NOTES

- Courses used to calculate the major average are: courses listed under requirements (a) and (b), and any courses taken in the major area(s) of study.
- Physics courses use programming throughout, so COMP-1400 is strongly encouraged in first year, and COMP-1410 may follow later.
- A student may count at most fourteen 1000-level courses toward the degree (Senate Policy on Senior-Level Course Requirements). Please be careful with course selection.

FROM THE CALENDAR
