

# Provost's Update

Dr. Patti Weir

**December 10, 2021**  
**University of Windsor**

# COVID-19 Update

## Winter 2022

### Reminder:

- Operating under the PSE Framework released by MCU that became effective September 7, 2021
- Capacity limits lifted in instructional spaces (e.g., classrooms, laboratories, library) – we have defined buildings with classrooms as “instructional”
- All other campus spaces continue to be limited to 50% capacity (e.g., offices, meeting rooms) unless required to meet mission of unit

# COVID-19 Update

## Winter 2022

- Planned for majority of courses to be offered face-to-face
  - landed at 60% f2f and 40% online
- Registration continues – the Registrar is actively monitoring this, and outreach will occur for students who are eligible to register and who have not done so
- Currently exploring additional safety measures (e.g., seating chart in f2f courses to facilitate identification of close contacts if required)

# Faculty related

## *Recognitions*

- Dr. Erika Kustra – CTL – 2021 Distinguished Educational Developer Career Award from the Educational Developers Caucus
- Dr. Mitra Mirhassani – Electrical Engineering – 2021 Donald S. Wood Leadership Award from the Automotive Parts Manufacturer's Association (APMA)
