CLASS OF 2023

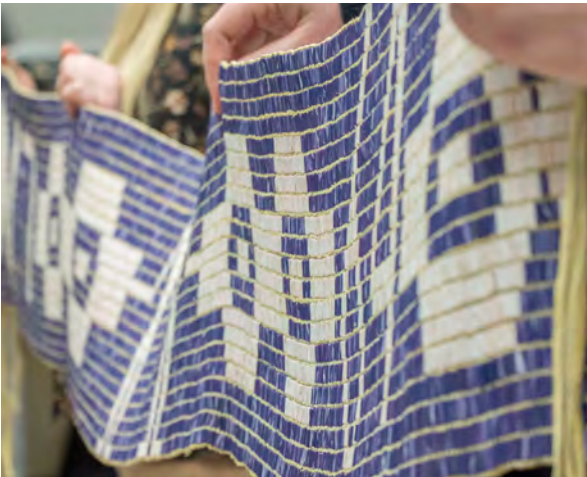

Windsor Law recognizes the importance of good mental health as imperative to the practice of ethical, justice seeking lawyers. We believe that taking personal mental health and wellness seriously is of utmost importance for all law students. As such, the faculty of law is proud to provide counselling services, offering students space to discuss challenges, and receive support when they need it.

As a faculty, we are committed to inclusivity and accessible legal education. Improving wellness in the faculty, and providing a rich legal education are synchronized interests. Addressing mental health issues within our law community makes happier and healthier individuals, but also better students and members of the legal profession. Law school does not have to be synonymous with poor student and practitioner health - it is not a necessary by-product of a rigorous legal education. We encourage students to build resilience, social supports, and to reach out for help when needed; because no one can do it alone.

In addition to the 26 student supports offered on campus, Windsor Law offers:

- Counselling Services: confidential sessions at no additional cost to registered law students with on-site clinical therapists
- Elder in Residence Program: an on-site Elder who adopts the role of surrogate grandmother or grandfather

- Mental Health and Wellness Initiative: a student group that hosts wellness events and initiatives
- My Student Support Program: access to professional counselling for UWindsor students worldwide, available by phone or text in 35+ languages and cultures
- Therapy Assisted Online: online CBT self-help modules
- Peer Mentorship Program: a program that pairs first-year law students with upper-year mentors

MEET THE DEAN

Dean Reem Bahdi joined the Faculty of Law in 2002 and was appointed Dean of Law in July 2021. Her research focuses on the human rights dimensions of national security laws and policies in Canada, and access to justice in the Palestinian context.

"At Windsor Law, we pride ourselves on our holistic admissions policy which is based on the philosophy that from the moment students apply to Windsor Law, they should be treated as individuals, each with a unique background and unlimited potential. You will find our alumni have gone on to become social justice advocates, associates and managing partners of national and international law firms, legal aid and human rights lawyers, in-house counsel, government and policy advisors, sports executives, and entrepreneurs.

In 2018, we celebrated 50 years of teaching, research, advocacy and service. In 2021, we began the transformation of the Ron W. Ianni Faculty of Law building to better support our commitments to experiential learning, community engagement and access to justice. I look forward to welcoming you to our new building and including you in the next phase of Windsor Law's contributions to legal processes and institutions."
