

Impact of Alternative Grading System on Scholarship Renewal

For Renewable Scholarship eligibility, students must remain registered in a minimum 60% course load each semester and maintain the minimum scholarship average required for their respective awards.

If you are considering either the Pass/No Pass or Voluntary Withdrawal (VWC) option as outlined in the recent email regarding the Alternative Grading System, you may wish to submit a service request to our office via the ask.uwindsor.ca platform to discuss the possible impact on your scholarship renewal eligibility.
