Resources for Researchers

It can be difficult to know where to start when navigating the requirements for a new grant. It is prudent to start within your department to ensure that they will support your application. Contact your department head, dean and/or associate dean of research to discuss your plan, and get feedback. If your research plan is not yet ready for major granting organizations, you should also explore the University's **internal funding opportunities**, which are designed to help lay the foundation of major research projects. You may also be eligible for faculty-specific seed funding programs, matching funds or other awards to support the development of new proposals. Before completing the application, be sure to have well-thought-out objectives and a clear research plan. This will make the process of preparing the grant application to proceed more smoothly.

Creating your Account

Select Use **Institutional Credentials**:

- Find and Select your institution from the Institution pull-down menu
- Login via our institution's SSO page using your existing institutional login credentials
- Fill in your name and email address when prompted in Pivot-RP and select the “create my account” button to finish configuring your account

Claim your Profile

- Upon logging in for the first time, Pivot-RP may prompt you to claim your profile or to create a profile
- Having a profile (optional) allows you to:
 - get automated funding recommendations based on your research interests, publications, and grants
 - be discovered by potential collaborators

Update your profile

- Select Your Profile from the dropdown under your name, then click edit profile.
- You don't have to manually enter publications and outputs! Enter your ORCID, ISNI, and Web of Science IDs to sync existing information and make your profile more discoverable. Links to your website, social media or other sites are also useful.
- You can also upload files under the Links menu.

Adding a profile proxy

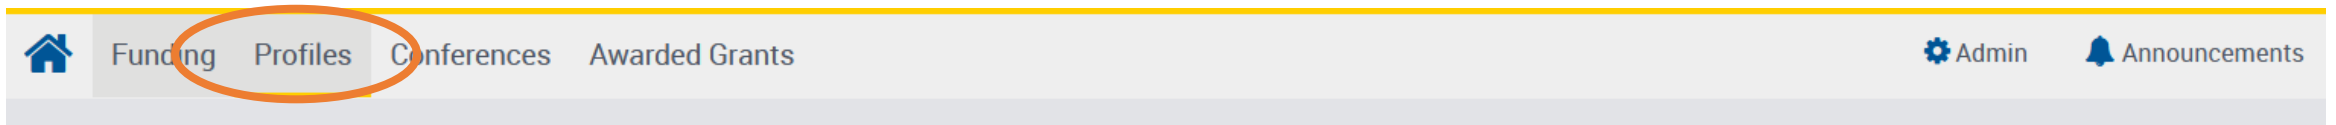

- Delegate access to your profile
- Your proxy must have their own profile in Pivot-RP and must be using a Uwin ID to access.

Welcome, Kate

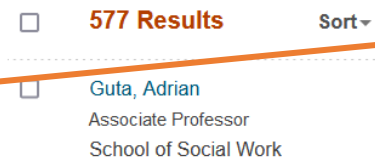

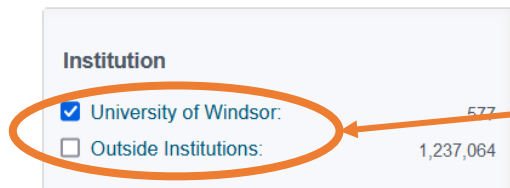

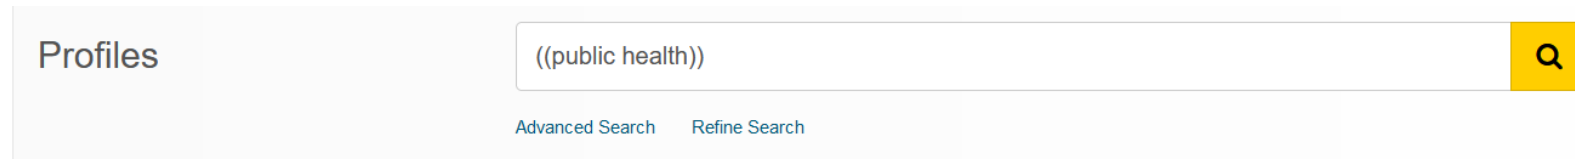

The screenshot shows two main menu cards. The left card is titled 'My Funding Opportunities' and contains links for 'Tracked Opps', 'Saved Searches', 'Advisor', 'Curated Opps', and 'Internal Opps'. The right card is titled 'My Profile & Groups' and contains links for 'My Profile', 'Profile Proxies', 'Groups', and 'My Preferences'. The 'Profile Proxies' link is circled in orange, and an orange arrow points from the text 'Add a proxy from the home page menu' to it.

Add a proxy from the home page menu

Finding prospective collaborators

- Click Profiles in the tabs at the top of the page to browse others' profiles:
- Browse UWindsor colleagues or use the keyword search to find prospective colleagues in other places:

Use this filter to expand your search beyond UWindsor

PROUD.**

Finding conferences to attend

- Pivot has a global database of conferences that are also searchable by keyword, and using filters.
- Conference profiles include important dates such as submission deadlines as well as submission guidelines.
- Many opportunities for your grad students to present at conferences can also be found in these lists!

Let's take a tour!
