WURA NEWS

Winter 2021 Semester will be On Line

The University of Windsor will continue to offer most courses online through the Winter 2021 semester, president **Robert Gordon announced.**

“Given current health and safety considerations, physical classroom space is a critical factor,” he wrote in a message to faculty, students, and staff.

Deans are consulting with instructors to determine which courses must be offered in person; a detailed list will be available once it is finalized.

Whether courses are face-to-face or online, faculty and staff across the University of Windsor are investing an enormous amount of time, effort, and creativity into making them engaging, effective, and as safe as possible.

First Student Tests Positive for COVID19

The Windsor-Essex County Health Unit has stated, that an off-campus student has tested positive for COVID-19. The student is currently in self-isolation at home.

The University of Windsor family extends sincere wishes for a quick recovery to the affected student,” said UWindsor president Rob Gordon.

The University's Fall 2020

Convocation ceremonies Will be Virtual

U Windsor **Chancellor Mary Jo Haddad** has announced that Fall 2020 convocation ceremonies will be virtual in order to deal with the spread of COVID-19 and the need to support social distancing strategies. "Convocation is a very special time for the entire university community," said Chancellor Haddad.

The Fall Convocation will include 13 sessions which will be streamed on the University's website and will take place from Oct. 14 through 17. The webcasts will also be housed on the website.

"A Video Message from President"

Robert Gordon to Welcome Incoming Students To The University of Windsor :

You are about to be part of a great tradition: one where hard work is rewarded, where we show our pride, and where it's just fine to enjoy yourself," Dr. Gordon said. "You are about to become a Lancer."

He invited students to engage in the "long list" of Welcome Week activities, and noted that despite the challenges posed by the COVID-19 pandemic, the University remains committed to providing "the world-class education you expect and the best learning environment possible."

New Faculty Orientation Virtual

This year's New Faculty Orientation welcomed 47 new faculty to campus in an all-virtual format. Attendees were able to "hop" from booth to booth, learning about and meeting with representatives from over 40 services and departments at the University through Microsoft Teams.

Although the live-chat feature was available only during the event, the booths are still up as a resource for the UWindsor community. Instructors also shared quick introductions to their research and scholarly activities through one-minute virtual "elevator pitches". Slides created for these presentations are available here for campus community members interested in finding out more about participants' work

Appointed

Faculty of Science Review Completed

Ms Gemma Grey-Hall Appointed Acting Director, Advancement

Gemma Grey Hall has accepted an appointment as acting director, advancement, effective Aug. 10, **UWindsor president Rob Gordon announced Thursday.**

The position will provide strategic oversight of advancement operations, including the overall direction, planning, policy development, management, and co-ordination of services supporting the University's fundraising activities.

Grey-Hall has worked as the major gift officer in the University's Faculty of Science since 2014 and has more than 10 years of experience in fundraising and over 15 years of experience in marketing and sales.

Provost Douglas Kneale

has announced that **Dr. Jess Dixon** has accepted an **appointment as Acting Dean of the Faculty of Human Kinetics**, and **Dr. Sarah Woodruff has accepted an appointment as acting head of the Department of Kinesiology, both taking effect Aug. 1.**

"I want to thank Jess and Sarah for agreeing to step in at an important time in the life of the faculty and the University," Dr. Kneale said. "I look forward to working with both as we navigate the uncharted waters that lie ahead in fall 2020 and winter 2021."

Dr. Dixon has been a faculty member in the Department of Kinesiology, where he teaches and mentors students in sport management and conducts research in strategic management and human resource management in sport, since 2006.

Dr. Woodruff joined the UWindsor faculty in 2009. A multidisciplinary researcher who strives

to advance the health and wellness of Canadian children and adolescents, she has engaged the broader community in her work on nutrition, cal physical activity, and body image.

New Director of Campus Community Police Appointed

Matt D'Asti is a 30-year veteran of the Windsor Police Service. His experience, most recently as inspector, professional standards, risk management for the Windsor force, makes him a valuable asset, says **Ryan Flannagan, assistant vice-president, student experience.**

The UWindsor community may recognize D'Asti from his time as the public information officer for Windsor Police, which saw him featured frequently in local news. His background also includes patrol, street crimes, criminal investigations, sexual assault, and analysis.

D'Asti studied criminology at the University of Windsor and is delighted to be returning to campus.

University Support for International Students

Impacted by COVID 19 Pandemic

To date the University has invested \$ 1.2 million into the financial support of International students. Donors have also stepped up to the plate.

Recently, the university invested \$ 700,000 into the scholarship and experiential learning programs for international students impacted by COVID19 pandemic.

UWINDSOR TOGETHER

A SAFE RETURN TO CAMPUS

Stay Connected: E-Newsletter & Website Launched

Hi Everyone: Welcome to the first edition of the **Safe Return to Campus (RTC) eNewsletter**. It's a key building block of the **UWindsor Together** initiative, and will provide important information to all members of the campus community as we move forward into the Fall semester and beyond.

This semi-monthly eNewsletter will include input and outreach from the RTC's 10 Working Groups and will ensure that our campus community remains well-informed during these challenging times.

We are all working extremely hard to ensure a safe return to campus as we deal with the impact of COVID-19; and our top priority will continue to be the provision of a secure and healthy work and learning environment for our students, faculty, and staff.

In addition to the eNewsletter, you will also be receiving regular updates through email bulletins, information videos, and a dedicated website: **UWindsor Together: A Safe Return to Campus** which will be complemented with additional information on the Fall Semester at www.uwindsor.ca/together. Be sure to follow @UWindsor on [Twitter](#), [Facebook](#), [LinkedIn](#), [YouTube](#) and [Instagram](#) where we will be cross-posting updates and articles.

Stay tuned,

Rob Gordon, President & Vice-Chancellor

Return to Campus Framework: A phased-in approach

The Return to Campus Framework is a living document to inform the community on the latest updates to a safe, phased re-opening of UWindsor on-campus activities.

Learn more [here](#).

University Parking

Parking Services will not be collecting fees from students, faculty, or staff to park on campus until further notice.

Students may park in any of the lots designated for student parking; faculty and staff in any lot designated for employee parking. Here is a map indicating these locations.

The parking garage may be used only by faculty and staff who currently have access to the garage.

The pay-and-display lot in front of Vanier Hall is not a designated parking area for students, faculty or staff.

Parking Services encourages anyone parking on campus to follow standard parking protocols. Enforcement officers will be returning to campus and will monitor all lots on campus for the safety of the UWindsor community by ensuring that drivers respect fire routes, laneways, and accessible spaces.

Local High School Students

Join us for Virtual Open Day

Our campus community will connect with visitors on October 3 for an online event that will showcase our academic programs and student services.

The event is directed at high school seniors and others considering continuing their education, or looking for information about enrolling at UWindsor.

Over 100 team members will be available to chat with prospective students and guests. Attendees have a chance to win prizes.

Windsor Law Professor Gemma Smyth

outgoing associate dean of law, is the inaugural

recipient of the Association for **Canadian Clinical Legal Education's (ACCLE) Buhler Award**.

Named in honour of Sarah Buhler, long-time ACCLE board member and professor at the College of Law University of Saskatchewan. It is presented to a professor whose work intersects academic and clinical approaches to clinical and experiential legal education.

According to the association's announcement, Prof. Smyth is being honoured in recognition of her commitment to researching the practice of clinical legal education across the country and supporting expansion of clinical and experiential programs in law schools.

Law Professor Beverly Jacobs

has been appointed the next associate dean (academic) at Windsor Law.

Dr. Jacobs is a member of the Mohawk Nation, which is one nation that is part of the Haudenosaunee Confederacy and she is from the Six Nations Grand River Territory in Ontario. She holds an LLB from the University of Windsor, an LLM from the University of Saskatchewan, and a PhD from the University of Calgary.

A former president of the Native Women's Association of Canada, she is nationally known for her work and commitment to Indigenous law and politics in Canada.

"The impact of Dr. Jacobs' research, teaching, and advocacy has been national and international in scope," says Windsor Law Dean Christopher Waters. "We look forward to her leadership at the law school."

\$3 million Donation To Law

Tte Rodzik family will support the Transforming Windsor Law building project. Don Sr. and Gail Rodzik were on hand for the announcement.

A planned \$30 million transformation of the current Ron Ianni Faculty of Law building got a major boost Friday with the announcement of a \$3 million gift by the Don Rodzik Foundation in support of the Transforming Windsor Law building project.

University of Windsor president Rob Gordon and Faculty of Law dean Chris Waters were joined by Don Rodzik Sr. and members of the Rodzik family at an outdoor event on campus announcing the gift.

Professor Myra Tawfik

Promoted to the rank of Distinguished University Professor, the University's highest, recognizes her contributions as an innovative research scholar and teacher, says dean Christopher Waters.

Prof. Tawfik's expertise on intellectual property law and intellectual property law strategy has been recognized locally, provincially, and nationally, but despite this prominence, her commitment to mentoring students on our campus has never wavered," he said.

A professor at the University of Windsor since 1991, Tawfik has founded a number of intellectual property clinical and experiential initiatives to support Windsor-Essex startups. Her administrative service includes stints as associate dean from 1998 to 2000, and as acting dean in 2011 and 2017.

She will formally accept conferral of this appointment during Convocation ceremonies in the fall. Read more on the Windsor Law website.

The Great Lakes Institute for Environmental Research (GLIER)

By Dr Datta Pillay

The University of Windsor taking advantage of the excellent location, along the Great Lakes on the Detroit river, established an institute for environmental research.

It first started as an interdisciplinary institute, under the leadership of **Late Dr. Marie Sanderson**, a geographer of international reputation.

Since then the GLIER started addressing complex environmental problems, that cross conventional disciplinary boundaries such as the effects of multiple environmental stressors on large lakes and their watersheds.

Under the **Directorship of Dr. Robert Michael McKay**, ten faculty members at GLIER work together with the Visiting Scholars, Post-Doctoral Fellows, Graduate Students and Staff to conduct exciting interdisciplinary research programs.

GLIER researchers have been awarded over \$ 40 million in funding in recent years, 5 Canada Research Chairs, 4 Premier's Research Excellence Awards, a Department of Fisheries and Oceans Invasive Species Research Chair and a Fellow in the Fellowship in the Royal Society of Canada.

GLIER scientists and their research have been featured in CNN, Washington Post, Chicago Tribune, Maclean's, Globe and Mail, National Post, Discovery Channel, and CBC television and radio.

GLIER is located on the Detroit River, housing 19 extensively equipped laboratories, offices for researchers, postdoctoral fellows and graduate students, as well as conference and meeting rooms. GLIER maintains a private boat launch on the Detroit River and has a dedicated research vessel and boats.

GLIER infrastructure, funded by CFI Innovation Fund awards, builds on existing capabilities to make us a leading centre for freshwater aquatic research in North America. This infrastructure promotes collaboration and innovative multidisciplinary research.

GLIER has the distinction of housing one of the few university-based environmental analytical laboratories in Canada accredited by the Canadian Association for Laboratory Accreditation (CALA) to international standards of performance.

GLIER offers a research-oriented graduate program in environmental research leading to M.Sc. and Ph.D. degrees.

At GLIER; faculty, fellow students and staff are committed to making the experience of students as stimulating and rewarding as possible.

That commitment starts before students arrive by providing information and support to prepare for the Graduate Program at GLIER.

Potential graduate students should check out the informative GLIER Graduate Handbook! Should they have any further questions that the handbook might not cover, please contact either the Graduate Secretary.

Expect to be welcomed into an engaging group of students, faculty and staff who will not only help in various aspects of your program but also challenge you and always provide unwavering support.

Professor Mitra Mirhassani

University of Windsor engineering professor **Mitra Mirhassani** has been honoured by IT World Canada

(ITWC) for her innovative cyber security research and dedication to helping others better understand the function and connectivity of our devices.

Dr. Mitra Mirhassani has been recognized as one of Canada's top 20 women in cyber security.

She was chosen out of more than 170 nominations for women working in cyber security across a wide variety of organizations and roles, including CISOs, company founders, professors, directors and women holding numerous specialty positions in both the public and private sectors.

“What worries me most is the health and security of the devices that we build and buy,” says Mirhassani, who leads UWindsor’s Analog and Mixed Signal Research Lab.” There are many challenges in our way to understand the complexity of the process.”

Mirhassani’s latest research includes the investigation of cybersecurity issues that arise when using electric vehicle fleets with battery charging infrastructure and improving the security of autonomous and connected vehicles.

UWindsor Engineering Dean Mehrdad Saif says female leaders in technology sectors serve as role models and mentors to future generations of female technology innovators. “I congratulate Dr. Mirhassani for this great achievement and wish her continued success.”

Professor Anne Snowden

Anne Snowden, a professor in the Odette School of Business, is leading a team of 18 other researchers from across the nation in the one-year study funded by the Canadian Institutes of Health Research, the federal agency responsible for funding health and medical research in Canada.

She has been awarded **nearly \$1.4 million to research Canada’s healthcare supply chain to identify ways to improve the processes critical to managing COVID-19 and similar crises in the future.**

“The purpose of this research is to examine supply chain processes and infrastructure to ensure products are available to public health teams and health care professionals to protect the health of every Canadian citizen,” said Dr. Snowden.

Snowdon’s team will study ways to ensure health teams have safe and effective products that are of high quality and available when needed.

It will study the processes involved in the procurement and distribution of health products in seven provinces, to improve planning and coordination across provincial, federal, and global health systems for effective pandemic management.

Her research will focus on how supply chain processes influence patient health outcomes, and how data, digital tools, and analytics can strengthen management of the pandemic. “to safeguard the health and safety of all Canadians.”

Dr. Jan Ciborowski

UWindsor biology professor emeritus **Jan Ciborowski's** 35-year commitment to protecting the Great Lakes has been acknowledged with the International Association for Great Lakes Research (IAGLR) **2020 Lifetime Achievement Award**.

The award recognizes important and continued contributions to the field of Great Lakes research over a period of 20 years or more.

He has received numerous awards for his work, including from the Great Lakes Fishery Commission (2008), the International Joint Commission (2003), Ohio Sea Grant (2017), and in 2016 he received UWindsor's Faculty of Science Lifetime Achievement Award.

Professor Dennis Higgs

of the Department of Integrative Biology swam the 14 km from Colchester to Cedar Beach during the Lake Erie Challenge on Saturday, Aug. 22.

Dennis Higgs is part of team that will traverse the north shore of Lake Erie to **raise awareness of issues affecting the health of the Great Lakes**.

University Activities Normalcy

Given the second wave of the pandemic, it is difficult to predict when all activities in universities, schools and businesses will return to normalcy. Much depends upon the release of a vaccine that is tested to be reliable and safe.

University to Review

Building Names

The University of Windsor will be undertaking a review of all building names across campus in response to inquiries about the appropriateness of continuing to name one of our residences after Sir John A. Macdonald.

The Board of Governors will be undertaking a review of all building names across campus, with the understanding that buildings should be named for individuals and organizations who reflect our institutional values and priorities.

Discussions with students, faculty, staff, and alumni will inform this review, which will include a review of the naming of Macdonald Hall.

6. **Other Business**
7. **Next Meetings – Monthly Standing Executive Committee (Teams)**

UW And TELUS Agreement 5G Connection To Campus

The University of Windsor announced recently an agreement with TELUS to transform the institution into a 5G connected campus.

A memorandum of understanding will see TELUS conduct analysis and propose upgrades to the University's wireless network in targeted buildings and properties over the next five years. TELUS will invest in the installation of 5G equipment on campus to promote and support the integration of world-class technology to enhance teaching and research.

"I'm delighted that our university community will have privileged access to this emerging technology," said UWindsor Vice-President Research and Innovation, K. Michael Siu.

"Collaboration with TELUS will not only provide the clear benefits of a 5G connected campus, but it will allow University of Windsor students, faculty and researchers to participate in the research and development of this technology on campus as it is implemented in the coming years. We see this as an outstanding opportunity for our university."

"Our customers enjoy the fastest network in the world today. Beyond lightning-fast speeds, 5G offers a leap in capabilities over today's 4G networks, including increased capacity, ultra-low latency, network slicing and edge computing. These advancements are the foundation to power new applications serving smart businesses and communities, industrial automation, and digital healthcare," said Eros Spadotto, Executive Vice President, Technology Strategy and Business Transformation.

A generation from now, we want Windsor-Essex County to be a more prosperous community where all children can achieve their dreams and reach their potential. But the past few months have tested us in ways we could have never imagined. For those who were already vulnerable – struggling to make ends meet or put food on the table – it has been exceptionally difficult. As we begin to recover from this crisis, we need your help to ensure no one gets left behind.

With many classrooms closed last spring along with the absence of school nutrition programs, many students are at risk of falling behind and their families are finding it difficult to cope. Issues like poverty put barriers in the way of young people with the potential, but not the means to succeed.

You can help give hope to more young people in Windsor-Essex. When you make a gift to United Way, you'll help children and youth experiencing poverty, mental illness, isolation, and hunger recover from this crisis and reach their potential.

Donate today at www.weareunited.com/donate. Visit www.weareunited.com/Impact to learn more about how our donors are helping young people get the support they need to succeed.

IN MEMORIAM

Ms Helen Lukacs

Retired librarian Helen Lukacs was born July 17, 1935 and passed away on April 30., 2020. She commenced her employment with the University of Windsor in 1965 as a pre-professional cataloguing assistant in the University Library, receiving promotions in 1967 to catalogue librarian 1, in 1970 to catalogue librarian 2, and in 1974 to librarian 3, a position she held until her retirement in 1998.

Ms Magdalen Lukacs

Retired librarian was the twin sister of Helen born on the same day July 17, 1935. She passed away on August 5, 2020. Both these two ladies were sisters of **my colleague Late Frank Lukacs, who was Laboratory Manager**, who passed away several years ago. Remembering how the Lukacs twins cared for every living creature. Worked with them at the University. So sorry to hear that Maggie (and Helen) have passed away. My condolences

Mr Gary Champ

Passed away peacefully on August 8, 2020 at the age of 87 surrounded by family. Beloved husband of the late Mary Champ (2015).

Gary worked for Sterling Drugs as a Chemist then was hired by the University of Windsor as a Scientific Buyer, a Purchasing Manager, and the Director of Institutional Analysis.

He often shared his skills with organizations like the Bowling Association and Windsor bingo halls to develop products which are still in use today.

He volunteered with the Rotary Club of Windsor-1918, as their web master and photographer. It gave him a great sense of pride to ensure that Rotarians were able to access information worldwide. Special thanks to the Stroke Unit at WRH - Ouellette campus for their outstanding and compassionate care.

Donations can be made to the Heart and Stroke Foundation or the Canadian Cancer Society in his memory. Cremation has taken place. A celebration of Gary's life will be held at a later date.

Robert Christopher Ferraro

Robert Christopher Ferraro, born in 1936 passed away on September 15, 2020, at 84 years of age. Bob was predeceased by Margie, wife of 50 years, brother Sam Ferraro, and son John Reilly.

Bob was a talented artist; he attended the Cooper Union and City College of New York. He worked as an advertising artist before becoming a drawing instructor at S.I.U. and Northeast Louisiana State College.

In 1968 Bob, his wife Margie and young son John immigrated to Windsor, ON where he accepted a position in the School of Visual Arts Master of Fine Arts program in 1979. He was the first Graduate Coordinator 1978-1982, Director of the School of Visual Art 1982-1985, and retired from the university in August 2001.

The family would like to thank the staff at Huron Lodge for their care and support of Bob and his family during his last years.

WURA President's Message

WE ARE STILL IN THIS TOGETHER!

Hopefully, you and your family are all keeping safe and healthy, and remembering to follow the basic health guidelines of frequent hand washing, physical distancing of 2 metres and wearing a face mask, if you must go out. For the first 4 months, representing a group of 'most-at-risk' seniors, the WURA Executive cancelled all WURA activities and communicated by e-mail, with updates to members through e-mails, our website or in our WURA Newsletters.

In mid-July, seeing that the campus was going to teach primarily online for the Fall semester and possibly beyond, the Executive decided to meet online with our first meeting in mid-September. Please see the enclosed Agenda for the Executive Meeting.

The Executive decided only to discuss those "critical" topics that we would like to make a decision on, to pass on to the members, especially if we don't have a WURA Fall AGM.

Because of the current situation with the pandemic, we do NOT think that it's safe to have a Fall AGM on campus this year, and we feel that our Executive and members would not be ready to have the AGM online yet.

As a result, we will be asking the WURA membership to accept most of the decisions made by the Executive at this time, except the Nominating Committee report, where we will ask the members to approve the Executive member recommendations by both an online and mail-in vote. For other "non-critical" topics, we should have reports from these committees later, unless a "significant issue" arises.

For fall social activities, we are proposing a "WEEKLY WALK FOR THE COVID-WEARY" and a "MUSIC JAM", all socially-distanced, as well as a yet-to-be-decided modified Holiday Luncheon, as long as it is agreed to by the President to fit into UWind-sor's 'Return to Campus' philosophy.

Roger Lauzon, President
