President's Report: April 2022

April 8, 2022
University of Windsor

Strategic Planning: Student Consultations

- >665 students participated
- 193 optional demographic surveys were completed
- 89 student and 21 employee volunteers
- >21,000 data points provided
- Pop-up campus events May-July
- Virtual version beginning May

Total engagement points with Aspire to date: 3310

Next Steps....

- Staff world-café style consultations: Apr 20-21
- Faculty world-café consultations: Apr 26-27
- Virtual consultation alternatives will begin in early May
- Pop up consultations (student, faculty, staff) will focus on gaps in the initial consultation data starting in May
- Meetings with faculty councils in Apr-May
- Topic-specific facilitated discussions in May-June
- Community consultation take place in June-July

Employee Engagement Survey Update

Return to campus life and community

- Opportunity for faculty and staff to share experiences working at the University of Windsor.
- The input provided will help us to understand the University's strengths, as well as where we can improve to create the conditions in the work environment that allows everyone to do their best, feel valued, supported, and included.

Response Rate

- Completed surveys - 952
- Total response rate - 48%
- Response rate (Staff) - 66%
- Response rate (Faculty) - 30%

Next steps:

- University-wide survey results to be shared in May 2022
- Establishment of a Working Group to turn survey results into action
- Annual reporting of key actions to the University Community
- Future surveys to measure progress

Distinguished University Professor

Return to campus life and community

Dr. Lisa Porter

- Faculty of Science and WE-Spark Health Institute
- Department of Biomedical Sciences
