

Admissions: Graduate Studies

REQUIREMENTS

The normal basic requirement for admission to the M.A. program is an honours degree or combined honours degree in political science, or an honours degree in a related discipline, such as international relations or public administration, with a B+ (77.0%) or better average in undergraduate political science courses.

Applicants must also submit with their application:

- Two academic letters of reference which must come directly from the referees and will be sent each referee by a link as to how to upload the letters of reference to eGas
- Non-academic letters will not be reviewed and therefore will not be taken into consideration;
- An up-to-date resume or CV;

- A research proposal/statement of purpose/letter of intent (limit to one page, single spaced);
- A writing sample (e.g., a paper written for a course and seminar; please limit to no more than 10 pages if possible);
- And all post-secondary transcripts (unofficial transcripts can be uploaded to eGas as a PDF, however official transcripts will be required to be sent directly by schools in a sealed envelope, once you are admitted into our program; no other copies will be accepted).
