

### **About us**

JILIN Younovo Education offers different level of teaching positions for English speakers who wish to experience life in China while

teaching English as a second language.

China's educational system undergoes an adventurous process and there is a large demand for native English speaking teachers. In order to keep pace with the nation's economic reform and to connect with the world effectively, communication in English is an important skill that has been prioritised by both the educational administration and by schools. This has resulted in a significant shortage of native and fluent non-native English teachers in China – teachers who are valued in Chinese schools at all levels. This is an opportunity to participate in the dynamic change taking place in this

country.

Our service is authorized to provide you with the Work Permit & work visa through the authorization of The Bureau of Foreign Experts Affairs of China (registered permit #A3 2290004).
