

PATIENT SAFETY LEARNING SERIES EVENTS

An Interdisciplinary Approach to the Reduction of Central Line Blood Stream Infections (CLABSIs)

Monday, November 6th 1:00 to 2:00pm

Nursing Professor Anna Marrocco will provide a description of different central lines; the significance and causes of infection; and evidence-based practices for prevention.

Opioid Overview and Safety

Friday, November 17th 12:30 to 1:30pm

Nurse Anesthetist and Nursing Clinical Instructor Mark Campbell will discuss the most common opioids, their actions, side effects, and best practices including how to intervene for an overdose.

Creating a Safe Supportive Environment: Using Validation Communication with Persons with Dementia

Monday, November 27th 1:00 to 2:00pm

Rosemary Fiss, Manager of Support & Education Programs at the Alzheimer Society of Windsor & Essex County will differentiate between Reality Orientation and Validation and identify key principles that will help you in your clinical practice.

All events take place in Toldo 203
