*** Some Science courses are intended for non-science majors, and do not count toward Science credits for Science majors (e.g., PHYS-1000). Please check course descriptions.

† Limit of 14 courses at 1000-level if you do not wish to take >40 courses in total.

Biological Sciences Honours with thesis: Students can switch to the “with thesis” program after enrolling in an eligible thesis course. BIOL4904/BIOM4904 count as two upper-level Biology courses. BIOL-4904 pre-requisite: 70% Major GPA, 60% Cumulative GPA (and willing supervisor). See full information on thesis application form (on department website or at the main office, 119 Biology Bldg).

*** Check the remaining requirements (see page 1) in your program to ensure you choose enough from each category.** We recommend regular advising (via Central Academic Advising or an iBio advisor).

For years 3 & 4, choose courses to complete your degree requirements (see page 1). Check prerequisites of courses of interest to help with planning (e.g., if a 4000-level course requires a 3000-level prerequisite, there may be a need to take the 3000-level course early.)
