**FUTURE FULL
OF PROMISE.**

FUTURE FULL OF PROMISE

It's about you. And the people and programs we have to help you fulfil your dreams and realize your full promise as a UWindsor student, and in your career after graduation.

WELCOME TO UWINDSOR

We're the campus where you'll find the programs you want, the smaller student-to-faculty ratio you need, and the hands-on learning opportunities that will set you on the path to your future.

We're proud of our investments in our campus, our students, and our environment.

Come try us on. You'll like the fit!

Sat, Apr 6/19
Sat, Apr 27/19

Can't make these dates? Music has Auditions on Demand. Contact **Dr. Nick Papador** (papador@uwindsor.ca) to schedule an audition that's convenient for you.

CAMPUS LIFE

CLASS IS OUT AND YOUR DAY IS JUST BEGINNING

Head over to The Forge Fitness Centre for a quick workout or Pilates class. Grab lunch with friends at the Marketplace (Vegan Mushroom Strudel, Coconut Curried Beef, or the Pulled Pork Lasagna?). Take your laptop outside and enjoy the outdoor space.

And don't forget that ultimate frisbee game!

THIS IS STUDENT LIFE AT UWINDSOR

In our residence halls and restaurants, you'll bond with new friends from around the world. Be sure to get involved and join student clubs and organizations. You'll fit right in!

Our campus covers 125 acres and houses 47 buildings, including some pretty awesome, new environmentally-friendly ones on our main and downtown campuses. And over 50% of our campus is green space where you can hang with friends, do homework or just read a book.

You'll be living in one of the coolest (although surprisingly warm) metropolitan areas in North America. The sister cities of Windsor and Detroit offer the best of both worlds – the charm, personal feel, and fabulous restaurants of a small city in Windsor with big city amenities such as major league sports, big name concerts, and entertainment in Detroit.

We're here to make your UWindsor experience the best possible. The University offers dozens of support services, from study skills workshops to counselling to special needs accommodations.

Our campus sits on the traditional territory of the Three Fires Confederacy of First Nations, comprised of the Ojibwa, the Odawa, and the Potawatomi. There are few places on earth that someone before us has not called home.

WE'RE HERE FOR YOU

AT UWINDSOR, WE CAN HELP YOU MAKE THE
TRANSITION TO UNIVERSITY WITH CONFIDENCE.

ACADEMIC SUPPORT

ARTS, HUMANITIES AND SOCIAL SCIENCES

Our student mentors are here for you to help build your comfort level during class discussions, gain a deeper understanding of your material, or learn critical thinking and communication skills.

BUSINESS

The Odette Student Success Centre's highly skilled advisors can provide you with academic advising, career services information, and first-year support and tutoring.

The H.O.U.S.E. (Helping Odette Undergraduate Students Excel) Program supports the transition of students into undergraduate studies at the Odette School of Business.

ENGINEERING

The WINONE Office for First Year Engineering promotes a positive, first-year learning experience for engineering students by offering academic counselling and information about support services across campus. It also promotes mentoring of engineering students by fellow undergraduate and graduate engineering students to create a positive, inclusive, and respectful learning environment.

HUMAN KINETICS

All first-year HK students are automatically provided with a student mentor through the Kin-One First Year Experience Program. You will learn how to get involved, receive ongoing student support, academic and career counselling, connect with other students and build skills for a successful transition into first year.

NURSING

Faculty and staff are devoted to student success within a professional learning environment. Your education experience is enhanced by support services that include academic and career advising (Student Success Coordinator), mental health counselling exclusively available to nursing students (Clinical Therapist), peer mentors (Nursing Lab), and student-led involvement (Nursing Society).

SCIENCE

The USci Network is a program that supports and promotes student success in Science by providing collaborative and integrative opportunities to enrich the student experience.

Through initiatives focused on academic support, career planning, mental health and wellness, peer mentoring, creativity and diversity, the USci Network encourages science students to develop their leadership, engagement, application and discovery skills. Other opportunities include:

- MySci Advisor Program matches first-year science students with an experienced, upper-year student for advice and guidance about their program
- Math and Stats Learning Centre
- Awards for best mentor-mentee in Forensic Science

STAY HEALTHY AND SAFE

- Bystander Initiative
- Campus Community Police initiatives
- Chiropractic and massage therapy
- Doctor's office, dental office
- Forge Fitness Centre
- Lancer Recreation Services
- Peer Counselling Centre
- Sexual Misconduct Response & Prevention Office
- Student Counselling Centre/Peer Support Centre
- Student Health Services
- Student Medical Response Service
- Walksafe

STUDENT EXPERIENCE

Academic Advising

- Advice on course selection, program and degree requirements

Student Accessibility Services

- Advising and supports for students with disabilities who require academic accommodations
- BUILD — a multi-day program to help transition to university for students with documented learning disabilities and/or ADHD

International Student Centre

- A range of services to support international students and activities to engage and promote UWindsor's diverse and vibrant student body
- Soft Landing Program for new international students

Orientation Programs

- Head Start Orientation — make your schedule and explore the campus
- Welcome Week — ease your transition into university life by getting to know the campus community before classes begin

Student Success and Leadership Centre

- Leadership and volunteer programs
- Outstanding Scholars Program
- STEPS (Skills to Enhance Personal Success) — offers workshops on exam preparation/execution, time management and much more

Bounce Back

- Designed for students who did not achieve their academic goals in first semester and want a fresh approach to their studies

Connecting4Success

- A mentoring program for first-year students

Student Clubs

- 200 student clubs on campus, including Amnesty International, the Comic Book Club, Campus Pride Centre, and the Young African Union

Writing Support Desk

- Helps with writing needs

STUDENT SUPPORT SERVICES

Visit uwindsor.ca/academic-support-services

HEAD START ORIENTATION

Head Start is an orientation program designed to help you be successful in your first year at UWindsor.

We offer several Head Start dates throughout the summer and you may attend any session – not just those specific to your program.

Faculty specific sessions allow you to connect with students and faculty members in your program and take a specialized campus tour. General sessions include a broader campus tour and faculty related information about our programs. We also offer sessions designed for mature, part-time, and transfer students.

Programs aimed at parents and family members are also available so everyone at home can assist you as you begin your academic career at UWindsor.

Visit uwindsor.ca/headstart for available dates and to download our Head Start app so you can register to attend.

ALUMNI HALL

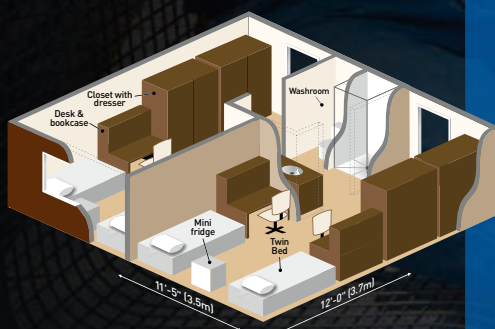

Room—\$7,859 per year* (single room in a two-bedroom suite). Assigned to all students. First-year students coming directly from high school are not on the same floor/wing as returning and beyond-first-year students (with the exception of engineering and nursing communities). Grade point average requirement for first-year students coming directly from high school.

900+
Residence rooms

CARTIER HALL

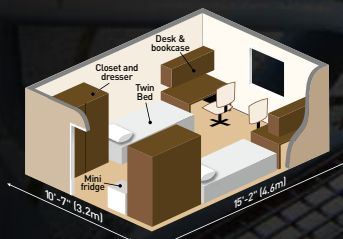

Typical Room—\$6,855 per year* (double). Close-knit community offers open-concept living. Assigned to first-year students coming directly from high school. Double rooms with semi-private washrooms.

24/7
Academic and personal help on hand

MACDONALD HALL

Typical Room - \$5,951 per year* (double) or \$7,222* (single). Assigned to first-year students coming directly from high school. Traditional-style building with double and limited single-style rooms (with common washrooms). All floors are co-ed floors. Living Learning Communities for Engineering and Science.

93%
Academic retention rate for residence students

LIVING AND LEARNING

Residence is more than just a place to live. It's your connection to campus. You're steps from your classes, the library and social activities. Residence life is your key to a full university experience.

WHAT'S HERE FOR YOU

Want a single room? We have them. Share with a friend? No problem. We have living learning communities: Engineering, Nursing, and Science. Need academic help? Your RA - Academic is available. Need personal help? Your RA is there for you, 24/7.

Apply at uwindsor.ca/residence/apply

GET INVOLVED

Residence Events

Get involved by doing something you love. Whether sports, arts, the environment, or helping our community, we've got something for you!

Residence Student Conduct Board

Want to ensure that resident students' rights are protected? Serve on the Student Conduct Board which reviews minor infractions of the Residence License and Meal Plan Agreement, and determine appropriate student sanctions.

OPPORTUNITY OF A LIFETIME

Step onto our campus and you'll benefit from richly diverse cultural opportunities. Our students come here from 92 countries around the world, bringing with them their unique cultures and perspectives. Many of our academic programs feature an international dimension to them. We encourage our students to take that experience a step further by going on Exchange. Come to UWindsor and really see the world around you.

INTERNATIONAL EXCHANGE

- Earn credits towards your degree while you live/learn at another university
- Become more independent and self-reliant
- Build a network of friends all over the world
- Explore different graduate and post-degree opportunities
- Expand your academic horizons
- Build and diversify your resumé

For more information, visit uwindsor.ca/exchange

CELEBRATION OF NATIONS

The Celebration of Nations is an annual gathering of diversity that promotes awareness of different cultures on campus. It reflects the fact that Windsor is Ontario's second most diverse city. Share the culture you have grown to love through dance, dress, food, music, and many other demonstrations. The festival features performances and displays that reflect the richness of culture which can be found right on campus.

uwindsor.ca/cmf

Concurrent Communication, Media and Film/Education

This challenging, intensive program is for you if you wish to pursue a BA (General) in Communications Technology, while concurrently studying education and completing field experience in schools. You'll receive two degrees and be eligible to teach at the intermediate/senior (Grades 7-12) level.

uwindsor.ca/education

55%

Of international leaders
are Arts, Humanities and
Social Sciences grads.

CRIMINOLOGY

Criminology examines criminal activity, legal issues, policing, regulation, the criminal justice system, and security as major factors in society. In our program you'll learn how crimes and illegalities are defined, the enforcement and administration of laws, punishments and sanctions, and issues of law, morality and justice.

Career Paths

- Government policy and research
- Business research and analysis, human resources, project management
- Social research
- Immigration
- Social service and community agency consulting
- Military service
- Advanced research*

uwindsor.ca/criminology

Sociology and Criminology

This program combines sociological and criminological thinking and approaches to understand social relations, social institutions, organizations, interpersonal interactions, criminal activity, legal issues, and the criminal justice system and challenge common sense assumptions.

Career Paths

- Business (research and analysis, human resources, project management)
- Government policy and research services
- Immigration
- Social service and community agency work
- Social research agency service in the public, private, and community sectors

uwindsor.ca/sociology

* With additional studies

MAKING A DIFFERENCE

ALEXIS JAMIL

Drama in Education and Community

A mentor with Youthrive, Alexis helped struggling youth in the Changing the Odds program create their own businesses and sell their products at a local market.

"It's truly amazing to see what happens when passionate students come together to make an impact on our communities," says Alexis. "We created a community of young leaders."

Fun Fact

Alexis is obsessed with sharks! She is planning to get a shark tattoo and will scuba dive anywhere the waters are home to sharks. She says she "lives every day like it's Shark Week."

DISABILITY STUDIES

Disability Studies

Use the knowledge and experience-based practice we provide to become an advocate for social justice and accessibility for people with disabilities.

Career Paths

- Individual, family and group practice
- Case management in service delivery
- Agency supervision
- Disability and accessibility policy analysis

uwindsor.ca/disabilitystudies

Disability Studies and Psychology

Benefit from training in both psychology and disability studies and a focus on psychological and social models of disability with real-world learning experiences. You'll gain the knowledge and experience-based practice to advocate for social justice, anti-oppressive needs, and accessibility for people with disabilities.

Career Paths

- Social services
- Education
- Government service
- Individual, group, or family practice

uwindsor.ca/psychology

Social Work and Disability Studies

This program provides training and education in both social work and disability studies and focuses on social justice and the social model of disability. It also exposes you to real-world learning experiences.

Career Paths

- Service to disability organizations
- Government service
- Individual, group, or family practice
- Work with social service agencies

uwindsor.ca/disabilitystudies

DRAMATIC ART

Dramatic Art offers you a welcoming community and a thriving and energized student experience that will challenge and prepare you for a lifelong career as a theatre artist, teacher, and/or arts leader. We offer you a strong, participatory liberal arts degree in theatre studies. Choose a concentration from performance, history/theory, and/or design/technical theatre.

Career Paths

- Art production for theatre
- Arts administration
- Stage management
- Costume, set, lighting design
- Theatre for social action practitioners

Drama and Communication, Media and Film

Gain both knowledge and experience in this dynamic and flexible double-major program that may include courses in set and costume design, video, film, theatre production, theatre history, and performance.

Career Paths

- Television and video production and post-production
- Film/theatre direction
- Theatre for social action
- Acting
- Arts administration

uwindsor.ca/drama

uwindsor.ca/cmf

Drama in Education and Community

Canada's most unique undergraduate program in Drama in Education and Community combines practical, student-centred learning with immediate application in such settings as schools, art galleries, museums, hospitals, senior citizen residences, health-care agencies, and multicultural organizations. Projects may involve developing presentations, performances, and workshops around specific health, education, and social issues. Interview/Workshop required.

Career Paths

- Elementary, special education or secondary school teaching*
- Youth arts counselling
- Arts administration
- Theatre for young audiences performing
- Theatre for social action pro-activism
- Community drama consulting
- Community youth arts leadership

uwindsor.ca/drama

MAKING A DIFFERENCE

BEV JACOBS

Faculty of Law

Professor Jacobs was recently appointed to the Order of Canada and says that while that she respects the award, it won't keep her from fighting government in defense of her people.

She was the lead researcher of the Stolen Sisters Report, which examined factors contributing to a heightened risk of violence against Indigenous women in Canadian cities.

Jacobs is a member of the Mohawk Nation of the Haudenosaunee (Iroquois) Confederacy. She lives and practises law in her home community of Six Nations of the Grand River Territory.

MAKING A DIFFERENCE

JUDY BORNAIS

Faculty of Nursing

Nursing Professor Judy Bornais holds the “Stanley Cup of higher education” – a 3M National Teaching Fellowship – for her transformative educational leadership, as well as her dedication to the region’s health care system.

Bornais pioneered the Standardized Patient Program and the Simulation Program, which gives Nursing, and Schulich School of Medicine and Dentistry students practical, hands-on patient experiences.

Fun Fact

Professor Bornais says she likes charting new waters and has either canoed or kayaked from coast to coast.

“I even canoed and portaged for 10 days in northern Ontario with no cell phone or electricity many years ago.”

MODERN LANGUAGES

Modern Languages (with year abroad), available in German, Italian and Spanish

Modern Languages and Second-Language Education

Explore a new language, the process of language acquisition and the culture associated with it. Concentrations offered in German, Italian, and Spanish. No prior knowledge of the language is required. Specialize in one language, two languages, or a language combined with a non-language option. Our Year Abroad option is offered to students taking one language. Exchange opportunities in Germany, Italy, Mexico, Chile, and Spain.

Career Paths

- Teaching English as a second language
- Speech-language pathology/therapy
- Travel and tourism
- International business
- Federal and provincial civil services

uwindsor.ca/llc

MUSIC

Music Comprehensive (BMus Comprehensive)

This degree program allows students to study Music through performance and academic study.

Music Education (BMusEd)

A 4-year degree program with focus on pedagogy.

Career Paths

- Professional performing
- Music education*
- Arts administration
- Music therapy*

Music Combined Honours

Study music and another subject. Permission from both Music and the other area of study is required to take this program.

Career Paths

- Musicology and composition
- Sound design, recording, and media arts

Bachelor of Arts in Music (BA)

Pursue the rigorous, academic study of a wide variety of musical genres with the option of including a hands-on studio experience with classical or contemporary music.

Career Paths

- Musicology and composition
- Sound design, recording, and media arts
- Music industry, criticism or technology
- Arts administration
- Service in the music industry, criticism or technology

uwindsor.ca/music

Concurrent Music Education/Education

Earn both a Bachelor of Music – Music Education (Honours) and a Bachelor of Education degree in five years and be certified to teach in Ontario.

uwindsor.ca/education

PHILOSOPHY

Philosophy is crucial to intelligent decision making in all spheres of life. Students of philosophy have made important contributions to society across a wide array of professions. This program enjoys an international reputation in argumentation theory and political thought. It lays a strong foundation for careers in law*, politics, civil service, communication, journalism or education.

Career Paths

- Civil service
- Law*
- Journalism
- Philosophy
- Politics
- Any career where careful, creative, and critical thinking are valued

uwindsor.ca/philosophy

POLITICAL SCIENCE

Political scientists study power—who holds it, how it is exercised, how our lives are influenced by politicians, bureaucrats, and politically important institutions (including the courts, the Constitution, domestic and international organizations, etc.) and individuals. This program introduces you to political, economic, social, and environmental issues in Canada and around the world.

Career Paths

- Federal, provincial and municipal government service
- Journalism
- Law*
- Policy analysis
- Public policy think-tank consulting
- Public service
- Service in non-governmental and consulting organizations

Political Science with French Specialization

This specialization will prepare you for a career in public service, the law, non-governmental organizations, or the private sector that requires a good working knowledge of French and an understanding of Francophone culture.

Career Paths

- Government service
- Journalism
- Law*
- Policy analysis
- Public policy think-tank consulting
- Public service
- Service in non-governmental and consulting organizations

uwindsor.ca/polsci

PSYCHOLOGY

Honours Psychology

Psychology will help you answer such questions as what makes people think and act the way they do? What causes people to interact with each other in functional and dysfunctional ways? To what extent do our personality and environment influence our behaviour?

Career Paths

- Further studies in non-psychology professions
- Business/industry careers
- Community agency service
- Government services
- Health care provision
- Law*
- Medicine*
- Social work*

Child Psychology

This program is for you if you wish to focus on child and adolescent development. Courses emphasize different lifespan periods and various aspects of typical and atypical development.

Career Paths

- After-school program co-ordination
- Child and youth work
- Developmental services
- Educational assistance
- In-home support work for children with disabilities

Developmental Psychology

In this program, you'll focus on child, adolescent and adult development. Courses emphasize different developmental periods and characteristics of both typical and atypical development over the lifespan.

Career Paths

- Childcare
- Eldercare
- Health-care and community agency service

* With additional studies

PSYCHOLOGY, CONTINUED

Developmental Psychology with Thesis

The four-year Honours BA in Developmental Psychology with Thesis program will prepare you to apply for MA and PhD degrees in psychology.

Career Paths

- Psychology*
- Research and practice in university setting*

Psychology with Thesis

Choose from our broad selection of courses to learn about such topics as memory, motivation, decision-making, how the attitudes and actions of other people influence us, the origins and treatment of mental illness, human development from birth to death, and the way our cultural backgrounds shape the way we think and behave.

Career Paths

- Psychology*
- Research and practice in university setting*

uwindsor.ca/psychology

Psychology/Education/Early Childhood Education

Offered jointly over five years in co-operation with St. Clair College, this program will prepare you to teach at the preschool and primary-junior levels (K-6).

uwindsor.ca/education

SOCIAL WORK

Social Work

This program teaches you the skills and theories of the Social Work profession, preparing you to become a well-rounded social worker. By combining social work courses with courses in disability studies, psychology, sociology, women's and gender studies, or such other disciplines as political science, and communication, media and film, our professional program will prepare you for registration in the Ontario College of Social Workers and Social Service Workers and elsewhere.

Career Paths

- Children's aid service
- Community agency service
- Correctional service
- Hospital service
- Service in residential centres and homeless agencies
- Education
- Substance abuse services
- Social planning and advocacy association consulting

Social Work and Disability Studies

This program provides training and education in both social work and disability studies and focuses on social justice and the social model of disability. It also exposes you to real-world learning experiences.

Career Paths

- Service to disability organizations
- Government service
- Individual, group, or family practice
- Work with social service agencies
- Education

Social Work and Women's Studies

Our Social Work and Women's Studies program is unique in North America. We focus on social justice in its broadest sense. You will learn how race, social class, religion, and sexuality impact on the practice of Social Work.

Career Paths

- Child and youth protection provision
- Community development agency service
- Correctional service
- Service in the health and education sectors
- Sexual assault treatment centre service
- Women's shelter service

uwindsor.ca/socialwork

SOCIOLOGY

Sociology is the study of societies, social life, and social change. It investigates social, cultural, and demographic issues in Canada and around the world. A degree in sociology offers you rigorous training in fundamental research, analysis, and communication skills, research ethics, social research techniques and design, and theory. Our program is research-driven and attentive to global, national, and local dynamics and issues.

Career Paths

- Business
- Community agency work
- Immigration services
- Social services

Sociology and Criminology P. 29

uwindsor.ca/sociology

UNDECLARED

If you're not ready to commit to a major, choose "Undeclared". Your first-year courses normally count toward whatever major you eventually select. You'll have the opportunity to take a "Discovery Program", which includes courses in effective writing and the double-credit course, "Understanding the Contemporary World", in which you examine ideas in a variety of subjects in several different ways as you develop academic skills.

VISUAL ARTS

You, the developing artist, will benefit from excellent working space in our stunning new facility, an invaluable foundation of skills, supportive faculty and the opportunity to explore, share, and realize individual creativity and expression.

We offer in-depth studio practices, exhibition opportunities, and exposure to the cultural institutions of Windsor and Detroit. (Individual studio space is available during Year 4.)

Career Paths

- Advertising, public relations, and visual message design
- Arts administration, curation
- Marketing and strategic communications
- Traditional and digital art, photography, and design

uwindsor.ca/visualarts

Visual Arts and Communication, Media and Film (Studio Arts)

This option combines a foundation in artistic skills with an analysis of contemporary media institutions and film production practices.

Career Paths

- Advertising, public relations, and visual message design
- Arts administration, curation
- Marketing and strategic communications
- Traditional and digital art, photography, and design

uwindsor.ca/soca

uwindsor.ca/cmf

Visual Arts and Communication, Media and Film (Film Production and Media Arts)

This option provides you with a solid foundation and sophisticated understanding of the theories, contexts, and technical knowledge required to create artistic and skillful film and video productions in a range of formats.

Career Paths

- Directing
- Cinematography, sound recording, lighting
- Scriptwriting/screenwriting
- Stop-motion animation, editing, and post-production

uwindsor.ca/cmf

Visual Arts and the Built Environment (VABE)

This cross-border program, offered in conjunction with the University of Detroit Mercy School of Architecture, combines the study of art and architecture and offers breadth of knowledge and experience in both disciplines. You'll receive a BA(G) in Visual Arts and an accredited BSc in Architecture. You must be a Canadian citizen.

Career Paths

- Architecture
- Art/architectural history
- Construction, building design, development
- Interior spatial design
- Master's level in architecture (MArch.) and Visual Arts
- Project and facility management
- Restoration
- Real estate
- Set production
- Urban planning and revitalization

uwindsor.ca/vabe

Media Art Histories and Visual Culture

Probe the ways in which we see and understand the world around us. Study how art, architecture, and media technologies intersect to shape our understanding of our local and global cultures in both historical and contemporary contexts. Studio art classes are complemented by unique academic courses, ranging from traditional art history to the visual culture of everyday life.

Career Paths

- Arts administration
- Art history/research*
- Cultural journalism and criticism
- Education*
- Graduate studies in studio or academic programs
- Graduate curatorial and museum studies
- Gallery and museum administration
- Project management

uwindsor.ca/soca

* With additional studies

VISUAL ARTS, CONTINUED

Concurrent Visual Arts/Education

This challenging, intensive program is for you if you wish to pursue a BA (General) while concurrently studying education and completing field experience in schools. You'll receive two degrees and be eligible to teach at the intermediate/senior (Grades 7-12) level.

uwindsor.ca/education

WOMEN'S AND GENDER STUDIES

Explore how gender, race, sexuality, and other social identities shape all aspects of everyday life — from the music you enjoy, to the films you watch, to your relationships with family, friends, and co-workers. A deep understanding of women and gender is at the heart of this program, but this is not its boundary. We are concerned with equality and social justice in the broadest sense.

Career Paths

- Community organization service (women's health, LGBTQ+, newcomer services)
- Women's shelter and crisis centre service
- Correctional services
- Research and policy consulting

uwindsor.ca/wgst

UWindsor is the Bystander Campus

A place where all students can take responsibility for making the world a safer place. Get involved and gain real tools to recognize and interrupt unsafe situations. Know when to act. Know what to do. Make positive and long-lasting changes in your community.

Find out how at:
uwindsor.ca/bystander-firstyear

EDUCATION

A GREAT TIME TO BE A TEACHER

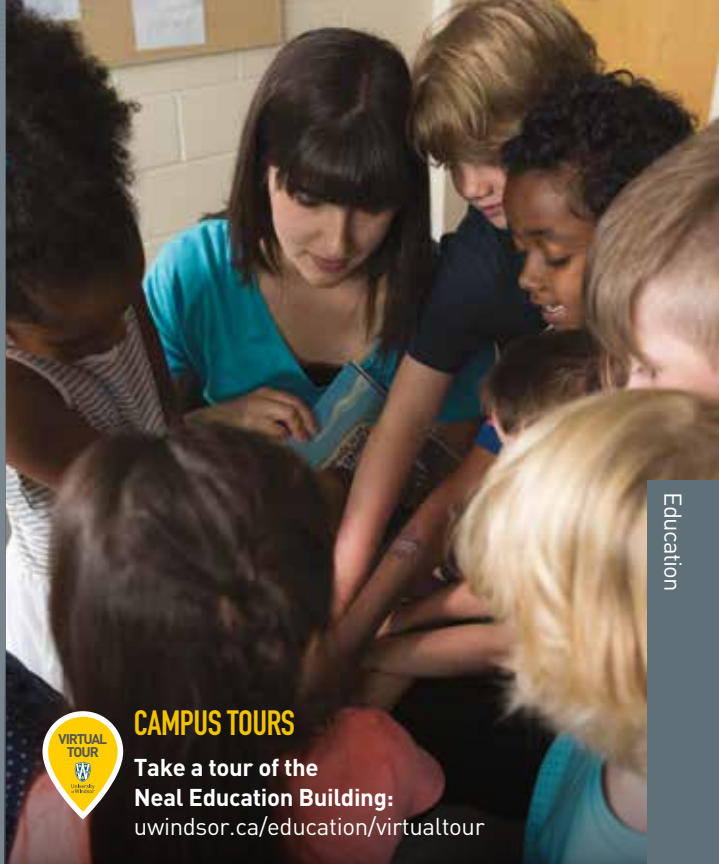

A decline in the number of new teachers entering the job market and a gradual rise in retirements over the remainder of this decade should help improve teacher employment outcomes in the Province of Ontario, according to the Ontario College of Teachers.

Up the highway from Windsor, school boards in London have been hiring hundreds of teachers and support staff to keep up with classroom demands.

Across the river from Windsor, the Detroit Public Schools Community District claims it is currently 250 teachers short, while the American Federation of Teachers says each year 300,000 public school teachers are needed nationwide and that the shortage is growing.

In Canada, teacher shortages have been identified in Nova Scotia and British Columbia.

Internationally, the UK is in the middle of an acute teacher shortage and the United Nations Education, Science and Cultural Organization (UNESCO) has issued statistics revealing that close to 69 million new teachers are needed to provide quality universal primary and secondary education by 2030.

Education

CAMPUS TOURS

Take a tour of the
Neal Education Building:

uwindsor.ca/education/virtualtour

CONSECUTIVE PROGRAM

Our two-year consecutive program integrates on-campus classes with 80 to 110 days of classroom observation and teaching. Your placements will be in school settings under the direction of experienced teachers in one of three divisions: primary-junior (JK - Grade 6), junior-intermediate (Grades 4-10) and intermediate-senior (Grades 7-12) as well as specialized practicums. (For candidates with an existing degree.)

CONCURRENT PROGRAMS

These intensive programs are designed for students who wish to pursue a BA (General) or a BSc (General) in the areas below, while concurrently studying education and completing field experience in schools. You will receive two degrees and be eligible to teach at the intermediate/senior (Grades 7-12) level.

Communication, Media and Film/Education

LEARN MORE ABOUT **EDUCATION**
ADMISSIONS REQUIREMENTS ON P. 62

ENGINEERING

Our students engineer an impact in the world, making a difference through engagement in our community — both locally and globally.

Windsor's unique climate of co-operation among academic, business and industry sectors gives students access to state-of-the-art engineering facilities, unique research opportunities, and outstanding career connections. We offer programs designed to develop professional competence and prepare students to solve the technical problems of society and the global environment.

LEARN MORE ABOUT **ENGINEERING**
ADMISSIONS REQUIREMENTS ON **P. 62**

ENGINEERING

All engineering programs begin with a general first year, providing flexibility in program choice.

Career Paths

- State-of-the-art manufacturing and production
- Employment in the aerospace industry
- Service in the renewable energies sector
- Systems design/operation/building/maintenance
- Water resource management
- Transportation management
- Pollution control and prevention
- Advanced computing and communications
- Bio-based engineering
- Structural design
- Failure analysis
- Construction and infrastructure renewal
- Scheduling and optimization
- Employment in the automotive industry
- Environmental protection
- Project, process and systems management
- Robotics and advanced electronics management
- Power generation and distribution

uwindsor.ca/engineering

CIVIL ENGINEERING CO-OP AVAILABLE

Civil Engineering is an ideal choice if you're interested in structures, fluid mechanics, hydraulics, hydrology, and geotechnical engineering. Courses in engineering, mathematics, structural analysis, hydraulics, hydrology, design, soil mechanics, and management provide the broad-based education needed in today's market place.

Career Paths

- Construction
- Design/analysis for new or rehabilitated structures and systems
- Municipal operations oversight
- Project management

ELECTRICAL ENGINEERING CO-OP AVAILABLE

You'll take courses in numerical programming, circuit analysis, digital design, electromagnetic fields and photons, signals, and physical electronics.

Career Paths

- IT management
- Industrial automation
- Microelectronics
- Power distribution
- Telecommunications
- System integration

TOP 10

Out of 17 teams that took part in the World Expo 2017 Future Energy competition, the UWindsor VibroWind Capstone Team ranked in the top 10 in North America. They were invited to participate in the final competition in Washington, D.C. where they took fourth overall.

MAKING A DIFFERENCE

ADAM HASSAN

Electrical and Computer Engineering

Adam is an Outstanding Scholar, who with fellow student, Alan Cai, is helping to develop intelligent controllers to allow autonomous operation of drones to help improve quality of life, including precision agriculture, natural resource monitoring, and life-saving. He has been employed by a company that used drones to survey damage caused by tornadoes, removing the risks when humans do this by going into the damaged area. "Drone Control eliminates the need for personal risk," says Adam.

Fun Fact

Adam is a history buff. "I love digging up the past," he says, "and finding out how people have changed throughout the centuries."

ENVIRONMENTAL ENGINEERING CO-OP AVAILABLE

Ours was the first environmental engineering degree program in Canada. After first year, specialize in such subjects as air pollution, water pollution control, chemical reaction engineering, environmental microbiology, waste management, and assessing the sustainability and environmental performance of engineering projects and systems.

Career Paths

- Consulting
- Developing design solutions to remediate pollution
- Government agency and industry service
- Monitoring environmental operations of large-scale operations
- Overseeing water treatment operations

INDUSTRIAL ENGINEERING CO-OP AVAILABLE

Industrial Engineering (with an available minor in Business Administration)

Industrial engineers help organizations operate efficiently and cost effectively using intelligent processes to streamline production systems and design flexible manufacturing approaches. You will learn how to engineer systems that interact with one another.

Career Paths

- Air transportation management
- Banking
- Health care service
- Employment in the insurance industry
- Manufacturing
- Rail transportation
- Retail service

MECHANICAL ENGINEERING CO-OP

AVAILABLE

This program includes two broad areas of study: thermofluids (heat and power) and solid mechanics (designing mechanical parts, determining the forces on those parts during operation, and analyzing their performance as part of larger machines and systems). After second year, choose one of the following:

1. Mechanical Engineering (Aerospace option)

Learn the manufacturing, maintenance, and logistics involved in serving the aerospace industry. Learn to apply aerospace-related skills to develop the next generation of aerospace materials, production methods and components, and improve aerospace operational challenges.

2. Mechanical Engineering (Automotive option)

Study such topics as vehicle dynamics, internal combustion engines, diesel technology, and fuel cell technologies. Participate in opportunities to design, build, and race vehicles in events sponsored by the Society of Automotive Engineers.

3. Mechanical Engineering (Environmental option)

Learn how to apply mechanical know-how to solve the sustainability challenges facing our world. Combine mechanical engineering with courses in air pollution control, water/wastewater treatment, noise, environmental assessment, and waste management.

4. Mechanical Engineering (Materials option)

Explore the structure and properties of metals, ceramics, polymers and composites. Specializations are offered in processing operations such as casting, welding and metal forming.

Career Paths

Graduates can be found at all levels of engineering and management from small private companies to larger, multinational corporations, and government ministries and services.

- Facility management
- HVAC systems design
- Materials development
- Vehicle development
- Project manager

uwindsor.ca/engineering

SCIENCE

With the best faculty to student ratio in Ontario, our Science students get high-impact learning experiences from their first day in class.

Undergraduate research, study abroad, co-op, paid internships, and service learning opportunities — in addition to outstanding mentorship — mean authentic, career-relevant experiences that promote leadership, engagement, application and discovery.

LEARN MORE ABOUT **SCIENCE**
ADMISSIONS REQUIREMENTS ON P. 63

BIOCHEMISTRY

If you're interested in the chemistry of DNA, proteins, and enzymes, as well as fundamental relationships between chemistry and living organisms, you'll find this program fascinating.

Career Paths

- Graduate studies (MSc or PhD)
- Pursuit of professional programs in medicine, dentistry, pharmacy, veterinary medicine, and chiropractic*
- Biopharmaceutical and biotechnological industrial research
- University or government research
- Clinical investigation and medical research

Biochemistry for Health Sciences Stream

This program is designed to meet the needs of students who want a strong background in the sciences fundamental to health and medicine and focuses on the central role of biochemistry in the health sciences using a learning-by-doing approach.

Career Paths

- Clinical research
- Health and biomedical research in graduate studies
- Industrial, academic, or government research and development
- Pursuit of professional programs in such fields as medicine or pharmacy*

uwindsor.ca/chemistry

BIOLOGICAL SCIENCES

Biology

Our program applies modern investigative techniques in several biological areas with specializations in microbiology, cellular, developmental, environmental and evolutionary biology, population and ecosystem ecology, or a combination of these areas.

Career Paths

- Environmental research and monitoring
- Management
- Pursuit of such professional programs as medicine, dentistry, pharmacy or other health-related sciences*
- Research and development for industry or government

uwindsor.ca/biology

Biology and Biochemistry (Health & Biomedical Stream)

This program builds on the strengths of both biology and biochemistry to provide students interested in health fields interesting courses and integrates lab components with course selection flexibility.

Career Paths

- Clinical research
- Health and biomedical research in graduate studies
- Industrial and academic research and development
- Management
- Pursuit of such professional programs as medicine or pharmacy*
- Research and development in industry or government

uwindsor.ca/biology

Behaviour, Cognition and Neuroscience

This program combines the study of the biological aspects of psychology and biology relating to the brain and behaviour with research-based undergraduate courses.

MAKING A DIFFERENCE

DANE FADER

Environmental Science

With the help of the UWindsor EPICentre, Dane launched a residential pickup service for organic waste in Windsor. Community partnerships with local farms and gardens help sustain local food production to fulfil his goal of producing "food for the people where the people are."

Fun Fact

Dane was a child actor.

BIOLOGICAL SCIENCES, CONTINUED

Molecular Biology and Biotechnology

Investigates biological systems at the cellular and molecular levels. This involves the use of living cells and the materials they produce to create products for pharmaceutical, diagnostic, agricultural, and environmental applications.

Career Paths

- Clinical research
- Government and regulatory affairs
- Information systems
- Manufacturing and production
- Quality control
- Research and development

uwindsor.ca/biology

CHEMISTRY

Chemistry

Our most flexible and applied science program offers you a strong and rigorous background in the field of chemistry, and the chance to pursue interests in such areas as biology, physics, math, earth sciences, and computer science.

Career Paths

- Environmental analysis and assessment
- Employment in government and hospital laboratories
- Industrial and academic research and development
- Employment in industrial process laboratories
- Patent and environmental law*
- Pursuit of such professional programs as medicine, dentistry and pharmacy

Chemistry and Physics

This unique combination offers you an enhanced focus on physical chemistry and physics. Explore the characterization of matter using various types of spectroscopy, theoretical methods and other such instrumentation as microscopes, lasers and X-ray diffractometers.

Career Paths

- Government agencies or laboratories
- Graduate work in either area
- Industry research and development

uwindsor.ca/chemistry

COMPUTER SCIENCE **CO-OP** AVAILABLE

Software development, network and system analysis continue to be the top jobs with steady growth projected through 2024, much faster than the average for all occupations. Our programs will prepare you to take your place in the technology industry or in research and academia.

Specializations

You will learn in-depth, advanced theory and may also be able to do one of the following specializations:

1. **Artificial Intelligence**
2. **Game Development**
3. **Multimedia**
4. **Networks and Security**

Computer Science (Applied Computing)

Acquire progressive, innovative tools and technology in computing, practical experience in developing software systems and the IT skills valued by industry.

Computer Science with Software Engineering Specialization

You'll learn about specification design, coding, and the testing of software.

Computer Information Systems

Focus on the application of computer technology in industry and commerce.

Career Paths

- Computer and network administration
- Computer programming
- Database administration
- Game development
- Multimedia
- Software engineering
- Systems analysis
- Web development

uwindsor.ca/cs

ECONOMICS (BSC)

Learn how the actions of individuals, firms, and public agencies ultimately determine the direction of the overall economy. Acquire the tools necessary to answer such important economic questions as: how do we reduce Canada's unemployment rate; what are the effects of government deficits and spending cuts; and what are the effects of globalization on the Canadian economy?

Career Paths

- Banking
- Corporate or competitive strategy
- Economic research/consulting
- Finance
- Forecasting
- Government and public policy analysis
- Stockbroking

uwindsor.ca/economics

EARTH AND ENVIRONMENTAL SCIENCES

Environmental Science

The University of Windsor is located at the heart of the Great Lakes — an unequalled natural laboratory to study the environment and develop solutions to important environmental issues, on both global and local levels. Our classes provide you with a comprehensive learning experience, incorporating all major components of the physical and living environment — geosphere, hydrosphere, atmosphere, and biosphere.

Career Paths

- Consulting
- Government sector
- Management and conservation
- Research
- Resource and manufacturing industries (permitting, monitoring, compliance, remediation)

Environmental Studies

Benefit from a one-of-a-kind learning experience that blends diverse academic disciplines. Learn the range of social, cultural, economic, political, legal, and ethical factors that influence human interaction with the environment and gain literacy in aspects of the physical and biological sciences to better understand natural environmental processes.

Career Paths

- Auditing
- Conservation and restoration
- Impact and quality assessment
- Law, regulation, and policy*
- Planning and resource management
- Recreation and eco-tourism
- Sustainability policy and practice

uwindsor.ca/ees

* With additional studies

FORENSIC SCIENCE/FORENSICS

Our forensic science programs emphasize new technologies, as well as traditional methods.

Forensic Science

In our Forensic Science program, you'll learn how to use science to analyze evidence and solve crimes in the field. Topics include crime scene analysis and reconstruction, new perspectives in forensic evidence analysis, presenting evidence in court, aspects of law, forensic medicine and pathology, advances in human identification, bioterrorism, etc. Concentrations include Life Sciences, Biology, Chemistry and Information Technology.

Career Paths

- Forensic Sciences
- Pathologist Assistant
- Police Identification Officer
- Graduate and Professional Schools
- Sciences
- Medicine*

Forensics (Combined BA with another major in Arts, Humanities and Social Sciences)

You'll develop a background in forensic science with an interdisciplinary focus in the social sciences or humanities.

Career Paths

- Crime scene analyst
- Criminalist
- Criminal profiler
- Psychological and behavioural analyst
- Criminal or civil lawyers

uwindsor.ca/forensics

GENERAL SCIENCE

The General Science program gives you maximum flexibility to explore the sciences in a three-year degree program. Build a solid academic foundation in two core science areas chosen from biological sciences, chemistry and biochemistry, computer science, earth and environmental sciences, mathematics, physics, and economics.

Career Paths

- Education*
- Health sciences, health technologies
- Quality control

Concurrent Science and Education

This intensive program is designed for students who wish to pursue a BSc (General), while concurrently studying education and completing field experience in schools. You will receive two degrees and be eligible to teach at the intermediate/senior (Grades 7-12) level.

uwindsor.ca/science

MATHEMATICS AND STATISTICS

According to The Jobs Rated Almanac, careers based on mathematics make up the bulk of the Top 10 jobs. Our programs include a core of rigorous courses designed to develop mathematical problem-solving and communication skills and to increase knowledge of mathematical structures and applications.

Our programs include:

- Mathematics
- Mathematics and Statistics
- Mathematics and Computer Science
- Combined Honours Mathematics
- Mathematics with Finance Concentration
- Business and Mathematics P. 52

Career Paths

- Actuarial science (insurance, pensions, benefits)
- Computer science
- Economics
- Government, medical, and financial institutions
- Industrial and academic research and development
- Statistics

uwindsor.ca/math

Concurrent Mathematics/Education

This challenging, intensive program is for you if you wish to pursue a B.Math while concurrently studying education and completing field experience in schools. You'll receive two degrees and be eligible to teach at the intermediate/senior (Grades 7-12) level.

uwindsor.ca/education

* With additional studies

PHYSICS CO-OP AVAILABLE

Learn how the universe works — from the fundamental forces of nature to their effects on matter and the environment around us. This program will ready you for leadership positions in both academic and industrial research in the Canadian high-technology industry. It may be taken with or without a thesis option. Some of our graduates have immediately gone on to positions with the Large Hadron Collider (CERN) and NASA's Jet Propulsion Laboratory.

Career Paths

- Government and clinical laboratory employment
- Graduate studies (MSc or PhD) in physics/astronomy
- Industrial and academic research and development
- Nuclear safety analysis
- Optical engineering
- Technical editing
- Quantitative finance analysis
- Research science
- Studies in medicine, dentistry, pharmacy, and medical physics

Medical Physics

Learn about the application of physics theories and technologies to the diagnosis and treatment of diseases in the human body, particularly cancer.

Career Paths

Career opportunities are available immediately upon graduation. However, students may wish to acquire full professional certification as a medical physicist by completing a CAMPEP-accredited graduate program available at several universities across Canada.

- Government and clinical laboratory employment
- Graduate studies in physics/astronomy
- Industrial/research medical physics
- Pursuit of such professional studies as medicine, dentistry, pharmacy, and medical physics

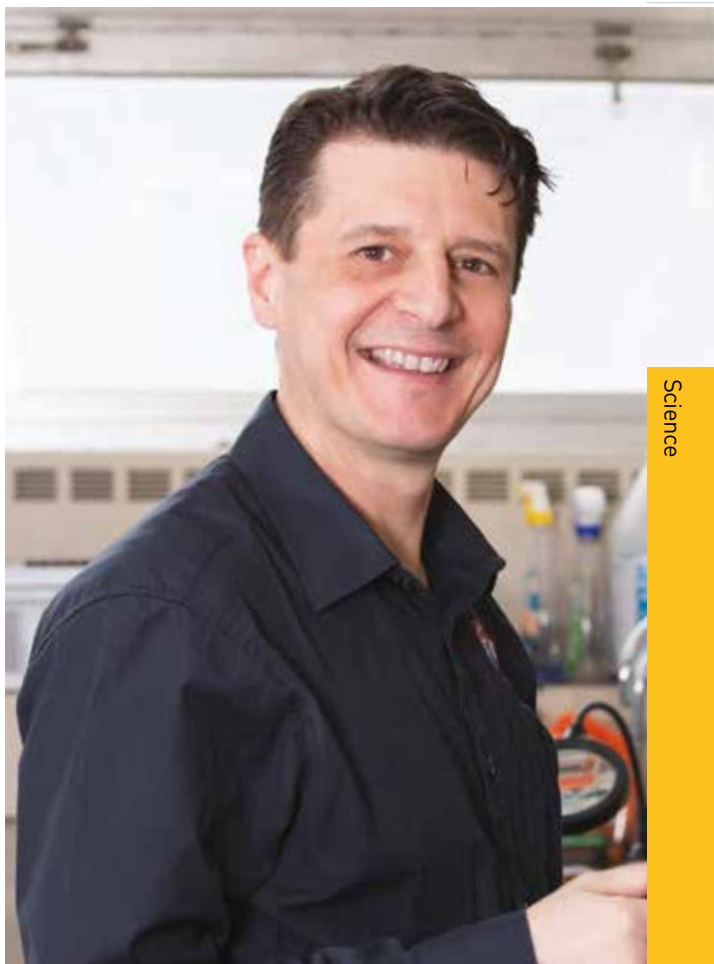

Physics and High Technology

This program is for you if you're interested in applying your physics training to the high-tech needs of society or fascinated by science and technology but don't necessarily want to pursue a career as a scientist. Thesis option available.

Career Paths

- Government and clinical laboratory employment
- Graduate studies (MSc or PhD) in physics/astronomy
- Industrial and academic research and development
- Nuclear safety analysis
- Optical engineering
- Technical editing
- Quantitative finance analysis
- Research science
- Studies in medicine, dentistry, pharmacy, and medical physics

uwindsor.ca/physics

Science

MAKING A DIFFERENCE

ALDO DICARLO

Physics Laboratory Coordinator

Students love working in the lab with Aldo, who works mostly with undergraduate students doing research. "I see our students as the future," says Aldo, "which makes helping to educate them the most important thing I can do." Aldo strives to determine the individual needs of each student in his lab and then create a plan to help them be successful.

Fun Fact

Aldo is also the Mayor of the town of Amherstburg.

BUSINESS

As an Odette School of Business student you'll have access to a one-of-a-kind education that reaches far beyond the classroom. The Odette Experience means personal growth, career preparation, and the support of leaders from business, sports, politics, and the arts who want to share ideas about building winning teams in their fields, and helping you find success in yours.

LEARN MORE ABOUT **BUSINESS**
ADMISSIONS REQUIREMENTS ON **P. 64**

BUSINESS ADMINISTRATION

(THESIS OPTION) CO-OP AVAILABLE

The Odette Experience combines classroom teaching, faculty interactions and hands-on learning through case studies, group projects, community engagement and co-op opportunities. Our program allows for a broad introduction to business in first and second year. You will select a specialization, leading to a career pathway, in third year.

Our specializations include

- Accounting (CPAO Accredited)
- Human Resources
- Finance
- Marketing
- Supply Chain and Business Analytics
- Strategy and Entrepreneurship

Career Paths

- Accountant
- Advertising manager
- Commercial banking manager
- Financial standards and information manager
- Human resource specialist
- Market research analyst
- Operations and systems analyst
- Production manager

BUSINESS AND COMPUTER

SCIENCE CO-OP AVAILABLE

This joint program will allow you to combine your business knowledge with your interest in technology to pursue unique career pathways globally.

Career Paths

- Computer and network administrator
- Database administrator
- Game developer
- Operations manager
- Actuarial science
- Business intelligence analyst
- Commercial banking manager
- Economic consultant
- Modelling and forecast analyst
- Pension administrator
- Supply chain analyst

Business

MAKING A DIFFERENCE

CESSIDIA DE BIASIO

**Bachelor of Arts - Honours Social Work,
with Great Distinction, 2015**

- **Double minor in Communication, Media and Film, and Sociology**
- **Awarded the Board of Governors Medal in Social Work**

**Bachelor of Commerce - Honours Business
Administration, with Great Distinction, 2018**

Cessidia De Biasio is a high achiever with a passion for helping others. She established the Addolorata De Luca Leadership Scholarship to honour the determination of all immigrants to Canada and provide financial aid to their descendants at the University of Windsor. "No matter your family's country of origin," she says, "we are all here today thanks to our ancestors who paved the way for us."

Fun Fact

Cessidia is one of the "40 Leaders Under 40" of Leadership Windsor-Essex

CAMPUS TOURS

Take a tour of the Odette School of Business Building:

BUSINESS AND ECONOMICS

This joint program includes specialized training in economics (knowledge of the underlying issues that impact global financial problems and growth, analytical skills) with a strong understanding of the decision-making process based on the resources available in a snapshot of time.

Career Paths

- Government and public policy analysis
- Commercial banking manager
- Market research analysis
- Financial advising
- Corporate or competitive strategy
- Economic research/consulting

BUSINESS AND MATHEMATICS

One of the most sought after skills gained from a business degree is the ability to make future decisions based on the assessment of possible risks and opportunities. Take your decision-making abilities to another level by completing the business and math degree at the Odette School. By using your in-depth data analytical knowledge and problem-solving skills, you will make more strategic decisions in a fast paced and quickly changing environment.

Career Paths

- Actuarial science
- Business intelligence analyst
- Commercial banking manager
- Economic consultant
- Modelling and forecast analyst
- Pension administrator
- Supply chain analyst

BUSINESS AND PSYCHOLOGY

(THESIS OPTION)

The ability to make your workforce and organization more effective and efficient is critical to any industry. By combining the study of business and psychology at the Odette School of Business, you will be using social scientific research methods in a business setting to recruit, motivate and align your staff to work at their optimum level.

Career Paths

- Learning and development lead
- Employee engagement manager
- Human resources advisor
- Recruiter
- People services consultant
- Training and organizational development manager

NURSING

Nursing is the science of applying knowledge, the technical aspects of practice, and the art of establishing a caring relationship. Our collaborative, four-year honours BScN program will prepare you for a career in nursing with extensive clinical work, which begins in first year. You may also gain experience as a peer mentor or research assistant.

Career Paths

Graduates are qualified to practise in both Canada and the United States, and pursue further studies.

IMPORTANT INFORMATION

Application Procedures and Deadlines

Admission Requirements

What It Costs

Awards, Scholarships and More

APPLICATION PROCEDURES AND DEADLINES

Applicants for full-time, undergraduate studies must apply through the Ontario Universities' Application Centre (O.U.A.C.). Current Ontario secondary school students should contact their guidance office for instructions.

All others use the O.U.A.C. 105 application form, available at all Ontario universities or at www.ouac.on.ca

Applicants for part-time studies must use the UWindsor application form at uwindsor.ca/ptapp

ENGLISH LANGUAGE PROFICIENCY

Applicants whose native language is not English must demonstrate proficiency in English to be considered for admission. This can be demonstrated in the following ways:

1. A minimum score of 6.5 on the International English Language Testing System (IELTS); or
2. A minimum score of 60 on the Canadian Academic English Language Assessment (CAEL); or
3. A minimum score of 60 on the Pearson Test of English Academic (PTE); or
4. Successful completion of the University of Windsor's English Language Improvement Program (ELIP)* (level III) with a minimum final grade of 75%; or
5. A minimum score of 85 on the English Proficiency Test administered by the English Language Institute of the University of Michigan (MELAB); or
6. A minimum score of 220 with a T.W.E. 4.5 on the Computer-based Test, 83 with an essay score of 20 on the Internet-based Test of English as a Foreign Language (T.O.E.F.L.); or
7. Receive a minimum of five semester transfer credits based on work completed at a recognized English-speaking University. (Normally, students must have at least one term of full-time study.); or
8. Receive a minimum of one year of transfer credit based on work completed at a non-university post-secondary institution with an overall transfer average of B; or
9. Have completed all secondary or post-secondary education in English speaking countries such as the United Kingdom, West Indies and other countries as specified by the Office of the Registrar; or
10. Can demonstrate that they have completed three years of full-time secondary or post-secondary study in a school where the language of instruction is English (e.g., in a British, Canadian, American or Australian Curriculum or an international diploma like the International Baccalaureate) and can demonstrate English proficiency. In some cases an English proficiency test may still be required; or

11. Applicants who do not satisfy the above requirements and wish exemption must provide the Office of the Registrar with a letter detailing the reasons for their appeal and include a letter of recommendation from their Secondary School principal or designate. The Registrar (or designate) will assess the request for exemption of this requirement.

Note: The University reserves the right to require applicants with an English Language Proficiency score disparate from their academic English prerequisite achievement to present further evidence of proficiency.

**For more information on the University of Windsor's 12-week intensive English language training program, go to uwindsor.ca/elip.*

FOR STUDENTS FROM OTHER CANADIAN PROVINCES

Applicants completing the following levels of education are considered equivalent to OSSD graduates.

British Columbia: Grade 12 High School Diploma with four academic courses at the Grade 12 level. Provincial exams are not required, except for Grade 12 English

Nova Scotia: Grade 12 or first year at a Nova Scotia university after junior matriculation

Quebec: Grade 12 or completion of the first year of a general program at a Collège d'enseignement général et professionnel (minimum of 12 semester subjects)

All other provinces: Grade 12

FOR STUDENTS FROM THE UNITED STATES

Graduates of accredited high schools will normally qualify for admission if the cumulative high school grade point average is 3.0 or above. In addition, applicants are encouraged to submit SAT or ACT scores to supplement their application. Where class rankings are reported on the transcript, a ranking in the top third is preferred. The University of Windsor has an official code to use when you submit your SAT scores (0904) and your ACT scores (7053).

FOR STUDENTS WHO HAVE COMPLETED THE INTERNATIONAL BACCALAUREATE (IB) DIPLOMA PROGRAM

Applicants who have completed the International Baccalaureate Diploma with a minimum overall score of 24, including at least three courses at the higher level, will be considered for admission. Applicants who are completing a provincial or national high school program have the option of being considered for admission on the basis of the high school program.

MATURE STUDENT POLICY

Applicants who do not meet the minimum academic requirements for admission to the University of Windsor may be eligible for consideration as mature students if they:

- 1) Possess an Ontario Secondary School Diploma (OSS Diploma) or equivalent and do not meet current minimum academic admission requirements. (Applicants who have not completed an OSS Diploma or equivalent must submit a profile.); and
- 2) Are Canadian citizens or permanent residents at the time of application; and
- 3) Will be at least 20 years of age prior to proposed date of enrolment; and
- 4) Have not been in full-time attendance at a secondary school within the previous two years.
- 5) May have attended an Ontario College of Applied Arts and Technology (CAAT) for one or more semesters with a cumulative average between a C- (60%) and a C+ (69%). Applicants to the Odette School of Business require a minimum cumulative average of 67%.

Eligibility for admission will be assessed based on the submission of the following supporting documents:

- 1) Transcripts of all high school and post-secondary experiences
- 2) A letter of application outlining their career ambitions, potential for success, work experience since high school and how these contributed to their potential for success, personal and professional development and training, and any other pertinent information, along with supporting documentation (where possible).

Applicants whose application package suggests a reasonable probability for success in university studies, will be considered for admission. Applicants seeking further consideration may do so through the Office of the Registrar in consultation with the Dean of the applicant's intended Faculty whose decision will be final.

Applicants with an OSS Diploma or equivalent who previously attended an Ontario College of Applied Arts and Technology (CAAT) for one or more semesters with a cumulative average below a C- (60%) at the CAAT from a program that was academic in nature must either upgrade or wait for two years before applying under this policy.

Successful applicants will be admitted as degree students. They are permitted to declare a major for which they are eligible.

Admission to many programs is competitive, and the University reserves the right to limit admission. Mature student applicants must satisfy all program specific admission requirements. Program specific admission requirements are listed in the Policy on Admission Requirements (Undergraduate).

This policy does not apply to applicants who have previously attended a university.

TRANSFER CREDIT FOR INTERNATIONAL BACCALAUREATE (IB) CREDENTIALS

Applicants presenting International Baccalaureate (IB) credentials have the option at the point of admission of receiving transfer credit for approved courses, where they have achieved IB grades of '5' or more, to a maximum of 10 courses (30.0 credit hours). Completion of the diploma is not a prerequisite for receiving transfer credit.

TRANSFER CREDIT FOR ADVANCED PLACEMENT (AP) CREDENTIALS

Applicants with Advanced Placement (AP) credentials may receive transfer credit for approved courses where they have achieved AP grades of '4' or '5', to a maximum of 10 courses (30.0 credit hours).

COLLEGE TRANSFER AGREEMENTS

For more information about college transfer visit uwindsor.ca/collegetransfer

APPLICATION DEADLINES

Applicants for full-time, undergraduate studies must apply through the Ontario Universities' Application Centre (O.U.A.C.). Current Ontario secondary school students should contact their guidance office for application instructions and apply by **January 16, 2019**. All others use the OUAC 105 application form, which is available at all Ontario universities or on the web at ouac.on.ca. Applicants for part-time studies must use the University of Windsor application form, which is available on the web at uwindsor.ca/ptapp

Candidates from outside continental North America must apply and submit all supporting documents to the Registrar's Office before **July 1** for registration in the Fall term.

All other candidates must apply and submit all supporting documents as follows:

For the Fall term: **August 1**

For the Winter term: **December 1**

For the Summer term
(Intersession and Summer Session): **April 1**

Year III Honours Bachelor of Social Work,

Social Work and Disability Studies,

Social Work and Women's Studies: **February 1**

NOTES

AWARDS, SCHOLARSHIPS AND MORE

GUARANTEED FINANCIAL SUPPORT

No matter what program you choose, you will be **guaranteed a minimum level of institutional financial support in the form of scholarships and/or bursaries** if you are entering directly from full-time secondary school studies, based on your application for admission and best six final and interim Grade 12 U/M level courses (or equivalent) available in May.

PRESIDENT'S LEVEL SUPPORT

95% to 100% Grade Range
\$4000 Renewable
over 4 years

DEAN'S LEVEL SUPPORT

90% to 94.99% Grade Range
\$2500 Renewable
over 4 years

BLUE & GOLD LEVEL SUPPORT

85% to 89.99% Grade Range
\$1000 for first year only

OUTSTANDING SCHOLARS PROGRAM

Each year, approximately 100 high-achieving, first-year students are offered status as Outstanding Scholar Candidates. In first year, Candidates will receive \$750 per semester in addition to their entrance awards. Candidates meet regularly with program advisors and are mentored throughout first year. Outstanding Scholars are paid to do research in Years 2-4. Students in all honours majors are eligible for the Outstanding Scholars Program.

To apply, please visit:

www.uwindsor.ca/outstandingscholars

ENTRANCE SCHOLARSHIPS BY APPLICATION

Our entrance awards recognize a combination of academic excellence, financial need, and good citizenship. Most awards are open to Canadian Citizens/Permanent Residents/Protected Persons. Complete your UWinAward Entrance Application Profile (available starting January 1) by March 31 to be considered. Submissions received prior to March 31 may receive early consideration. It is possible that the values associated with our application-based scholarships and bursaries will afford a student financial support that exceeds the minimum guaranteed level of financial support in year 1.

Scholarships/Bursaries		Entering Average Required	Renewable Over 4 Years	Value Per Year
\$32,000	Ed Lumley Bursary (For Windsor/Essex County Students Only)	70%	✓	\$8000

GOVERNMENT-SPONSORED STUDENT LOANS AND GRANTS

The Ontario Student Assistance Program (OSAP) is a financial aid program that can make it easier for students and families to go to university.

The program offers support for school through two kinds of funding:

- Grants: money you don't have to pay back (conditions apply)
- A student loan: money you need to repay after graduation

Funding is available for both full- and part-time postsecondary students, and is based on a number of factors, including your family income. Some students may get their tuition fully covered by OSAP.

For the loan portion, there are also programs to help you repay your student loan once you're done school.

Both the Ontario and Canadian governments provide this money.

For more information visit: www.ontario.ca/osap

FREE TUITION DRAW

Visit campus for an official event and get a chance to win free tuition.

UWINDSOR STUDENT ACCESS GUARANTEE

The Student Access Guarantee (SAG) is a partnership between the University of Windsor and the Government of Ontario. Under SAG, the University of Windsor ensures that qualified students receive enough non-repayable aid to cover their tuition, compulsory fees and books when these are above the usual range of costs covered by OSAP.

Visit: uwindsor.ca/awards/SAG

TIP: USE THE OSAP ESTIMATOR

The OSAP Estimator can help you estimate how much OSAP funding for which you might be eligible. Apply for government student aid by March 31 to assist us with assessing your need-based eligibility for entrance awards and bursaries.

TIP: USE YOUR AEROPLAN MILES OR TD POINTS

Convert Aeroplan® Miles and or TD Points to help you get your UWindsor education. Anyone can donate their points to you! We are excited to be a participating institution at higherpoints.com

CO-OPERATIVE EDUCATION AND INTERNSHIPS

Stand out from the crowd by mixing career-related, full-time, paid work experience into your academic studies. More than 250 companies post placements and internships in Ontario, Canada, and internationally.

- Business
- Business/Computer Science
- Chemistry/Biochemistry Internship
- Computer Science: Applied Computing; Software Engineering Specialization; Computer Information Systems
- Engineering: Civil; Electrical; Environmental; Industrial (with or without a minor in Business); Mechanical (with options in Aerospace, Automotive, Environmental and Materials)
- Honours Physics; Physics and High Technology; Medical Physics
- Kinesiology

Co-op & Internship students will participate in a mandatory job-readiness program (non-credit) through the Co-operative Education and Workplace Partnerships office. "Transform – Becoming a Professional with Purpose" is a new modular job readiness program that prepares students for their work terms while building soft skills and professional development during their work placement(s).

Felicia Bleary

Honours B.Comm Co-op Candidate

Felicia Bleary is a fourth-year Business student, concentrating in Finance at the University of Windsor. Co-op was a huge deciding factor in her final decision on where she was going to receive her post-secondary education.

Co-op has provided her with confidence, diversified skills, and a network to leverage throughout her career. She believes her three work terms will give her a competitive edge in the job market as she pursues her post-graduate career.
