Welcome

The University of Windsor sits on the traditional territory of the Three Fires Confederacy of First Nations, which included the Ojibwa, the Odawa, and the Potawatomi. We respect the long-standing relationships with First Nations people in the place in the 100-mile Windsor-Essex peninsula and the straits-les detroits- of Detroit. We gratefully acknowledge that all of us (students, faculty, staff) are privileged to gather on these traditional, ancestral, unceded territories.

The Faculty of Nursing recognizes that land acknowledgments are a step towards reconciliation but that more work is required in light of the past and ongoing harms inflicted through colonization of Indigenous people and lands. As a faculty, we are in the process of learning about Indigenous practices and pedagogies and unlearning colonial practices. In working towards reconciliation, we commit to enacting the recommendations of the Truth and Reconciliation Commission and upholding the Un Declaration on the Rights of Indigenous People. We aspire to achieve health equity for all Indigenous people living on Turtle Island.

September 2026

Dear Graduate Students,

I would like to extend a warm welcome as you join the University of Windsor and the Faculty of Nursing. Graduate education offers you opportunities to challenge your thinking and understanding in collaboration with new colleagues. In the next few years, enjoy and cherish your

Revised yearly- last revision August 2026

journey that will inspire and shape your relationships, careers, and contributions within complex systems.

The University of Windsor Nurse Practitioner programs prepare you for advanced roles while building your professional career with diverse possibilities that have potential for local, national, and global impact. Embrace the differences you will make with a UWindsor, Faculty of Nursing PhD. The possibilities are endless.

Congratulations on your acceptance into your program of study. I sincerely wish you every success as you achieve your graduate in nursing. Thank you for choosing to study at the University of Windsor. I look forward to meeting you virtually or in person.

Sincerely,

Dean Debbie

Debbie Sheppard-LeMoine RN, PhD
Dean, Professor

September 2026

Welcome, Nurse Practitioner Students!

We are pleased that you have chosen the University of Windsor for the next step in your nursing career and thank you for choosing the Nurse Practitioner (PHC-NP) Program at the University of Windsor. The PHC-NP Program is offered through a consortium of nine universities. This unique program provides online, and face-to-face classes taught by experienced NPs. Multiple clinical placements offer a variety of hands-on experiences. The application of theory and clinical experiences builds on your prior knowledge and experience as a

In addition to the PHC-NP program, The Faculty of Nursing offers several other masters graduate programs and a PhD degree. Our graduate programs are approved by the Ontario Council on Graduate Studies. They are designed to programs nurses as scholars who positively influence nursing practice, health care systems, and the health of persons, families, communities, and populations.

Our team is here to support in acquiring new knowledge and skills, both formally within courses and informally, making meaningful connections with your faculty and peers. We strongly encourage you to take advantage of the research presentations, career development sessions, and funding

Revised yearly- last revision August 2026

opportunities that are available through the Faculty of Nursing and the University. Please connect with us if you have academic concerns or just wish to chat. We can also assist you to find sources of funding for scholarship activities (e.g., presentations, conference travel, research projects). We have numerous resources to support you to learn these skills and apply them to your future career.

This handbook provides an overview of the master's program structures, schedules, services, and supports offered by Nursing, the Faculty of Graduate Studies, and the University. Also outlined are faculty advisor (i.e., what you can expect from your faculty advisor) and the expectations of graduate students (i.e., what we expect from you). Please do not hesitate to contact us with any questions - we are here to support you.

Program and Research Priorities

Program Update

Healthcare systems and the roles and responsibilities of registered nurses (RNs) who work within these systems are rapidly evolving. Working in direct and indirect roles, master's prepared RNs contribute their professional knowledge and scholarship to enhance and improve healthcare locally, provincially, nationally and internationally. The design and delivery of master's nursing programs must adapt to meet the current and future competencies required of RNs in current and future direct

and indirect advanced nursing roles in this system (Canadian Association of Schools of Nursing [CASN], 2015).

To address these needs, the Faculty of Nursing undertook a major redesign of our master's programs. The revised program outcomes and courses were approved by the University of Windsor Senate in spring 2023, and are launching this Fall, 2024.

We are excited about the revised curriculum – thank you to the incoming cohort for choosing us. For students in progress, we commit to ensuring a smooth pathway for you to complete your studies. Successful students will graduate from the program they entered.

If you have questions, please ask us!

Research and Scholarship

This is an exciting time for the Faculty of Nursing as we are in a process of collectively re-defining the mission, vision, and pillars that drive our research and graduate programs.

Our researchers include a mix of enthusiastic, established, and rising faculty scholars who have vibrant research programs. Our researchers bring their expertise in qualitative and quantitative research and mixed methods into the classroom and into their supervision of students who complete a thesis, as well as others who are interested in joining a research project.

Please visit our website to see the range of research and scholarship that is taking place in the Faculty of Nursing at UWindsor by visiting <https://www.uwindsor.ca/nursing/344/faculty>

Master's Programs

The Faculty of Nursing currently offers the following master's programs:

1. Master of Science in Nursing Program (MScN) – course based
2. Master of Science in Nursing Program (MScN) – thesis based
3. Master of Science in Nursing Primary Health Care Nurse Practitioner (MScN/PHC-NP) Program

4. Nurse Practitioner (NP) Graduate Diploma Primary Health Care Program

The content in this handbook includes information regarding the MScN/NP Program and the NP Graduate Diploma Primary Health Care Program

Faculty of Nursing course descriptions for the courses listed in this section are available on-line at:
<https://www.uwindsor.ca/secretariat/282/undergraduate-and-graduate-calendars>

Primary Health Care Nurse Practitioner Programs

The Master of Science in Nursing Primary Health Care Nurse Practitioner (MScN/PHC-NP) Program is a collaborative **course-based** consortium degree program. Students will be prepared to provide collaborative and autonomous primary health care to individuals, groups or communities, emphasizing health promotion and illness/ injury prevention. Students will develop advanced assessment, diagnostic and clinical reasoning skills in preparation for ordering and interpreting

diagnostic tests, communicating diagnoses, prescribing pharmaceuticals, and performing other specific controlled procedures.

Essential Academic Requirements

- Must have a Bachelor of Science in Nursing or equivalent nursing degree (eg. BN, etc.) with a minimum 70% average in the last two years of their undergraduate program.
- Must have current registration with the College of Nurses of Ontario with no practice restrictions.
- Equivalent of two years of direct nursing (RN) experience in the last five years (>3,640 hours) which must be completed by the application submission deadline.
- Preference will be given to Ontario residents.

Program Intake: Annually each September **Application Deadline:** February 1st

Mode of Instruction: In Class/online/clinical placements

Placement Locations: Must complete clinical placements within the following locations: Windsor and the greater Windsor area, which encompasses Essex County, Chatham-Kent County and Lambton County (Sarnia region) only (See map on page 10)

Application: www.uwindsor.ca/graduate

Program Length: Two years full-time or three years part-time

Nurse

Practitioner Program Clinical Expectations

During your time in the MScN/PHC-NP program here at the University of Windsor, you will have clinical placement within the **University of Windsor NP catchment area** (see map). It is your responsibility to ensure you have transportation to your clinical placements. Students at the University of Windsor **will not** contact nurse practitioner preceptors to find their own placements. The NP program placement coordinator will assign you to a clinical placement that best meets your needs to be successful in the program. This will ensure that you are as prepared as possible for this exciting new career as an NP in Canada or the United States.

During clinical placement students will follow their preceptors' clinical schedule to acquire the required clinical hours (see hours below). Every attempt will be made to ensure that all students get as many face-to-face clinical hours as possible.

Program continuation is contingent upon appropriate ethical behavior and personal suitability for clinical work according to criteria and procedures developed for program. Students are expected to take responsibility for meeting all Faculty of Nursing clinical placement policy requirements and for conforming to any additional agency-specific policies. Students will be denied access to a clinical placement site if they fail to be cleared for clinical placement including site specific orientation and vaccination requirements. The Faculty of Nursing is not responsible for providing an alternative clinical experience for students who do not meet the requirements. For additional information, please contact Brooke Wuerch Brooke.Wuerch@uwindsor.ca

The number of clinical hours for a PHCNP student per course are as follows:

Advanced Health Assessment & Diagnosis 1 - ~78 hours

Advanced Health Assessment & Diagnosis 2 - ~78 hours

Therapeutics 1 - ~78 hours

Therapeutics 2 - ~78 hours

Integrative Practicum - ~416 hours

Total - ~728 clinical hours

Please Note: You are required to have Medical Clearance and Police (Vulnerable Sector) clearances before starting any clinical placement

<https://www.uwindsor.ca/nursing/497/medicalnon-medical-clinical-practicum-entry-requirement>

Master of Nursing In Science Nurse Practitioner Program (MScN/PHC-NP) Program Curriculum Structure

Core MScN Courses	Nurse Practitioner Courses
NURS-8400 The Scholarship of Nursing Knowledge and Practice (Fall) NURS-8410 Evidence Utilization (Winter) NURS-8440 Improvement Science (Intersession/Summer)	NURS-8500 Pathophysiology for Nurse Practitioners (taken over 2 semesters - Fall and Winter) Online course NURS-8520 Roles and Responsibilities (taken over 2 semesters - Fall and Winter) Online course NURS-8570 Advanced Health Assessment and Diagnosis I (Fall) NURS-8580 Advanced Health Assessment and Diagnosis II (Winter) NURS-8610 Therapeutics in Primary Health Care I (Fall) NURS-8620 Therapeutics in Primary Health Care II (Winter) NURS-8870 Integrative Practicum (Summer-Intersession) full-time clinical

Please note – Pathophysiology for Nurse Practitioners must be taken prior to or concurrent with Advanced Health Assessment and Diagnosis. Roles is a prerequisite or must be taken prior to or concurrently with Therapeutics.

Full time students must be registered in every term i.e. fall, winter, spring/summer. **If the full-time student is not taking a course in the summer, they must submit an LOA.** It is recommended that full-time students complete the program within three consecutive calendar years after the student's first registration. Full-time students will pay full-time fees even if taking only one course in a semester. Nurse Practitioners must register their plan through the Ontario Primary Health Care Nurse Practitioner (CRDB) website and register for the courses at the University of Windsor through UWinsite student.

Sample: Full-time Student Course Schedule MScN/PHC-NP

Fall	Winter	Spring/Summer
Year 1 NURS-8400 The Scholarship of Nursing Knowledge and Practice NURS-8500 Pathophysiology for Nurse Practitioners (over two terms)	NURS-8410 Evidence Utilization NURS-8500 Pathophysiology for Nurse Practitioners (over two terms)	NURS-8440 Improvement Science
Year 2 NURS-8570 Advanced Health Assessment and Diagnosis I NURS-8610 Therapeutics in Primary Health Care I NURS-8520 Roles and Responsibilities	NURS-8580 Advanced Health Assessment and Diagnosis II NURS-8620 Therapeutics in Primary Health Care II NURS-8520 Roles and Responsibilities	NURS-8870 Integrative Practicum

Convocation October session

* Alternately-NURS-8520 Roles and Responsibilities can be taken in Interession/Summer of year 1

Part-time students can take only one course per semester and are allowed one semester off per year without penalty. If a part-time student does not register for a course for two consecutive semesters without completing a Leave of Absence (LOA), they must reapply and pay the application fee.

Sample: Part-time MScN/PHC-NP Course Schedule (1st & 2nd year part-time, 3rd year full-time)

	Fall	Winter	Spring/Summer
Year 1	NURS-8400 The Scholarship of Nursing Knowledge and Practice	NURS-8410 Evidence Utilization	NURS-8440 Improvement Science
Year 2	NURS-8500 Pathophysiology for Nurse Practitioners NURS-8520 Roles and Responsibilities	NURS-8500 Pathophysiology for Nurse Practitioners NURS-8520 Roles and Responsibilities	
Request change of status to full-time through NP Graduate Coordinator before year three			
Year 3	NURS-8570 Advanced Health Assessment and Diagnosis I NURS-8610 Therapeutics in Primary Health Care I	NURS-8580 Advanced Health Assessment and Diagnosis II NURS-8620 Therapeutics in Primary Health Care II	NURS-8870 Integrative Practicum
Convocation October session			

NOTE: Pathophysiology for Nurse Practitioners and Roles and Responsibilities can be taken concurrently, and the student will still be part-time (each course goes over two terms)

Primary Care Nurse Practitioner Graduate Diploma Curriculum Structure

NOTE: This program is for students who have a completed Master’s Degree in a healthcare field (Nursing Preferred)

Nurse Practitioner Courses	Nurse Practitioner Courses

UWinsite Student

The UWinsite is accessible at: <https://www.uwindsor.ca/registrar/uwinsite-student> Certain graduate student requests are approved through UWinsite Student as Service Requests that are initiated by the graduate student.

Students who wish to request the following need to submit a Service Request to obtain approval:

- apply for a leave of absence
- apply for a course substitution
- submit a thesis/dissertation committee form
- request an PhD external examiner
- apply for a time limit extension

Instructions for students:

Visit the Faculty of Graduate Studies website at <http://www.uwindsor.ca/graduate-studies/>

1. Click Current Students
2. On the left-side of the page, click Student Forms
3. Select the appropriate form
4. Complete and save the form
5. The completed form gets submitted as a Service Request

Faculty Advisors and Reporting

Faculty Advisor

All master's students will have a faculty academic advisor assigned in the fall of their first year.

The faculty advisor will:

- Guide the student with course selection and plan for degree completion.

Revised yearly- last revision August 2026

- Counsel the student on changes to the course plan.
- Provide the student with an appraisal of progress.
- Engage in preliminary discussions with the student about a thesis topic.

The Faculty Advisor may transition to become the student's thesis supervisor or support the student in finding an appropriate supervisor. The student will include the Associate Dean and Faculty Advisor (if appropriate) in discussions related to supervisor selection/change.

Orientation will be held in person over two days (September 5th & 6th 2024), and your attendance and participation are required. You are responsible for arranging your own accommodations if you are travelling and plan to stay overnight.

To complement your professional development, a variety of scholarly activities are held each year. Dates, times, and links to attend other scholarly activities will be posted on Brightspace.

Only your UWindsor email address may be used when corresponding with faculty and staff.

THESIS STREAM: This section to be completed by students in the thesis stream.

Title of thesis:

Summarize your *projected and/or current plan* for completion of your thesis. Include: timelines and graduation date:

Expectations of Graduate Students

Graduate Student Professionalism Expectations

Students of the Faculty of Nursing are expected to adhere to all College of Nurses of Ontario practice standards, with emphasis on the revised CNO Code of Conduct (2023), in all interactions with peers, community partners, faculty, and staff. Failure of any nursing student to conform to the principles of these documents may result in dismissal from any of the Faculty of Nursing programs at the University of Windsor.

Orientation will be held in person over two days (September 5 and 6, 2024) and your attendance and participation are required. You are responsible for arranging your own accommodations if you are travelling and plan to stay overnight.

To complement your professional development, a variety of scholarly activities are held each year. Dates, times, and links to attend other scholarly activities will be posted on Brightspace.

Only your UWindsor email address may be used when corresponding with faculty and staff

Graduate Student Academic Integrity Expectations

Definition of Plagiarism: “the act of copying, reproducing or paraphrasing portions of someone else's published or unpublished material (from any source, including the internet), without proper acknowledgement. Plagiarism applies to all intellectual endeavours: creation and presentation of music, drawings, designs, dance, photography and other artistic and technical works. In the case of oral presentations, the use of material that is not one’s own, without proper acknowledgment or attribution, constitutes plagiarism and, hence, academic dishonesty. (Students have the responsibility to learn and use the conventions of documentation as accepted in their area of study.)”([Student Code of Conduct](#))

The University of Windsor Faculty of Nursing highly values student demonstration of intellectual honesty that is integral to academic integrity (Senate Bylaw 31 Academic Integrity, n.d.; Graduate Studies Policy on Plagiarism ([GSSP], n.d.). Academic integrity links to the Faculty of Nursing Mission and Vision (through emphasis on scholarship) and embodies faculty values (professionalism and respect). All students enrolled in all University of Windsor Faculty of Nursing graduate programs are expected to review and adhere to Bylaw 31: [Academic Integrity](#), the [Graduate Studies Policy on Plagiarism](#) and [Senate Policy on Authorship](#). Academic integrity learning resources are available through the [Office of Academic Integrity](#) .

Further, “It is not permissible for an essay or other paper to be submitted twice. It is expected that a thesis, essay, paper or report has not been, and is not concurrently being, submitted to any other Faculty or University for credit toward any degree, or to this University for any other course” (GSPP, para 5, n.d.).

Use of Plagiarism-Detection Software

The University believes in the right of all students to be part of a university community where academic integrity is expected, maintained, enforced, and safeguarded; it expects that all

students will be evaluated and graded on their own individual work; it recognizes that students often use the ideas of others as expressed in written, published, or unpublished work in the preparation of essays, assignments, reports, theses, and publications. However, it expects that both the data and ideas obtained from any and all published or unpublished material will be properly acknowledged, and sources disclosed. Failure to follow this practice constitutes plagiarism. This is important because anyone demonstrating dishonesty, cheating, or plagiarism in relation to any aspect of courses offered in the Faculty of Nursing graduate programs will receive a failing grade. The University, through the availability of plagiarism- detection software, desires to encourage responsible student behaviour, prevent plagiarism, improve student learning, and ensure greater accountability ([Senate Policy on Plagiarism Detection Software, Appendix A](#))

Use of Generative Artificial Intelligence (AI)

Generative AI is technology that creates human-like content – including text, images, video and computer code – by identifying patterns in large quantities of training data, and then creates original material that has similar characteristics. Examples include: ChatGPT, Google Gemini, Claude, and Jenni, which can generate text, Github Co- pilot, which can generate coding and programming, and DALL-E and Midjourney, which can generate images. (Pasick, 2023).

Senate Bylaw 55 requires that instructors include on their course syllabus “information or restrictions regarding the use of generative artificial intelligence (AI) in the course.” The default for not including the information in the course syllabus is that use of generative AI is permitted in the course (Senate: May 10, 2024).

Your course instructors will decide whether generative AI is permitted in their classes. If permitted, they will define the permitted uses, and information about use will be included in all course outlines. There may be different permitted uses across various courses in the MScN program, so please carefully make note of what is permitted in each course and contact your instructor if you have questions about interpretation of the statements in course outlines. Failure to abide by course-specific generative AI policies will be considered academic misconduct and may be subject to discipline under [Bylaw 31: Academic Integrity](#)

[Student Code of Conduct](#)

Instructional and Evaluation Methods

During your graduate studies you can expect to engage in a variety of different instructional and evaluation methods to meet the learning outcomes of courses in which you are registered. Some examples of diverse instructional methods include but are not limited to individual work, work in pairs and/or teams, synchronous and/or asynchronous online class work, face-to-face class work, work outside of class, in-class work, readings assigned in advance of class, student presentations, student seminar facilitation, and boot camps held outside of regular class hours.

These instructional methods often include activities requiring active class participation. Some examples of diverse evaluation methods include but are not limited to instructor graded written assignments (paper, annotated bibliography, professional quality assurance report), take home assignments, in-class tests, take home exams, graded presentations, and graded seminar facilitation. Some evaluation methods also include a peer evaluation component.

The outlined instructional methods are likely significantly different than those you have experienced in your previous university education. You are responsible for your own learning. Specifically, graduate students in the Faculty of Nursing are expected to thoroughly prepare in advance of classes and actively participate during classes.

Workload for graduate courses typically 2 to 3 hours per credit hour for both online and in person classes. This equates to 6 to 9 hours per week for a 3-credit course that you can expect to devote to advance class preparation and course assignments. Refer to:

http://ask.uwindsor.ca/app/answers/detail/a_id/628.

Other Graduate Student Coursework Expectations

- Course class attendance is the expectation. Out of respect for your professor and classmates, please notify your professor in advance if there is a class that you are unable to attend.
- Course assignments may be submitted to a plagiarism detection software program (e.g., Turnitin).
- No supplemental examination or assignments will be offered.
- Faculty of Nursing policy prevails for assignments submitted past deadline without approval (5 percent deduction per day).
- The minimum grade for successful completion of all graduate courses is 70%. Please see Bylaw 55: Graduate Academic Evaluation Procedures located at: [Senate Bylaw 55](#)

Please participate in course evaluations during the final two weeks of class in accordance with [Senate policy](#).
